PORT ORFORD OCCURRENCES.

News of the week as gleaned from The Tribune columns.
George Forty has made four trips to the rocks with his gasoline boat hunting sea lions, during the past week and each time has returned with all the hides that he and his four helpers can handle. About 25 lions make a good day's skinning of the rocks for this many men, and gives them another day's work on shore salting hides and taking care of the trimmings.
An automobile passed up the coast from Eureka last Friday. The two gentlemen in it were not very loud in the praise of the roads they had come over. The roads still bear the marks of the past winter, and the showers of last week made automobile driving anything but pleasant as more than one party discovered to their sorrow.

Capt. Anderson will take the Enterprise to Portland to be inspected and on his return will bring a load of freight to Wedderburn. The Randolph is high and dry on the beach south of Rogue river, and will be hauled across the spit and launched into the river. The accident to her was due to the carelessness of engineer Wolf in leaving the plug out of the gasoline tank, so that in crossing the bar salt water entered it and stopped the engines.—Port Orford Tribune.
