Official Paper of Coos County.
OFFICIAL PAPER OF THE CITY OF MARSHFIELD.

A CHANCE FOR LEGITIMATE ENTERPRISE.

SECRETARY MADDOO says that "the failure of the First-Second National Bank of Pittsburg is simply a sporadic case of unsound banking and has no other significance," and declares that the receiver-ship has removed a long-standing " sore spot" in the Pittsburg situation, and leaves the general condition in that city sound. All of which is good news.

CALL OUT THE MILITIA.

THE Socialist party of Oregon, acting through a mass meeting at Portland, denounces the "business mob" at Bandon which drove the agitator Leach from the town. In the extraordinary set of resolutions adopted by the Socialists one may discover the enunciation of several new and strange doctrines—new and strange to the ordinary Socialist mind. The right of free speech is vehemently upheld, which is neither new nor strange, when the Socialists want to talk; but the indefeasible right of private ownership of property is likewise asserted, and the eminent value of the militia is recognized. Else why the demand that the "community of Bandon and Coos county be required to pay to Dr. Leach all damages that he may have sustained, even, if necessary, using the militia to that end?"

Thus we see that the right of the community to confiscate the property of any individual citizen is denied and the odious militia is all right if it may be employed to protect a Socialist. Your Socialist is hot for confiscation or division of all the world's wealth so long as he has none; but when he has something, he even sees virtue in the militia.

The public might have been better impressed with the sincerity and validity of the Socialist protest if there had been similar action in defense of free speech, for example, following the outrageous outbreak at the Bandon-Powell meeting in Portland a year or more ago. But what has your Socialist ever done for the flag, or law and order, or free speech, except to assert his own individual rights and beliefs against the rights, duties, opinions and needs of all others, including the state itself?—Oregonian.

Many a man thinks his brilliant son is a chip of the old block when he is merely a chip of the old blockhead.

GOOD EVENING.

I shall try to teach the children that true sportsmanship is entertaining, not wearing; life, not killing; quest, not evasion; peace, not strife. We want them to understand the joy of sport, not for the sake of victory, but for the joy of the exercise, for its present joy, the health it holds in store and all it means in the after years.—Selected.

JUST A TRAIL OF GREEN.

There was a shining street of gold, But just a trail of green Where grasses ran across the mold Beside a brook serene.

There were no amaranths of light, Nor fadeless asphodels, But just wee daisies, shy and white And violets in the fields.

There was no chattering cherrubim, But just a raptured lark Made music on a nearby limb From morning until dark.

There were no pearly gates ajar Nor throne from glory spun, But just the quiet evening star, And just the morning sun! —Edward Wilbur Mason.

"Should Woman Tell Her Husband Everything?" is a question that is now being discussed. "Coos Bay wives will probably first find out whether he can keep it a secret."

One scientist says the sun will cool off entirely in 90,000,000 years. That will be bad for the Coos Bay strawberry crop that year.

The man who goes to bed with a clear mind will get up in pretty good shape to enjoy the glorious Coos Bay sunrise and the birds' morning song.

Uncle Joe Cannon is wrong when he says the women will vote for the handsomest men. There is plenty of evidence in Marshfield that they don't marry the handsomest.

At last the secret of this beastly weather is out. Thirty-one men were discharged from the weather bureau in one week recently. That's why it is still raining. The new men don't know the combination.

DR. GEO. E. DIX left via Myrtle Point auto line this morning for Roseburg en route to Minneapolis where he will spend a few weeks with relatives. He may also visit in Ohio before his return. Rumors that Cupid had anything to do with his trip were stoutly denied by him.

MISS ROSE SMITH, a daughter of Mr. and Mrs. J. S. Smith, returned this week by way of California, from New York, where she has been attending Columbia University. Miss Smith is a graduate of O. A. C., and has been doing some advance work at Columbia. She will spend her vacation here and take a position at O. A. C. at the beginning of the school year.

ENGINEER WOLFRAM of North Bend was a Marshfield visitor today, coming over to confer with Engineer Wheeler. As usual, he had nothing to say about his work and just what he is surveying here for the Southern Pacific is as much of a mystery, so far as any official statement is concerned, as ever. However, there is little doubt in the minds of those who have been watching the progress of his crews that he is working on a route for a Coos Bay-Bandon line, as was announced in The Times soon after his arrival here the last time.

AID FOR DR. LEACH.

Socialist in Bandon Case Calls for Use of State Troops.

A Portland paper says: "Friends of Dr. B. K. Leach, editor of a Socialist paper, who was ordered to leave Bandon, Coos county, a few days ago, will appeal to Governor West in an endeavor to secure redress for the doctor, who, they declare, has been deprived of the use of his property and his rights as a citizen. 'At a recent meeting of the Socialists of Portland the following resolutions were passed: 'To Oswald West, Governor of the State of Oregon: 'Whereas, A mob of business men of Bandon have by force compelled Dr. Ballely K. Leach, of that city, and other citizens to leave their homes and business, and 'Whereas, The only cause of their action was that Dr. Leach held and expressed views not in accord with those of the aforesaid business mob, and 'Whereas, His property has been destroyed, his life threatened, and his rights as a citizen denied, and 'Whereas, The business men's mob has not only done these things, but has also, with the connivance of the duly constituted authorities of Bandon and Coos county, violated the constitutional rights of free speech and free press, through the suppression of Dr. Leach's paper, 'Justice,' 'Resolved, That this meeting call upon the Governor to see that Dr. Leach is protected in his constitutional rights and in his rights as a citizen, and that the community of Bandon and Coos county be required to pay Dr. Leach all damages that he may have sustained either in his property or his person, even, if necessary, urging the militia to that end.

'Resolved Further, That, failing to get action by the governor and the state authorities, the Socialist party take such political action as will bring about the protection to the citizens of the State of Oregon.

Signed CHAS. H. OTTEN, Chairman, C. W. BARZEE, Sec'y."

JAVA COFFEE HOUSE IS SOLD

H. A. Wells Disposed of Well-known Restaurant and Will Take Rest for Awhile.

H. A. Wells has disposed of the Java Coffee House to Mr. Alexander of Cottage Grove, Oregon, who recently arrived on the Bay. Mr. Alexander will take charge in a few days, probably next Monday, when his wife will arrive to assist him in the management of the restaurant.

Mr. and Mrs. Wells have been in charge of the Java a little over seven years, having taken possession of it seven years ago last June. They have made no immediate plans for their future except that they will remain in Marshfield and for a time will enjoy a well earned rest. They are planning a camping trip after which Mr. Wells is undecided as to whether he will join the retired millionaire class or build a new railroad to Coos Bay.

Sell Blanco Cafe. Manos Brothers have sold the White House Restaurant on Front street to A. E. Geer and G. M. Geer, who arrived recently from Tacoma, Wash. At Tacoma, one was employed as an engineer and the other was in the billiard parlor business. They have taken possession and renamed it the Blanco Cafe.

RAILWAY BUYS IN NORTH BEND

The Southern Pacific has closed negotiations for the purchase of about two acres of land on the North Bend waterfront from the Coos Bay Condensary Company. The deal was negotiated through C. S. Winsor of the Bank of Oregon. The Southern Pacific had been negotiating for the property for some time and last winter secured figures on the property. However, it is presumed that by negotiating through Mr. Winsor they secured it on better terms. Just what will be done with the condensary plant is not certain. It will not have to move for some time yet as the S. P. will not need the ground for a while. The S. P. has instituted condemnation proceedings for a right of way through the North Bend box factory grounds, but it is understood that this will probably be settled out of court and the company take the whole site. This, with the condensary property, will afford them an excellent combined freight depot and docks and warehouse site.
