LIGHTLESS LIGHTHOUSES.

WE HAVE the horseless carriage, wireless telegraphy, smokeless powder, etc., and now we are having the lightless lighthouse. Should the wireless lighthouse stations installed at Brest, France, which automatically sends out warning messages to ships every few seconds without the help of man, prove a success...

GOOD ROADS AND GOOD SCHOOLS

AN EXCELLENT point in favor of highway improvement was made by Charles H. Davis, President of the National Highway Association, in an address before the Society for the Promotion of Engineering Education...

The value of farm lands and buildings in the United States is \$35,000,000,000. Two million miles of improved highways will increase the value of the lands \$10,000,000,000...

The fact that good roads pay for themselves in increased values of farm land and decreased transportation expense has long been conceded.

With bad roads the distance from the farm to the schoolhouse is really increased several times, so far as accessibility is concerned.

Educators generally concede that school consolidation in the country districts is essential to good education. We are afflicted with too many weak schools.

Goods roads would remedy this quickly and effectually. Larger school districts could be formed, better schools maintained and better teachers procured.

NORTH BEND NOTES.

B. Hodgson, of Catching Inlet, was a North Bend visitor Saturday.

The Porter mill, which has been closed down for some time undergoing repairs, began operating this morning.

The Missionary Society of the United Brethren Church will meet Thursday afternoon at the home of Mrs. Fred Lyster in Bangor.

Mr. and Mrs. J. Strong, of Myrtle Point, passed through here Saturday on their way to Empire on a short outing.

Mrs. Oscar Oman, of South Inlet, was the guest over Sunday of Mrs. John Freeland.

SUES MILL COMPANY.

A. W. Goddard has sued the Tide Water Mill Company at Florence for \$5,000 damages on account of a broken foot, claiming negligence on the part of the company, by whom he was employed at the time of the accident.—Eugene Guard.

MRS. WM. BUCK PASSES AWAY

Well-known South Marshfield Woman Succumbs to Injuries Today.

Mrs. Wm. Buck, a well known South Marshfield woman, died this morning at her home following a severe hemorrhage. She had been ailing since an accident a year ago, when she was run down and severely injured by a car on the Smith Lumber Company's tramway.

Mrs. Buck, formerly Kate Cossingham, was born near Grimsby, England, April 2, 1860, and came to America in 1891. She lived at Salem for a time and she and Wm. Buck were married there in 1899, coming direct to Coos Bay where they have resided ever since.

One daughter by a previous marriage survive her. She and Mrs. Alex McLean spent a few months with her mother here last fall. She formerly lived at Augusta, Ga., but is now at Berkeley, Cal.

Mr. Buck has wired her and until word is received from her, arrangements for the funeral cannot be perfected.

GIVEN HOUSING WELCOME

Norman Johnson and bride returned this morning from Yoncalla, where their wedding ceremony was performed last week at the home of the bride's sister, Mrs. P. Huntington, on Wednesday.

The bride and groom, hoping to give their friends the slip here on their arrival, were landed at the dock of the Gulovson-Johnson furniture store, but the strategy proved to be of no avail, for the crowd was there waiting to extend congratulations, rice and other articles.

The young people will make their home at the C. A. Johnson residence.

MUCH PROGRESS ON RAIL WORK

F. E. Allen Says They are Hastening Bridges and Track Laying.

F. E. Allen returned this morning from a trip to Albany, where he attended a convale of the Grand Commandery, Knights Templar. Mr. Allen returned by way of the Siuslaw from Eugene to Florence and inspected the work being done along the Coos Bay-Eugene line of the Southern Pacific.

The grade is pretty well completed all along the line and Mr. Allen said he counted five or six concrete mixers at work at different points making concrete piles for the bridge piers.

Track is laid as far as the Noti tunnel and the contractors are shipping their materials to that point in box cars now, several cars standing on the track there when Mr. Allen came through. They expect to complete the Noti tunnel within 30 days and after that the work of laying the rails to Mapleton will be commenced.

Mr. Allen says that there was a fine turnout at the convale of the Knights Templar and all had a fine time. Among other events was a reception to the visiting Knights.
