JUDGE WATTERS RECEIVER FOR MAJOR KINNEY'S PROPERTIES

North Bend Man Appointed July 29 by Judge Harris at Eugene, to Take Charge.

WILL TAKE CHARGE IN NEAR FUTURE

Judge Bronaugh Reported in Portland—Claim Englishmen Will Buy It Later

Mr. E. Watters of North Bend received his appointment by Judge L. D. Harris of Eugene as receiver for the L. D. Kinney properties, the Belt Line Railway Company and the Rapid Transit Company, subsidiary corporations of Mr. Kinney. The order was made by Judge Harris July 29.

The announcement of Mr. Watters' appointment did not come as a surprise, owing to the announcement of Judge Harris while on the same time ago.

Just what effect this will have on the Wilsey-Kinney deal is causing more or less speculation. H. C. Diers, who has been Mr. Wilsey's agent on the Bay for some time, stated today that he had not had direct advice from Mr. Wilsey in the last few days about the matter. However, it is reported here that Judge Bronaugh returned to Portland Sunday and that conferences were held between him, Mr. Wilsey, Mr. Waite, Judge Hammond and others on Monday and Tuesday evening. Just what transpired is unknown. What Judge Bronaugh's report was is not known either, but it is judged that it was not for closing the deal or else any objection would have been filed with Judge Watters to stay the appointment of receiver so that they could close up at once. It is stated now that the English syndicate will probably endeavor to get hold of the property through a receivership, but whether the property will be sold in bulk to a syndicate or parcelled out will probably depend on how close the syndicate's offer comes to the appraisement to be fixed by Watters as receiver.

The appointment will go into effect as soon as Judge Watters qualifies. A bond of \$50,000 as required for the L. D. Kinney property, the bulk of the estate involved, \$500 each for the Belt Line Railway and the Rapid Transit Company are required, making a total of \$51,000 all told.

Judge Watters stated today that he had made no plans whatsoever on the matter but would proceed expeditiously as his business judgment would show it could be done to the benefit of the creditors and Kinney. He stated that he had considered the selection of an agent yet. Soon after the announcement was made here this morning that he had been named receiver, it was reported that a Eugene lawyer would be named owing to most of the leading attorneys of the Bay being involved as attorneys for either Kinney or the receivers. Judge Watters' statement is to this effect.

For Kinney is pleased over the appointment, considering the situation. He would have liked to have the Wilsey deal go through, but owing to the danger of losses he would sustain in the foreclosure of mortgages and tax sales, he feels the receivership only protects him and his creditors.

Judge Watters during his residence in North Bend and previous Benton County, has won a reputation as a man of integrity and good business judgment and there has not been the slightest objection made by anyone to his selection, in fact, nearly everyone approves of Judge Harris' selection.

VIOLA LATTIN DIES SUDDENLY

South Inlet Girl Stricken With Ptomaine Poison From Green Peaches.

Miss Viola Lattin, the 14-year-old daughter of Mr. and Mrs. Milton Lattin, of South Inlet, died this morning at half an hour after midnight, from ptomaine poisoning, thought to have resulted from eating green peaches.

Mrs. Lattin returned home last Friday with a box of peaches, purchased in Marshfield, which were partaken by the family. Some time later Viola complained of feeling ill, but symptoms did not become serious until Wednesday, when she was seized with a severe headache. A physician was summoned, but she rapidly grew worse until 3 o'clock yesterday afternoon when she became delirious and continued to sink until she passed away early this morning.

Viola Lattin's death comes as a severe shock to her parents and a large family of brothers and sisters and many friends. She was a bright, winsome girl, the youngest of the girls of the family and the only one remaining at home. She was popular and a general favorite and the news of her death will be received with general regret.

The immediate relatives of the dead girl in addition to her parents, are her brothers, Bruce and Clyde Lattin, who live at the old home; her sisters, Mrs. C. Boutin, of Coaledo, Mrs. C. A. Stiffler, of South Inlet, Mrs. R. Jensen, of Taft, California; Mrs. Warren Payne, of Woodlake, Truckee County, California; Mrs. M. Montgomery, of Eureka, California, and her brother, Orrin Lattin, of South Inlet.

The funeral will be held from the Milton Lattin home tomorrow afternoon at 2 o'clock. Rev. Burkhardt, of the Marshfield Presbyterian Church, officiating.

CROSS EXAMINE MULHALL TODAY

Lively Tilt in Lobby Examination Between Senator and Attorneys.

[By Associated Press to Coos Bay Times.] WASHINGTON, D. C., July 31.—The Martin Mulhall cross examination by the attorneys for the National Association of Manufacturers before the Senate lobby committee today opened with a lively row between Senator Reed and Attorney Robert McCarter. McCarter insisted on asking questions himself and Reed insisted that all questions should go through the committee. Chairman Overman ruled with Reed. McCarter precipitated an outbreak by asking Mulhall if he had not been discharged from the Cleveland police force ten years ago for violation of the state law. Mulhall replied he was dismissed for political reasons and demanded counsel. "Instead of being intended to throw light on this case, many of these questions are designed to throw mud at the witness," declared Senator Reed. "This is an investigation, not a trial. I insist that you have no right to say a word here," he concluded, addressing McCarter. Mulhall withdrew his demand for counsel, and the hearing proceeded with the attorneys submitting their questions to Chairman Overman.

Mulhall said he had not published all the letters between himself and the manufacturers' association. Mulhall denied that Samuel H. Springer, who lives at his house, tried to dispose of the letters to the Philadelphia Press and the Philadelphia Record. Mulhall denied that he ever offered the correspondence to two magazines or to the New York Times. He denied having made a statement to Richard Barry, who was representing him, that the manufacturers' association would pay \$150,000 for the documents if they could be disposed of to papers or magazines.

PRESIDENT WILSON WILL NOT RECOGNIZE HUERTA IN MEXICO

COOS COUNTY LAND INVOLVED

T. S. Minot Files Suit Against Southern Oregon Company in Behalf of Locators.

PORTLAND, Or., July 31.—More than 100,000 acres of Oregon lands are involved in a suit to be filed in the United States District Court by T. S. Minot, an attorney of San Francisco, representing a group of more than 100 unorganized locators in Coos and Douglas Counties, against the Southern Pacific Company, a corporation, and the state officials, asking for a receiver of the property of the defendant company, that the property be conveyed to the state and that an injunction be issued restraining the defendant company from further "depredations" upon the property.

The land at issue is that originally deeded by the Government to the Coos Bay Wagon Road Company in consideration for the construction and maintenance of a wagon road between Roseburg and Coos Bay in 1869.

The complainants allege that in violation of the privileges extended under the terms of this grant, the original Coos Wagon Road Company sold large tracts of land to one John Miller, alias Ambrose Woodroof, who, it is alleged, acted "solely as agent, and for the benefit of" Collis P. Huntington, Charles Crocker, Leland Stanford and Mark Hopkins, the "big four" of the Southern Pacific.

These lands, according to the complaint, then were transferred through various other agencies to the Southern Oregon Improvement Company, which was the immediate predecessor of the Southern Oregon Company, the defendant in this suit.

The several complainants have filed on various tracts of land included within the original Coos Bay Wagon Road grant, and hope, through this suit, to gain title to the property.

BRING RAILS FOR RAILWAY

Breakwater to Bring Material to Build Line North from Marshfield Line.

The steamer Breakwater on its next trip here from Portland, it was stated today, will bring the rails and equipment for the construction of the Southern Pacific line north from the city limits of Marshfield through North Bend. Part of the grading has been done and the balance along there will be rushed with the new construction locomotive brought in yesterday. Hauser & Hauser are now grading the old road approach to the right of way where it emerges from the Simpson Park cut, the steam shovel being changed on to that work.

The Breakwater sailed this afternoon for Portland with a good list of passengers and a fine cargo of outgoing freight.

Tillamook Cargo.

This afternoon Superintendent Miller stated that the Breakwater would only bring some tie plates, etc., about two carloads in all. He said that they wanted the Breakwater to bring about 854 steel rails but this was difficult for the Breakwater to handle with her other cargo, and consequently the Tillamook will be chartered to bring them in.

No news has been received from San Francisco concerning the bridge across Coos Bay and some of the officials here think that nothing will be done on it before next spring, although others claim the work can be prosecuted during the winter.

It became known that President Wilson was formulating a policy entirely friendly in character toward Mexico and that it did not contemplate recognition of Huerta under any circumstances.

TO CONFISCATE LANDS.

Mexican Rebels Plan to Grab Great Estates in Mexico.

[By Associated Press to Coos Bay Times.] DOUGLAS, Ariz., July 31.—Under a law just enacted by the constitutionalists state Congress of Sonora, the holdings of the great land barons of the territory under control of the rebel government are declared forfeited. According to advices received here today, the government machinery at Hermosillo already has been put in operation to confiscate the estates of all persons not in sympathy with the constitutionalist cause. This number includes all the great land owners, among them the Torres and Terrazas families, who hold millions of acres. The law provides also that all holdings which the property owner is unable or unwilling to cultivate, shall be forfeited. A communal committee of three has begun inquiry into all land titles.

He is now out on bail pending the appeal from his conviction and a sentence of two to seven years in state prison for causing a riot during the strike. He will appeal from today's decision.
