

A New Water System

During the present week plans have been completed by this Company whereby a water system will be installed and water service extended to every home in First Addition.

Many choice building lots which we are now offering for sale are situated along the new system.

Home-builders who insist on modern conveniences can buy 50-foot lots for \$300 each on terms to suit themselves in this high-class addition on the South Side.

Rapid progress is being made on the city streets and the streets in First Addition which are being graded and planked to give access to the heart of this growing district of homes.

For full particulars of our home-builders' plan, call at our office.
