MAKING POISONED GIRL TO PHYSICIAN Roman Took Poison at Dance With Suicidal Intent—Automobile Overturns.

[By Associated Press to Coos Bay Times.] SACRAMENTO, Cal., June 17.—A man killed, one woman probably fatally hurt, and two other men injured, are the results of an auto crash one mile each of this city. Patton, of Sacramento, minor injuries.

CLOSE WATER FRONT ROAD

Archie Phillips Says Auto Drivers Must Stop Speeding on This Driveway.

Unless some of the Marshfield and North Bend auto speeders put on the pedal and the slow speed on the front road between Marshfield and North Bend they will cause much inconvenience for all automobile owners. This is the authorized statement of Archie Phillips, who is in charge of the S. P. railway camp located on the road between Marshfield and North Bend. Mr. Phillips says there have been already two or three narrow escapes from serious accidents as a result of reckless speeding and says that the first accident will be the closing of the road.

The opening of the camp was delayed because of the absence in Portland of Henry Sengstacken and the company desired to get his permission to locate the camp on his property. This permission was granted promptly by Mr. Sengstacken on his arrival and Mr. Phillips says he expects to have 100 men at work in a camp in a short time. The presence of this number of men will increase the liability of accident unless care is exercised by automobile drivers and motorcycle riders. Mr. Phillips says that the company has been granted the right of way by county court to closing the road if it becomes necessary.

LABOR UNION GREAT LOBBY

Senator Smith Says Measure Passed was Forced Through by Samuel Gompers.

[By Associated Press to Coos Bay Times.] WASHINGTON, June 17.—Senator William Alden Smith, of Michigan, declared today before the Senate labor investigating committee that the clause in the sundry civil service bill now awaiting Wilson's signature, exempting labor unions and farmers' organizations from prosecution under the Sherman anti-trust law, represented the work of a lobby. The American Federation of Labor, he declared, had lobbied for the exemption, although Gompers, the Senator said, had admitted to him that it was class legislation, a term former President Taft applied in vetoing the bill last spring. "The very bill on the President's desk today," he said, "was put through by a lobby of labor organizations."

"I am here," said Mr. Thomas, "to look into every phase of the litigation and to go over in detail with Messrs. Peck & Peck, our attorneys, every fact and feature of the case. The fact is that the Southern Oregon Company has been trying for years to cover up and bury our legal and equitable right to a half interest in all this property. Mr. Davis bought it and paid for it and there is absolutely nowhere in the record that it can be shown

LET US TALK IT OVER

ONE of the chief arguments of those opposed to municipal ownership of public utilities, is that the people are incapable of managing their own affairs efficiently and economically. They say that the general public is selfishly indifferent to communal good and that they are so concerned with their private affairs that they have neither time nor inclination for community welfare. This statement is going to be put to a test in Marshfield this week. The Oregon Railway Commission is going to investigate the complaints and condition of the water service in this city. The hearings will open at the City Hall at 9 o'clock Friday morning.

It is a matter of vital importance to the people of this community. Every man and woman who knows anything of the service and the conditions that have existed here should be present to add the weight of their evidence to the testimony that will be given at this hearing.

The Coos Bay Water Company has made application to raise the rates now being charged for water. Unless the people are on their guard they will once more find themselves the victims of private greed.

It is not only an opportunity but the duty of every citizen in this community to contribute his mite of information to the Commissioners. There should be some individual from every home in South Marshfield present at this hearing to tell of the service in that section of the city. If you cannot be present at the hearing, telephone or call at the office of the City Attorney or City Recorder and give your name, so that you may be called, if necessary.

It is now up to the people of this community to do their share in making such a showing that they will get the service to which they are entitled and for which they pay.

It is also up to the people to prevent the company from being permitted to increase their rates, because of indifference or neglect.

Every citizen should constitute himself a committee of one to do his duty in this matter.

Remember, the hearing will be held at the City Hall beginning Friday morning.

ALASKA LINE'S THREE ROUTES

Senator Chamberlain Introduces Bill for Government Railway System There.

[By Associated Press to Coos Bay Times.] WASHINGTON, June 17.—Three routes are under consideration for the Alaskan railroad system which would be authorized by a bill introduced by Senator Chamberlain, Cordova, at present the terminal of the Copper River & Northern Railroad; Controller Bay and Seward, on Resurrection Bay, the present terminus of the Alaska Northern Railroad, have been considered as the probable terminals of a great system that the Government would be authorized to construct. With the Panama Canal machinery at hand, members of the Senate territories committee estimated that in cases of emergency, such as a naval campaign in the Pacific, the railroad could be built into the Bering Lake coal fields near Controller Bay within three weeks.

COURT OVER; HARRIS HOME

Special Session of Circuit Court Concluded at Coquille—Kinney Cases.

Judge Harris, of Eugene, yesterday concluded the special session of Circuit Court which he was holding at Coquille for Judge Coke, while Judge Colke is presiding at Eugene. Nothing of importance marked the last day's session.

Judge Harris left last night via Myrtle Point and Roseburg, for home.

Yesterday Judge Harris granted a motion for a new trial in the case of the L. C. Smith Company vs. C. F. McGeorge. It seems that H. E. Stemmier, of Portland, manager of the L. C. Smith Company on the coast, who came here for the trial was stricken with appendicitis and could not appear. Judge Harris also scored the jury for bringing in a verdict for McGeorge, saying that under the old law he would set aside the verdict and find in favor of the plaintiff, but under the new law he hasn't so much leeway.

The Coos Bay Water Company has asked for time for requesting a new trial in its case against the Simpson Lumber Company.

Kinney Cases. Ira R. Riddle, of Roseburg, was yesterday appointed referee to hear the testimony in the Waite foreclosure suits against Major Kinney. The hearing is to start soon after July 1, in case the Wiley deal does not go through, and the testimony is to be ready for submission to the court by September.

Yesterday Judge Harris heard a number of motions, etc., to get the cases straightened out, but nothing important transpired.

It seems that Major Kinney admits the \$100,000 mortgage, but is contesting one \$24,000 note and one \$17,000 note.

It is intimated that some new developments in the Shahan estate claims are liable to become even a more important phase of the Kinney cases than the Waite case.

URGES GUARD AGAINST HASTE

"Stop, Look and Listen" Policy Urged by Underwood in Government Policy.

[By Associated Press to Coos Bay Times.] CHARLOTTEVILLE, Va., June 17.—A plea for conservation in politics, and a "stop, look, listen" policy to guard against the hasty adoption of ill-considered proposals, was the keynote of an address on "The Tendency of Our Times" at the University of Virginia today by Representative Oscar W. Underwood, of Alabama, Democratic leader in the House of Representatives.

Underwood said the adoption of two amendments to the Constitution within the past year was clearly a demonstration that there is a strong sentiment in the country to break away from the fixed standards that have controlled the Government in the past and that the onward movement is leading to an adjustment of our National life to new conditions and progressive ideals.
