PURE BUT ODOROUS.

BY RULING of the department of agriculture Limburger cheese is classed as pure food in that it is a violation of law to label as limburger something that is not limburger. The ruling came in the case of a Chicago packer who had shipped to Kansas City some cheese labelled "Voll Milch Allgauer Style Limburger Cheese." The department ruled that the manufacturer had violated the law by branding it in such manner as to make it appear of foreign make when it was of domestic manufacture. To the exposure of the cheese maker's fraud no one will object though the action of the bureau in listing limburger as pure food will be questioned by many.

Being Interesting Bits of Gossip About Gasoline Cars in General and Goodrum's in Particular.

The Breakwater's arrival added three more to the numbers of the popular Ford cars in Coos county. They were consigned to Geo. Goodrum and were all sold before arrival. It has not been a question of selling Ford cars but a question of getting them. Mr. Goodrum remarked this morning when discussing the unusual sale of this favorite auto. Continuing he said: "It seems almost incredulous that it is so difficult to secure Ford cars when you know that they have an output of 200,000 cars this year. The speed and accuracy with which a Ford car is built was demonstrated before the Society of Automobile Engineers of America, when they visited the factory of the Ford company in Detroit recently. "Guests of the American society included a delegation of the Institute of Automobile Engineers of England. The president of the English society, T. B. Brown of London, was told to mark a cylinder as he was passing through the machine shop. This he did. "When the party had finished the tour of inspection and were preparing to depart, Mr. Brown was greatly surprised to discover the cylinder he had marked in the car that was to carry him to a nearby hotel for luncheon. "The car had been built and was running under its own power in less than an hour. The development of the automobile is one of the marvels of the century. The Goodrum service department continues to be a great convenience to automobile owners not only on Coos Bay but in all parts of Coos county. Orders came recently from Bandon and Coquille that would have ordinarily caused several days delay but were filled immediately from the Goodrum service department. "You may say also," Mr. Goodrum remarked at parting, "that Goodrum is still selling tires and that Goodrum is the only one on Coos Bay who makes tire adjustments on the spot without delay."

FACED THE PEN FOR HIS FAMILY

LaFrance Says He Would be Free. Only He Couldn't Leave Wife and Kiddies.

G. T. Treadgold, the Bandon attorney arrived in the city yesterday on his way home from Portland, where he has been engaged in the Wofford-LaFrance case, involving a \$3000 mortgage he held against the Wofford property.

Mr. Treadgold says LaFrance is proving an enigma to the officers as they are unable to get any information as to his accomplices in the insurance frauds, although he admits he had the assistance of two outsiders. LaFrance declares that if convicted, he will have to go to the penitentiary and he thinks it would do no good to drag the others along.

In a personal talk Mr. Treadgold had with LaFrance, who was known as Feger during his residence in Bandon, LaFrance said he could have easily made his escape but he could not leave his wife and children. "I made up my mind," LaFrance said, "that I would rather be caught and have it over with than to leave my family, so my arrest was really a relief." The prisoner also expressed great disgust for the detectives. He said he was staying at The Gallier hotel and also at The Multnomah hotel at Portland at the time the detectives were supposed to be searching for him and that he met and talked with the detectives every day, but they did not apprehend him. He also said he met many Portland people and talked with them after his supposed death.

The property case will come up in the U. S. court in Portland early in July, when Mr. Treadgold will return to continue his contest.

He left for Bandon this morning.

DIAMOND IN IRONS.

Roseburg Officers Will Take No Chances With Bank Robber.

The Roseburg Review says: "Sheriff Quine and Deputy Hopkins will take no chances with Diamond en route home from Gold Beach, but will keep him well ironed and guarded. Hopkins remarked that he only regretted that they did not make the hike over the West Fork trail the second night after the robbery, when they turned back on account of the heavy rain. He thinks Diamond would have been intercepted on his way down Rogue river as there is only one trail for him to have traveled."

STUDY CLUB ELECTS OFFICERS.

The Woman's Study club met on Friday afternoon at the home of Mrs. R. B. Hoag. It was the last meeting of the season—somewhat belated, having been twice postponed. The club rule regarding visitors had been set aside, in honor of little Miss Robertson, but to the great regret of all the young lady was not well and therefore did not make her appearance. The time was devoted wholly to business. The following officers for the coming year were elected: Mrs. W. J. Longston, who is expected home very soon, president; Mrs. Emma M. Lyons, first vice-president; Mrs. J. S. Lawrence, second vice-president; Mrs. R. H. Smith, secretary; Mrs. C. J. Furlman, treasurer. The club will meet again in October.—Coquille Sentinel.

FORMER RESIDENT WRITES.

Dindinger Brothers today received the following self explanatory letter from J. D. McNeil, a former Coos Bay real estate man, who moved to Burns a year ago:

"There is almost nothing doing here and no assurance that the railroad will build within the next two or three years. The cost of living is something terrible. As an example we get three bars of Sunday Monday soap for 25 cents, 10 pounds of sugar for \$1, nine pounds of corn meal for 75 cents, five pounds of salt for 50 cents, gallon cans of fruit at from 80 cents to \$1, each, and other merchandise is proportionately high. The country will be good when the road is finished but some of us cannot hold out that long."

Mr. McNeil intimates that he is longing again for Coos Bay, but does not state that he is coming back soon. His letter will probably be of interest to some on Coos Bay who have been complaining.

VALLEY TEAMS HERE SUNDAY. Coquille and Myrtle Point in Marshfield and Bandon at North Bend. It is expected that the special train tomorrow will bring big delegations of fans from Coquille, Myrtle Point and Bandon for the league games on the Fox, Coquille and Myrtle Point will play in Marshfield, the Coquille team playing the first game. Bandon plays at North Bend. The Bandon team has been suffering from some internal dissension, but a meeting was held there last night and the matter was probably adjusted. North Bend will have a few changes in its lineup but Captain Denny Hull hopes to administer the first defeat of the season to the Bandon aggregation. Manager Ogren announces Marshfield's lineup for the Coquille game as follows: Perkins, C; Freeman, p; Abbott, lb; Hedgpath, 2b; Bigbee, 3b; Burke, ss; Woods, Briggs, McKeown and Dewey in field. For the second game with Myrtle Point the lineup will be about the same with the exception that Johnson, Jarvis or Al Jensen will pitch. Both Jensen and Jarvis are old timers in the game. H. J. Kimball will umpire both games in Marshfield.

WILLIAM J. BURNS THE DETECTIVE. Famous Detective May be Seen in Pictures at The Grand Theater. Detective William J. Burns, the famous guardian of the law, personally appears in an extraordinary production entitled "The Exposure of the Land Swindler." This great picture play is based upon an actual occurrence which vividly portrays his modern scientific methods in bringing criminals to justice. Miss Alice Joyce, the premiere motion picture actress, and a large company of artists, appear in support of Mr. Burns in this powerful drama, which was produced in the South, in New York, in Washington, 161 No. 10th, Mondays, 8 a. m. 5 p. m. DRY IN MYRTLE POINT. New Law Stops Shipment of Booze To That Place. The burning thirsts of certain Myrtle Point citizens may no longer be slaked in secret. No longer may the demijohn or keg be shipped here from Coquille or Marshfield labeled "almshouses" or "vinegar." A new state law, just in effect, puts an end to the old method of getting liquor into dry territory. Each package of intoxicating liquor shipped into any territory in which the sale of intoxicating liquors for beverage purposes is prohibited by law, shall contain the name of the consignee, the name of the consignor, the name and address of the person ordering such liquors, the kind and quality of the intoxicating liquors in such package and the place from and to which the liquor is shipped, each and all written or printed in the English language in large letters or type, attached to the package in a conspicuous place or position where it can be easily read.—Myrtle Point Enterprise.
