

KINNEY SCORES WAITE TODAY

Major Gives Out Bitter Statement Concerning Those Involved in Deal.

A new phase of the Kinney affair came forth today when Major Kinney made a new announcement of his position in the matter. In connection with it, he announced that F. B. Waite on his visit here this week had offered him \$20,000 for his (Kinney's) equity in the Kinney properties and that he (Waite) would then handle the receivership and make what he could out of it. Mr. Kinney says that Waite has made him several offers in the past, ranging from \$5,000 to \$100,000 for the properties, but that he has scorned them all as he did the present one. Major Kinney also states that Judge Bronaugh during his visit here did not talk business with him (Kinney) for a minute.

Just how soon Judge Watters as receiver for the Kinney properties can proceed with the affair is a matter of considerable discussion locally. Some claim that the Waite mortgage foreclosure will have to proceed and that the property will have to be sold under it and then during the period allowed for redemption, Judge Watters will simply have to sell the equity to Major Kinney. It is reported that the matter will come up for action at the coming term of court.

Major Kinney declares otherwise. He says the property will have to be first appraised and that one of the first appraisers will be a seaport man who will know the values of property. He says the English clients of Balfour Guthrie Company, for whom Judge Bronaugh made the trip to London, through their banker, picked the South Inlet property as the most valuable on the Bay. Major Kinney says that he has familiarized himself with receivership proceedings and he will show those who think he is in a bad position that they don't know as much about it as they think they do. He says that Judge Harris, Judge Watters and Attorney Bryson are mighty fine men and that his interests will be protected.

Some Warm Messages. Today he gave out the following copies of telegrams that he had just sent:

To F. B. Waite, Sutherlin, Oregon: I am surprised that you ignored your definite engagement with me yesterday. Now Mr. Waite, in my opinion, the best thing for you and I both is for you to return to the Bay at once and adjust our differences. The so-called Wilsey English syndicate deal is only your own manipulation, in keeping with all your conduct of the last ten years to wreck and defeat the Belt Line Railway project, a continued conspiracy. I have all your records and will press the Belt Line fight against you to the bitter end from now on. The discouraging feature is that you have not property or wealth enough to pay the full judgment which any court would grant to the Belt Line Railway Company and myself. I have tried so hard to avoid this last bitter fight, the last warning I will give you. Yours respectfully, L. D. Kinney.

To Earl C. Bronaugh: You will please sent at once all the abstracts with reference with my properties, including the little bank record book to Virgil Watters, Receiver, North Bend. In my opinion the Wilsey English syndicate deal is nothing more than a Waite manipulation; it is not fair to use my abstracts against me. If you do not return them I will collect from you personally their full value. Yours respectfully, L. D. Kinney.

To W. J. Wilsey: Please send me by return mail the option signed Feb. 21; the side agreement, same date; the Certificate of Agency and the two Belt Line stock books. Yours respectfully, L. D. Kinney.

PARTY VIEWS KREIS PROJECT

Eastern Promoter Takes Real Estate Men to Cooston—Greene's Investigation.

Joseph Kreis this afternoon took a number of local real estate men to Cooston to look over the Crawford Point tract of 500 acres on which he recently took an option with a view to promoting an industrial town there. He plans to interest the local real estate men in selling the tracts in lots, part of the money to be used in financing the factories, etc.

Mr. Kreis' plan as originally submitted to the Marshfield Chamber of Commerce, was to take an option on a large tract, subdivide part of it and sell it in lots. Part of the tract was to be kept as sites for factories when they could be secured. The arrangement was one whereby not much cash would be necessary to swing the deal. President Greene of the Marshfield Chamber of Commerce after investigating Mr. Kreis refused to have anything more to do with it. Then Mr. Kreis made the arrangement with the Crawford Point Land Co. How long his option runs on the property and the detailed nature of it has not been stated.

The Roseburg Review says: "At a meeting of the board of directors of the Coos Bay Townsite Company in this city, Dr. A. F. Sether was elected president and John M. Throne secretary. The company expects to soon transfer their holdings on Coos Bay to an Eastern syndicate represented by Joseph Kreis."

A Portland paper says: "A petition to intervene was filed in the Federal Court by the Vulcan Iron Works in the libel suit of the Union Oil Company against the schooner Anvil. The oil company furnished the vessel with fuel oil at Astoria on a number of occasions, for which it claims it was not paid, and an action to recover \$1255.17 was accordingly started. MEETS WITH ACCIDENT.

Word reached here a few days ago that Mrs. Quellen met with a painful, if not serious, accident. Mr. and Mrs. Quellen were in a buggy coming from Port Orford when they met an auto. The horse became frightened, reared up and turned around, turning the buggy over, throwing its occupants over the grade. Mrs. Quellen is a large fleshy woman and by the fall received many serious bruises, but no broken bones. It is said that the auto causing the trouble was that of Mayor Straw of Marshfield. If so, the horse cannot be blamed for getting out of the way, as the Mayor and his crowd would have never seen it unless they were displaying more sane and sober sense than they did many times going through our little town. It is hoped that Mrs. Quellen's injuries are not serious and that she will soon recover from the accident.—Gold Beach Globe.

NEW COAST LINE.

Messrs. Drew and Gee, manager and lineman respectively of the Bell Telephone Company at Marshfield, made a trip to Rogue River last week looking over the telephone line with a view to putting it in good condition. Mr. Drew stated that the company was going to put it in first class shape, and that the larger number of the poles from Bandon to Gold Beach would be replaced with new ones and that a heavier wire would be stretched instead of the old one. The work will be commenced within the next few weeks and will be completed as soon as possible.—Port Orford Tribune.

"PUNCHER" GOT MIXED

Grabs Bicycle Handlebars in Darkness for Steer Horns.

Editor Times: While returning to camp during the wee sma' hours of the morning of the 17, a Dutchman (?) by the name of Olie Olson, who has been cooking for the buckaroos encamped on the fair grounds, had a very narrow escape. While meandering along in a leisurely manner, he noticed what looked like two horns protruding from some bushes by the wayside. Thinking that he had run afoul of a wild steer, and having heard that the best way to handle that specie of animal was to grasp their horns firmly with both hands and by a quick twist throw the steer on his back, where he would be helpless. Moving cautiously toward the spot from which the horns protruded, he made a mighty leap, letting out a blood curdling yell at the same time, and grasping the horns with both hands in the most approved manner. The force of his leap carried him through a section of fence and off the bridge into about three feet of water. He showed great presence of mind, however, for he clung frantically to the horns of the "steer," and when he hit the water his first thought was to land the long horn on his back. Then began a desperate battle and the "Dutchman" was nearly winded when a rubber tired wheel hit him on the side of the head and he discovered that he had been doing the "bunny hug" with a bicycle. Sheepishly he crawled forth from the slough, and returned to camp vowing that never again would he try to beat the world's record at "bull dogging" a bicycle.
