Little Talks on the Teeth

This is the first of a series of helpful and informing talks on the care of the teeth, which will be well worth reading:

FOR GOOD TEETH USE

REXALL ANTISEPTIC TOOTH POWDER.

If you want to be beautiful, you must first have beautiful teeth. The smile that charms is the one that reveals good teeth—white and clean, set in firm, red gums. No smile can be charming without them. In man or woman, discolored teeth are unsightly, repellent evidence of lack of proper attention to cleanliness. Often you see an otherwise beautiful woman whose good looks are ruined by poor teeth. On the other hand, you often see persons who would otherwise be ugly but for one redeeming feature—perfect teeth.
