COAST LUMBER SHIPPED EAST

PANAMA CANAL TO OPEN UP NEW TRADE FOR PACIFIC NORTHWEST — WILL OPEN PLANTS.

CHICAGO, Ill., July 10.—The American Lumberman says: "From various sources come hints that the lumber business is getting ready for the Panama Canal. The general opinion seems to be that the way to handle West Coast products in the East after the opening of the canal is to ship to manufacturing plants on the eastern seaboard which shall be operated in connection with distributing yards. Such projects are already under way in Philadelphia, and perhaps elsewhere, while a number of West Coast people are studying the matter with diligence. Over a year ago these investigations of the matter began. At that time the lack of vessels suitable for the lumber business through the canal somewhat curbed enthusiasm; but vessels are being built in numbers and while at the opening of the Canal there will probably be a shortage of tonnage that matter will be remedied as fast, perhaps, as the trade demands it. Those who expect that Pacific coast woods are going to jump into the eastern markets at the rates of hundreds of millions of feet a year at the start will be disappointed, but there is room, and there will be increasing room as the years go on, for West coast lumber, and those who will make money out of the business are those who most carefully study the situation and make most careful preparation for the trade that is to come."

News of the Lumber World

INTERESTING NOTES OF THE LATEST DEVELOPMENTS IN LUMBER TRADE AND CONDITIONS

TROUBLE WITH UNIONS.

Captain Robt. Dollar Dislikes San Francisco Labor Conditions.
Captain Robert Dollar, the prominent steamship owner and lumber dealer of San Francisco, was in Portland recently, says the Pioneer Lumberman. Captain Dollar came to see if something could not be done to bring about more friendly commercial relations between San Francisco and the cities of the Pacific Northwest, which are strained because of the embargo placed by San Francisco on finished lumber except flooring from the mills in the Pacific Northwest. As a result of the demand for the union label on the sized lumber by the building trades' unions in San Francisco finished lumber from Portland and other Pacific Northwest points is run through the machines in the San Francisco mills, without the knives touching them, Captain Dollar states, with the result that the consumer pays several dollars more a thousand than if he bought it without this additional handling. The purpose of putting it through the machines is to give the San Francisco mill employees the same revenue as if it had been received there in the rough. The cost not exceeding \$1 a thousand feet, whereas under the present system in San Francisco it costs the consumer \$4 a thousand. It is held that this method checks to a considerable extent the movement in finished lumber. As a retaliatory measure the Pacific Northwest lumber manufacturers are doing everything in their power not to patronize San Francisco manufactured goods that they have occasion to buy.

SELL MANY LOGS.

Weyerhaeuser People Dispose of Big Stumpage—Directors Elected.
TACOMA, Wash., July 10.—During this last year approximately 750,000,000 feet of timber was sold by the Weyerhaeuser Timber company to between 40 and 50 mills throughout the state, according to the report of General Manager George S. Long, read here the other day at the yearly meeting of the board of directors of the company, held in Tacoma. The policy of the company, it was stated by Mr. Long, is rather to sell the timber in the form of logs than to manufacture it, though the Weyerhaeuser Lumber company is preparing to erect another large mill at Everett, to be under the management of W. S. Boner. The following directors were chosen for the timber company, after which last year's officers were re-elected: F. Weyerhaeuser, St. Paul; P. M. Musser, Muscatine, Ia.; F. C. Denkmann, Rock Island, Ill.; L. Lamb, Clinton, Ia.; William Carson, Burlington, Ia.; J. P. Weyerhaeuser, St. Paul; F. S. Bell, Winona, Minn.; F. H. Thatcher, Winona, Minn.; H. H. Irvine, St. Paul; W. L. McCormick, Tacoma.

PRICE OF LOGS.

Puget Sound Boss Loggers to Keep Up the Price.

The Pioneer Lumberman prints the following concerning the Puget Sound district logging:
Logging operators declare that they cannot reduce logs below the present scale and make any margin on their timber, and therefore they have served notice to the millmen that if the market on finished products does not justify the mills in paying the scale of \$7, \$10 and \$14 on logs it might be well to discontinue operations until market conditions improve. The reason loggers take this stand is because, they say, the cost of logging is greater than it has ever been before, and that the timber is worth the present scale if it is worth anything at all. Undoubtedly there is small margin for the mill that is buying its raw material in the open market, and the result is bound to be greater conservatism in slashing prices to get business, and a better control of the whole situation.

WILL INCREASE VALUE.

Cruise of Part of Clatsop County Timber Finished.

ASTORIA, Or., July 10.—The Nease Timber company, which has the contract with the County Court for cruising the timber in Clatsop county, Oregon, has filed reports on several sections. The new cruise on 35 sections in the southern part of the county fixes the amount of timber at 810,588,000 feet, whereas the assessment on the old roll was 201,000,000 feet. As this timber was formerly assessed at 30 cents a thousand feet, the change will increase the valuation on the assessment roll about \$180,000 on what practically is one township.

LUMBER NOTES.

The Pioneer Western Lumberman of San Francisco, prints the following:
During the month of May, the big mill of the C. A. Smith Lumber Company cut on an average of 458,000 feet of lumber a day, which probably exceeds the record of any other sawmill on the Coast, operating a ten-hour day.

FOREST NOTES.

Canada's forest area is about 800,000,000 acres.
Mills in British Columbia are shipping considerable paper pulp to Japan.
The Canadian Forestry Association holds a forestry convention in Winnipeg, July 7 to 9.
On the best German forests the annual expense is \$13 an acre, but the gross returns are as much as \$24; thus they yield a net return of \$11 an acre each year.
Four launches are used in patrol and transportation work on National forests in Alaska, which include many small islands and inlets.
Motion picture companies are making films of all of the activities of the Federal forest service, including planting, cutting timber, patrol and lookout work. Already at least two fire-fighting "movies" are being exhibited.
Application has been received by the Government for a summer home colony on the Shoshone National forest, Wyoming. The plan is to have a central assembly hall for community gatherings and separate cottages for the several families of the communal recreation center.
Sacramento, California, is to have a municipal ice plant to cost \$50,000.

"MARRY AND LIVE LONG."

Chicago Statistics Show Single Persons Die More Rapidly.

CHICAGO, July 9.—Want to live long? Then get married.
Single blessedness is not conducive to longevity. The mortality table for 1912 in Chicago, as compiled by Dr. C. St. Clair Drake, statistician of the health department, reveals an astonishing increase in the death of bachelors and single women over the married folk.
In summing up the mortality rate, Doctor Drake, the department statistician, said:
"The death rate of bachelors is 29 1/2 per cent higher than of married men and the mortality rate of single women is 40 per cent higher than of married women. Men here die more rapidly than women."

Important Notice

To the Viavi patrons and those wishing information regarding Viavi, would state that the representative, Mrs. Riley, will be at her rooms at 161 No. 10th, Mondays, 8 a. m. to 5 p. m. Phone 155-X.

If seven doctors had told you, as they did C. E. Blanchard, of La Grange, Calif., that you had but a short time to live on account of kidney trouble, what would you do? He says: "I took Foley Kidney Pills and they completely cured me and I can not speak too highly of them." Cost less than the doctors, but accomplish more. Owl Prescription Pharmacy, Frank D. Cohan, Opposite Chandler Hotel. Phone 74.
