BUNKER HILL  
COUPLE WEDS

Miss Dena Hjelte and Christ Lee, two popular young people of Bunker Hill, were married last evening at the Swedish Lutheran Church, Rev. R. O. Thorpe officiating. The ceremony was a simple, but impressive one. The young couple and their attendants, Miss Thoa Larson and Capt. L. Knudsen, entered the church to the strains of the Lohengrin wedding march, played by Mrs. R. O. Thorpe. Mr. Lee has built and furnished a fine little bungalow in Bunker Hill and he and his bride will be at home to their many friends there. A host of friends wish them happiness and prosperity.

WANT TO GET  
AREA FILLED

Council Decides to Try and  
Get Property Owners to  
Aid in Saving.

The City Council last night instructed Street Commissioner Lawhorne to take up the matter of having the area between Golden and Hall avenues filled by the dredge Seattle with the property owners and endeavor to get them signed up. Practically all of the property owners north of Golden to Mill Slough and west to Sixth street have signed up, most of them for a large area south of Hall have signed up and City Engineer Buckingham stated that there were only about three blocks in between that had not signed up. Mr. Buckingham stated that if these property owners signed up, Second street planking could be raised for about \$200, thereby saving about \$1500 on the cost of bulk-heading and making other savings of about \$3,000. He said that the dredge would pump into the whole area for less than half what it would cost to fill the streets alone. He said that petitions for the fill contained a stipulation that they should fill it within six inches of the grade or no charge would be made. This eliminates the objection that many have been raising.

**Central Avenue Grade.**  
A new grade was ordered established on Central avenue between Fourth street and Eighth street. The old grade was below the present elevated roadway and the new grade provides for a raise of between six and eight inches at Sixth street, making a gradual slope from Eighth to Fourth.

Geo. Tribbey asked that the grade be established on Sixth between Commercial and Bennett, but Mr. Buckingham had not taken the levels.

An ordinance providing for raising the elevated roadway on Bennett, to bring it above the proposed dredge fill, was adopted. It will cost about \$200.

**Street Assessments.**  
The Council approved the assessments on North Second street. From Birch to near Cedar it is to be 65 cents per front foot, for fifty feet south of Birch it is to be 50 cents and along the west side from Cedar to Elm it is to be \$1.06 and along the east side from Cedar to Elm it is to be \$1.26. This does not include the intersections.

On Eighth street, in Ferndale, from Hamlock to Laurel, the assessment is \$4.11, to Nutwood, \$3.71 and from Laurel to Nutwood \$3.71.

The improvements of Second Court from Second to Elm will cost \$1,812.63 and the assessment will be \$2.50 on the south side and \$2.90, Elm avenue between Third and Fourth is to be assessed \$2.21 on the North side and \$1.81 on the south side.

**To Sell Bonds.**  
The City Council passed an ordinance providing for the sale of \$23,961.78 worth of improvement bonds. Of this amount \$14,983.47 were issued on Fourth between Elrod and Kruse, \$3,747.19 on Johnson avenue, \$2,864.04 on Eleventh street and \$2,967.27 on Tenth street. Hagquist and Bjorquist's job of grading on Johnson between Second and Seventh was accepted and they were ordered paid \$1,848.93.

**Report That Additional Passenger Accommodations May Be Added.**  
According to reports in circulation here, the Nann Smith is to be remodelled somewhat and equipped to carry sixty or more first-class passengers. The report could not be confirmed here today, but it appears to be authentic.

The Nann was to have sailed from San Francisco Tuesday for Coos Bay but has been delayed and no word had been received late this afternoon as to whether she got away yesterday or not. She was to have gone onto dry dock soon but this was being delayed owing to the possibility of the change being made to add more passenger accommodations.

The company is said to have had some good offers for the Redondo, and it would not be surprising if she was sold. The C. A. Smith Company is desirous of building a new and larger lumber carrier, preparatory to the opening of the canal and in case they do, they would not have any particular use for the Redondo, especially with the Nann changed over.

**PORTLAND TEAM HERE.**
