In the manufacture of the phosphate fertilizer it is evident that the farmers have gotten down to raw material prices at every point. Iron oxide is bought and roasted. The freed sulphur is employed in the manufacture of sulphuric acid. The natural phosphatic rock is bought and treated with the acid for manufacture of the fertilizer. In this way the farmers buy for themselves only the raw material and conduct every step of the manufacturing process themselves. It is a large undertaking, but it has succeeded. The produce of the plant supplies fertilizer for farms of 115,000 acres about the city.

The actual demonstration of the ability of a community of farmers to thus initiate and conduct economically a manufacturing business of this size was the most convincing lesson of the practicability of agricultural co-operation which the Commission has yet seen.

The enterprise is carried on by the Consortio Agrario, an association of landowners. In this part of Italy the soil is mostly owned by large landowners, and is farmed through a tenant system on a share basis. Consequently co-operation as it would have to be practiced in the United States is not to be seen here. The men belonging to the association are landowners and the small farmers receive only indirect benefit from the co-operative association without entering into their management. In such an enterprise as the one seen by the Commission in Piacenza it is clearly shown that an association of farmers or landowners are capable of giving an economical administration to a business enterprise. There is no paternalism nor leading strings connected with the project. It is such a business undertaking as would be worthy of the best of American enterprises.

The association has erected a large warehouse for storing farm implements. A majority of the machines are of American manufacture, but the assertion so often made in the United States that American machinery is cheaper than at home did not seem a Marshfield to be borne out by comparisons of prices made by the members of the Commission with the managers of the warehouse, although the prices quoted at the warehouse were practically wholesale prices, since no profit is sought in the sale of implements to members of the co-operative institutions.

Credit for operations of this kind is obtained through a co-operative bank, but not one of the rural type. It is a co-operative bank with two...

to second on Morgan's error and came home on a hit by Burke. Mike Burke played a fast game at short, making a pretty one-handed stop of a bad bouncing grounder. Mickey McKeown made a remarkable one-handed catch of a long foul drive to right field by O'Neil in the fourth inning.

On this catch, Coquille made good its contention that baserunners in returning to the bases, must touch all the sacks. Piper going backwards around the bases from home to first and O'Neil doing the same, although he had hit a foul. It was over this point that Marshfield and Coquille wrangled a few weeks ago at Coquille, Marshfield quitting the game. Now it is expected that President Kern will decide the contest in favor of Coquille instead of ordering the game played over as Marshfield had expected.

PETERSON IS EDITOR. North Bend Young Man Heads Monmouth... MONMOUTH, N. J., June 30.—The June issue of The Monmouth, published by courtesy of the class of 1913 of the Monmouth Normal school, is also termed the graduating number, has been distributed and reflects credit on the editor-in-chief, Emil R. Peterson of North Bend, and his efficient staff. The June issue is more pretentious than the previous ones issued during the year, the place of honor being given to the graduation organizations of which President Kern pres...

GAME IS TIED BY TIME LIMIT

Myrtle Point and Marshfield One to One—Norm Johnson Pitches Great Game.

COOS LEAGUE. W. L. P.C. Bandon... 5 1 .833 North Bend... 5 2 .814 Coquille... 2 4 .333 Marshfield... 2 4 .333 Myrtle Point... 1 4 .200

The Marshfield and Myrtle Point game here yesterday was declared a tie at the expiration of the time limit. At the end of the nine innings, the score stood one to one and there was only eight minutes to play. In the first half of the tenth, Myrtle Point scored one and Marshfield's second batter was at the plate with one gone when the game was called.

Umpire Don Gardiner declared that the game had to revert to the score at the end of the even innings and thus the game was a tie, although the score was actually two to one when the finish was called. Some of the Myrtle Point team thought that the inning should have been played out and the game decided on its merits, which in view of the score in the tenth would have probably been in favor of Myrtle Point, but Umpire Gardiner would not stretch the rules.

The game was a good one, and was a pitcher's battle in which Johnson led struck out 12 men and fielded perfect. He played a phenomenal game throughout. Myrtle Point's only score in the first nine innings, which technically constituted the game, was on a series of flukes. It was in the fourth inning, Guernsey was hit by Johnson and got first base. He started to steal second and Perkins' peg was a little low, Hedgpath missing it and the ball striking Guernsey on the head and bounced far into right field. Guernsey landed on third and came home on Herman's hit, a bad throw being all that prevented Perkins' catching him at the plate.

Marshfield's score came in the fifth inning. Perkins got a pretty single and took second on an error of Miller's and came home on Norm Johnson's single. Hedgpath followed with a pretty hit, advancing Johnson to third. He stole second but Hall took a new twist and struck out Dewey and Abbott, closing the inning.

Dewey, Marshfield center fielder, did some good work in the field, making one especially hard catch early in the game. Woods misjudged a fly which was between center and left field, and some of the crowd thought that the error was on Dewey. The total receipts in Marshfield yesterday were about \$130. The game was slow in starting, the original plan having been for Coquille and Marshfield to play first, but that Myrtle Point was to play first and did not show up in the diamond. After some discussion in which President Kern pres...

was finally decided to let Myrtle Point play the first game.

BANDON LOSES TO NORTH BEND

Hull's Team Takes Visitors Down the Line—Much Betting on Result.

North Bend yesterday administered the first defeat of the season to Bandon, taking Redillon's nine down the line 7 to 4.

There was considerable betting on the game, one of the Coach boys of Bandon winning about \$600 by betting on North Bend. He is said to have won \$100 off his brother. Bandon scored two runs in the first inning, Johnson coming in off Gaffney's error and Van Northwick getting a home run by hitting the ball into a hole. In the fourth, they scored two more runs on two hits and two errors.

North Bend scored in the first. Gaffney hit to center and Young bunted. Densmore walked, Surbeck was hit by Osborn and Satar walked, forcing Keller in. McDonald struck out.

In the fifth, Sater got a hit. So did Keller and McDonald. Thomas landed safe. Hull sacrificed and Gaffney got a hit, the six hits netting four runs.

In the sixth, McDonald hit safe, Thomas beat out a bunt. Hull hit to second and McDonald scored. Thomas scored when Gaffney hit to second.

Table with columns: AB, R, H, P, O, A, E. Lists scores for Bandon, Pinelli, Sigaby, Johnson, Van Northwick, Stafford, Smith, Tiger, Pierce, Osborn, Hull.

COAST LE BASEBALL

Portland Wins From Oakland Venice Also

Portland Wins From Oakland Venice Also. It was a good game throughout, Osborn letting up in the fourth inning and allowing six hits which netted North Bend four runs. Many of the Bandon fans were sore at Osborn, intimating that he could have kept down the runs in the fourth.

There were about 800 in attendance. H. J. Kimball of Marshfield, umpired.
