MILK AND BUTTER.

COMMENTING upon Postmaster General Burleson's scheme to send milk by parcel post, the Boston Transcript says: "All you'll have to do will be to buy a quart from Farmer Jones for eight cents and get by return mail a pound of butter worth forty." The Transcript seems to have an exaggerated idea of the amount of butter one pound of milk will produce.

Any time you see a man waiting on himself when he is home you can bet that he is mad at his wife.

A fool and his good opinion of himself are not soon parted.

Any Coos Bay girl would rather have cold feet than large ones.

When a Coos Bay man limits himself to so many drinks a day he forgets how to add after the fifth drink.

THE OLD Grouch SAYS:

"Anyway, a married man doesn't have to worry, he knows the worst."

Blessed is the woman who can get along on a short allowance.

As soon as a self-made man gets married his wife begins making alterations.

Fall and Winter APPAREL For Ladies and Misses

The wonderfully large and attractive line that we have assembled will make, we know, history in our Ladies' Suit Department.

Strong as usual are the plain blue and black serges in new and jaunty styles. Besides which we show an almost bewildering collection of the new novelty weaves. New gray Taupe, brown effects, will be much in demand.

Undoubtedly there never was such a charming assortment of distinct new styles ever shown in this city before.

Our Suits range from \$15 to \$45.

Fall and Winter Coats

We have now on display all the latest modes in the new heavy rough materials including Brocaded Velours, Plain and Novelty Striped Boucles, Zibelines, Astrakans; by far the most attractive garments we have shown in years. Many have long revers, cuffs of Beaver Pile, tapered backs, slit seams, mandarin sleeves, are among some of the distinctive style features.

Our coats range in price from \$7.50 to \$40.00.

Gorgeous Evening Dresses

\$15.00 to \$50.00—all shades.

THE NEWS OF NORTH BEND

\$600 TO AID HOTEL PROJECT

Fred Hollister Gives \$500 and E. G. Perham \$100 in North Bend Friday.

"The way the good people of the city of North Bend are so generously contributing towards the subscription fund for the purchase of a hotel site, it looks as though it is only a matter of a week until the whole sum of \$25,000 will be in," said D. A. McLeod yesterday. "With \$600 more subscribed in a single day the fund is brought to near the \$17,000 mark. The two new donors are Frederick Hollister, \$500 and E. G. Perham of the Perham & Gidley Co., who gave \$100. "The spirit shown by the people of North Bend in the matter of these subscriptions is certainly encouraging," said D. A. McLeod of the Chamber of Commerce. "And I believe it will be only a matter of a week or ten days until the whole amount is subscribed. The great event that the city is looking to now is the day when they shall sport a hotel such as they shall be really proud of. Let us all be content with the fact that it is only a question of time now as the site is practically assured."

T. B. James of Marshfield was a visitor at North Bend yesterday.

PUPILS WORK; NO ATHLETICS

Half Day Session Plans in North Bend High School Spoils Football Hopes.

The North Bend High School has given up the idea of having a football team this season. There are not enough boys who can conveniently practice or play. It is feared that this will lessen the enthusiasm over football on the Bay some, but from the way the Marshfield High is working they will be able to get two good teams from their own school. The half day session at the High School has a had effect on athletics, according to Prof. Grubb, who has not noticed any activity among the boys in that direction as yet. "The good men have all picked fine afternoon positions," said the professor in speaking of the situation yesterday, "and the inducements offered them are too great to have them distracted by sports. We hope that, while the good men in the athletic line are busy at other lines, they can at least devote a little time to organizing and furthering activities in the athletic direction."

Thomas Cassidy, employed on the railroad tunnel construction work was arrested on the charge of drunkenness.

STREET WORK IN NORTH BEND

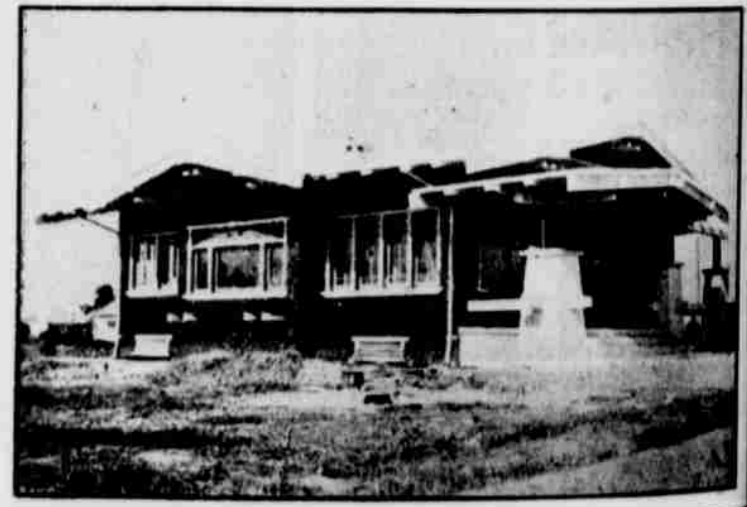

Contract for Large Amount of Grading Awarded by Council Last Night.

The North Bend City Council last evening awarded the contracts for about \$31,000 worth of street work there. Most of it is to be started this fall and to be completed as soon as possible. Ohio, Delaware and Stanton are to be completed by next May. Moon & Barclay, Perham & Gidley, Peart Brothers & Mintoyn of Coquille and John Hakanson, Ira Padrick and Anderson Klockers of North Bend were the bidders. The awards were as follows:

To Peart Brothers & Mintoyn, grading Union, Meade and McPherson streets from Virginia to California and Sheridan from Washington to the Ball Park. The cost was estimated as follows: Union, \$1,810.35; Meade, \$3,180.10; McPherson, \$3565.40 and Sheridan \$15,935.55.

To John Hakanson, Ira Padrick and Anderson and Klockers, grading Connecticut, Montana, and Florida from Sherman to Sheridan, Delaware from Sutherland to Stanton and Stanton from Delaware to Ohio. The estimated costs are: Connecticut, \$1,067.48; Montana, \$2,006.86; Florida, \$1,041.99; Delaware, \$585.65; Stanton, \$702.22.

F. E. CONWAY COMPANY BUYS SITE FOR HOME OFFICES HERE

TYPE OF CONWAY BUNGALOW.

One of the largest recent turns in local real estate was closed this morning in which F. E. Conway secured the southwest corner at Sixth and Central, where the Christian Church now stands, part of which was leased by the church. The property was purchased from the C. A. Smith Company and Henry Sengstacke. The corner is 100x100. The consideration is not mentioned, but it is known to be a spot cash deal and was made through W. A. Reid and the Coos Bay Realty Company. This is one of the most valuable business corners on Central avenue west of Fourth street. Mr. Conway intends to immediately erect a two-story building on the corner 50x100 feet, the ground floor to contain show rooms, offices and stock rooms for the F. E. Conway Company. A complete supply depot will be arranged on a wholesale basis where all kinds of material will be carried to supply this company with the material necessary for the construction of the many modern bungalows which they contemplate building all over the Bay. At present this company has under construction fine modern bungalows for W. H. Painter, North Bend warehouseman; M. E. Everitt, prominent North Bend druggist; J. W. Motley, secretary of the Marshfield Chamber of Commerce, and James Bennett, chief engineer of the big Smith mill at Marshfield. These homes aggregate \$12,000.00 and are located from one end of the Bay to the other. They are also just closing other contracts. The second story of the building will contain up-to-date apartments, one of which Mr. Conway and family will occupy and others will be occupied by members of the office force. The F. E. Conway Company has decided to make Coos Bay permanent headquarters for their interior and operations all over the Coast. This company has successfully built scores of homes all along the Coast. They buy material in large quantities for spot cash, thereby taking advantage of all discounts. They have expert workmen who are divided into different crews. First the carpenter is built in the office by their draughtsmen and estimators; then the material is laid on the ground, a concrete crew runs the foundation; there are followed by a carpenter crew who build the house ready to plaster, then shinglers, plumbers and painters follow; the plastering crew. After the plaster is dry the finishing crew, composed of cabinet makers and finishers put in their work. Here where the real artistic touches are given a modern bungalow, in a beautiful built-in buffets, arched bookcases, fireplace nooks, wainscoting, plate rails, beams, hangings, window seats, wood lifts, fast nooks, range hoods, linoleum boards, Dutch kitchens, line closets, medicine chests and other too numerous to mention. The finishing wood men follow the finishing crew, putting down the floors and last thing about a good house is set in place. These are then scraped, and sanded by machine, by hand until a perfect surface of glass is obtained. Lastly the finishing paint crew complete the building makes it possible for the company to erect these beautiful up-to-date, Southern California bungalows at most reasonable figures, considering the quality and quantity of the work, and where the purchaser has a well-located lot, at an amazingly easy terms of nothing down and an amount equivalent to rent per month pays for them long interest and principal.

NORTH BEND NOTES.
