

BANDON WINS SUNDAY GAME

Defeats Marshfield Two to One Despite Johnson's Good Twirling.

Marshfield lost to Bandon yesterday at the City-by-the-Sea by a score of two to one. The game was a good one, even if Marshfield lost. A home run by O'Connor brought in the winning score for Bandon, the first run being scored on a wild throw by Norm Johnson and an error by Freeman.

Johnson pitched a rattling good game, according to all the fans who saw the contest, and they claim that Marshfield was really entitled to win. Milley, who has been pitching for Coquille, twirled for Bandon. Perkins got two or three nice hits off him. Abbott also got a good hit. Johnson allowed but three hits, one being a scratch at that.

Marshfield's weakness at the bat cost them the game, or rather the weakness of some of the players.

Some changes in the lineup will probably be made for next Sunday's game.

North Bend Team Pays.

Last evening Manager Hull of the North Bend team is said to have given all his regular men a check last evening for \$50, as their share of the profits so far. The North Bend team has been making good money and the funds raised by subscription have not been drawn upon.

NORTH BEND IS EASY VICTOR

Defeats Bandon Six to Two in A Rather Ragged Game—Hull Twirls Good Game.

North Bend took a rather ragged game from Bandon yesterday afternoon. Hull pitched for North Bend and twirled a good game, especially in the tight places. North Bend had a number of errors and were responsible for Bandon's two runs. Hull overthrew first base and the ball went into the crowd, letting one man in. Later Sater did the same thing and another man scored. Smith in left field played the best game for Bandon, shutting off several prospective runs for North Bend. The score:

Bandon	A. B. R.	H.	P. O.	A. E.
Pinola, ss	4	0	0	1
Sigsby, 3b	3	0	1	2
Johnson, c	4	0	1	0

Myrtle Point Losses.

Coquille defeated Myrtle Point at Coquille yesterday 7 to 4. Osborn, the former Bandon pitcher, pitched the first two innings for Coquille and Collier finished. Poland twirled for Myrtle Point and is reported to have been touched up for 15 hits. It was a rather ragged game.

New Twirler Here.

A man named Steele who has been on the Bay recently claims to have pitched for Boston two years ago and is reported to have been making big claims about his ability as a pitcher and wanting to be \$1000 on any team that he would be allowed to pitch for. He was at Bandon yesterday but did not play.

Here Next Sunday.

Coquille will play Marshfield in Marshfield next Sunday morning and in the afternoon, following the Elka game, Bandon will play Marshfield.

Higbee, Marshfield's new third baseman, will make his first entry. He was to have played yesterday but was slow in starting and had to spend Sunday at Gardiner.

Want to Protest.

Some of the Coquille players are reported to be trying to get Marshfield to contest yesterday's game on the ground that Milley and another Coquille player jumped to Bandon. They are said to have been signed by Coquille. Whether a protest will be made is not certain.

sound sufficiently loud to serve as an adequate warning of danger.

While making compulsory the use of a powerful signal, the law stipulates that no person shall make or cause to be made any unnecessary noise with such signal or use the same except as a warning of danger.

Legislation of this character in the interest of public safety and public comfort has done much toward removing the nuisance often felt by the motorist.

TO REGULATE AUTO HORNS

Warning Signal Required But Its Use Should Be Restricted.

There is much just complaint of unnecessary noise made by Marshfield automobile horns. As the City Council is about to consider an ordinance regulating this matter, the following press dispatch telling of conditions in other sections as shown by the following press dispatch:

HARTFORD, Conn., July 14.—Several amendments to the state automobile laws have just been passed by the Legislature and signed by Governor Baldwin. These amendments were made with two ends in view: to insure the maximum of safety in the operation of motor vehicles and to eliminate unnecessary noise.

The most important sections deal with brakes, mufflers and warning signals. All cars of over 10-horsepower must be provided with at least two powerful brakes. The motors of all automobiles must be muffled at all times in such a manner that the noise of the exhaust will not constitute a nuisance to the public.

The section relating to warning signals is of especial significance, as it closely conforms to similar action taken last month by the state of California and to measures now in effect in over a score of large cities. It provides that every motor vehicle shall be equipped with a signal device "which shall produce an abrupt
