Boost for Good Roads Tonight

GOOD road boosters have come to the conclusion that success in that line has shimmered down to a business proposition, active work and communal co-operation. The meeting at Odd Fellows Hall is to be a concrete expression of this interest. Every citizen and every taxpayer should give evidence of his interest by his presence. If the good roads proposition can be placed on a business basis, we will soon get the right kind of results. Roads have to be built by the use of brains as well as the hands. Come out tonight and boost the cause along.

Perham & Gidley Secured \$65,000 Grading Contract There Last Evening.

WILL HARD SURFACE AREA NEXT SUMMER

Several Blocks of Hard Paving Ordered for This Year—Many Improvements.

The North Bend City council last evening awarded the contract for improving the streets in the northwest part of the city to Perham and Gidley of Marshfield for about \$65,000.

The improvement consists of grading and filling the street in that section of the town embraced in the district between California street and the baseball park and from Sherman avenue west to Harrison avenue. It is planned to pave it next season.

There were three bidders for the work. The Spokane Paving and Construction company bid 37 cents per cubic yard for the work. Hugh McLain of Marshfield bid 34 cents per cubic yard and Perham and Gidley put in a lump bid of a little over \$65,000. It took considerable figuring to determine whether Mr. McLain or Perham and Gidley were lowest bidders, but it was finally found that the latter were about \$2800 below Mr. McLain, making their bid about 32 cents per cubic yard.

There is approximately 190,000 cubic yards of dirt to be moved. It was stated today that Porter Brothers would have put in a bid if the council had deferred action until tonight. However, as they had postponed action once, they did not feel that it would be justified. Perham and Gidley's bid is considerably below the engineer's estimate of the probable cost of the work.

Plan Hard Paving. The council also ordered plans and specifications prepared for several blocks of hard paving. Whether bituminous, asphalt, treated blocks or other paving will be used will probably be determined by the bids and estimates. The hard surface paving proposed for this year is:

Two blocks on Stanton avenue from 450 feet south of Vermont to Washington street.

Two blocks on Washington from Stanton to Sheridan.

One block on Sheridan from Washington to Virginia.

The council also established the following grades: On Virginia from Sheridan to Jackson. On Virginia, Hamilton, McPherson and Monroe between Virginia and California.

NORTH BEND FOR BETTER ROADS

Council Adopts Resolutions Favoring \$500,000 Bond Issue for Coos County.

The North Bend City Council last evening adopted resolutions favoring the proposed \$500,000 bond issue by Coos County for the construction of permanent highways. The resolution will be presented to the Good Roads Association meeting at Marshfield tonight by Dr. Bartle.

The North Bend Council also adopted a resolution to the Coos County Commissioners asking them to urge Road Supervisor Perkins, of the North Bend-Empire road district, to keep up the roads in better shape. It was stated that he was doing fine work on the new road but that he was neglecting the old highway and the dust holes are making it nearly impassible. It is proposed to put a man on the road with some crude oil for use on the dusty places and keep it in good condition.

North Bend will send a big delegation of autoists and have chartered Gorst & King's big touring car to come to the Good Roads meeting in a body. They will bring the North Bend band.

No Kinney News.—Nothing new has turned up in the Wisley-Kinney deal locally today and no direct confirmation has been received from Portland about the syndicate having made arrangements whereby Waite and Kollock would reduce their claims or the steamer Liberty judgment being taken over. Unless it is again delayed, Judge Harris' appointment of V. E. Waters as receiver should reach here within a day or two. Fred Hollister, of North Bend, states that neither he nor Judge Hammond have taken any action to delay the appointment of a receiver in the case.
