nue near the dock in a few days. Duncan Ferguson had a new glass front put in and it will make a neat office. Owing to the refusal of the City Council to grant Mr. Ferguson a permit for alterations in the building, he was not able to improve it as much as he desired.

**Petitions Out.**—Capt. T. J. Macgenn, of the Breakwater has petitions in circulation among the boat owners and masters asking for new aids to navigation here, including new range lights near Jarvis Landing, North Bend, and the Libby bunkers. The Smith-Powers Company has burned nearly all their old slashings and the debris around their old camps and the smoke from them has caused some to think that the forest fires were starting early. Fire Warden Jess Smith has been inspecting the districts that have been cut over the past year and is arranging to guard carefully against losses of timber this year.

"The wagon that stands up like the reputation of its makers"

When you buy a Studebaker wagon you buy a wagon that will last until you turn the farm over to your son and he turns it over to his son.

One of the first Studebaker wagons ever made saw constant service for thirty years, and we will gladly send you the names of farmers who have in their possession wagons that have been in constant use anywhere from 17 to 48 years—and there are thousands of them. We are building the same kind of wagons today.

A Studebaker wagon is an investment that will give you full return for your outlay. It is built on honor, iron, steel, wood, paint and varnish used in its construction are tested and retested to make sure each is the best.

For work, business or pleasure—for town or country use—there is a Studebaker vehicle to fit your requirements.

Farm wagons, dump carts, trucks, buggies, surreys, runabouts, pony carriages, business vehicles of every description—with harness of the same high standard.

**Keep Miller Quiet.**—Bill Miller, who is in custody on suspicion of having kidnaped the fourteen-months' old child of Mr. and Mrs. Walter Smith of Bunker Hill last week, is still in the city jail. Constable Cox thought to give him a little exercise this morning by walking him up and down the fire hall but Marshal Carter objected and ordered him put back in the cell. As the air is none too good and there is no room in the cell for exercise, it was feared that the close confinement might have a bad effect on Miller.
