MACHINE TO
BURN STUMPS

W. T. Hendryx Places His Pat-
ent Air-Blast Distributer
on Exhibition.

Wm. T. Hendry has placed on ex-
hibition at the "Busy Corner" a mod-
el of his patent air-blast distributer
accompanied by a number of photo-
graphs illustrating its effectiveness as
a stump destroyer on logged off
land. The purpose of the invention
is to provide for the even distribu-
tion of air generated by a fan operat-
ed by an electric motor or other high
primary nozzle provided with a num-
ber of apertures to permit an even
distribution of the blast.

The accompanying photographs
illustrate the practical application of
the invention in the burning out of
stumps in a field to be converted
into agricultural use. For this pur-
pose a hole is drilled into the stumps
and the latter ignited in such cavity
and then air furnished through a noz-
zle provided at the discharge end of
the hose connected with the distrib-
uter, so as to promote and continue
the combustion of the stump in one
or several places at a time until the
stump has been entirely consumed.

The simplicity and practical effec-
tiveness of the invention is apparent,
and has been proven by practical ap-
plication. Its tremendous value in
this section for clearing the logged-
off lands makes it an important fac-
tor in the development of the coun-
try.

Properly handled it should prove a
fortune maker for the owner as well
as a great time and money saver for
ranchers in clearing lands.

TIMES ARE BETTER.

Elmer E. Dover Says Business is
Picking up.

PORTLAND, Or., July 10.—Elmer
Dover, of Tacoma, vice-president of
H. M. Byllesby & Co., and president
of the Oregon Power Company, is
a guest at the Portland, where he
expects to meet the various heads
of the power plants in the Willam-
ette Valley, and the Coos Bay dis-
tricts, which are under the control
of the power company. The trip is
a regular monthly tour of inspec-
tion.

"We notice a very good increase
in industrial conditions in this dis-
trict, and our receipts show a good
increase over the same months of
last year," said Mr. Dover. Mr.
Dover was for many years secretary
of the Republican National commit-
tee and was also private secretary
to Mark Hanna.

SNEER AT FLAG
TO COST JOB

Washington School Teacher
Will be Ousted—Is Leader
of Socialists.

EVERETT, Wash., July 11.—The
 Snohomish County Superintendent of
Schools has refused to approve the
employment by the Arlington, Wash.,
school board of J. E. Sinclair, of Ta-
coma, as principal of a school at Ar-
lington. The matter has been appeal-
ed to the State Superintendent. It is
charged against Sinclair that he is
unpatriotic. Sinclair, in his capacity
of the Socialist State Educational
Bureau, recently issued a circular to
the boys and girls of the state, which,
after criticizing the laws by the legis-
lature, said:

"The funniest of all the laws that
they made down there by the Olym-
pia Oyster beds is this: Once every
month when you go back to school
next September, you will have to go
out in the yard and stand up in the
room and salute the capitalistic flag
and tell the following to it out loud:
"I pledge my allegiance to my
flag and to the republic for which it
stands. One nation, indivisible, with
liberty and justice for all."

"If you will not salute the flag
and say this stuff to its face, you will
be punished by your capitalistic
teachers or expelled. Now, boys and
girls, what do you think of these
laws?"

I. W. W. IN PORTLAND.

Three Leaders Arrested for Actions
in Strike.

PORTLAND, Ore., July 11.—The
first arrests in the Oregon Packing
company labor disturbance were
made when Police Sergeant Harms
and a squad of bluecoats took three
agitators into custody and locked
them up in the city jail on a charge
of disorderly conduct. Those arrest-
ed were Miss Mary Schwab and Ru-
dolph Schwab, natives of Russia, and
Henry Schoen, a native of Germany.
They are said by the police to be
professional agitators, and are al-
leged to be members of the I. W. W.
According to Sergeant Harms, Miss
Schwab, her brother and Schoen have
been trying to foment trouble at the
packing plant for several days by in-
cendiary speeches, by the use of vio-
lent, profane and obscene language.

Shortly after noon, the trio was
caught applying the vilest kind of
epithets to the women workers who
are employed by the company, and
although cautioned to desist, they
disregarded the warnings of the po-
lice and the arrests followed.

The action of the police in locking
the three disturbers up was the direct
result of the order issued by Mayor
Albee to Chief of Police Clark. The
mayor instructed the Chief to see
that a sufficient force of his men
were stationed about the plant to
maintain law and order, also to per-
mit no person, striker or otherwise,
to use abusive, obscene, vulgar or
threatening language. The agita-
tors were to be forbidden to block
the streets and sidewalks in front of
the place and all violations of this
order were to be followed by imme-
diate arrest.

SHIPYARDS WERE BUSY.

1648 Vessels With 382,304 Gross
Tonnage Turned Out.

WASHINGTON, D. C., July 11.—
There were 1,648 vessels, aggregating
382,304 gross tons, built in the United
States during the fiscal year end-
ed June 30, according to the depart-
ment of commerce. This was the
largest construction since 1908. Com-
pared with the fiscal year of 1911,
although the number of vessels con-
structed was not so great there was
an increased tonnage of 133,512
tons. Of the 121 metal steam ves-
sels constructed, 36 were built on the
Great Lakes.

The closing month of the year saw
173 sailing, steam and unrigged ves-
sels with a tonnage of 30,725 tons.
The largest ship built during the
month was the Congress at Camden,
N. J.
