President Morrison takes the stand that Coos County does not want to let the controversy as to which road is to be built to Douglas County—either the Myrtle Point route or the Ten Mile and Umpqua route—prevent the improvement of the roads. He says that it is necessary to build a good road in the Coquille valley and from there to Coos Bay regardless of which route Douglas County decides upon, and he is in favor of going ahead and building the home roads and be prepared for the other when the time is ripe. He says that there would not be sufficient money now to build either, anyway. He questions the reports that Douglas county is strong for the Umpqua route and says that Southern Douglas and many at Roseburg want the Myrtle Point route.
J. E. Schilling of Myrtle Point and others say that Douglas wants the Myrtle Point route. That way, Douglas will have to build only sixteen miles of road, while on the Umpqua route they will have to build eighty miles.

FORD EXPERT ARRIVES TODAY

Factory Representative Comes from Detroit to Confer with Ford Owners.

George Stoker, a Ford automobile expert, direct from the Detroit factory of the Ford Motor Car Company, arrived on the Breakwater this morning to make a general survey of the Ford situation in this section. He is making headquarters at the Goodroads Goodrum garage, the Coos County Agency for Ford cars. He desires to meet all the owners of Ford cars that it is possible to confer with during his short stay here. This is a feature of the superb Ford service which is always on the job and continues to look after the interests of their patrons after cars have been purchased. Mr. Stoker is an expert who comes from the Detroit factory and will make an inspection and investigation of all Ford cars, give instructions as to operation and care of them. If there are any difficulties of any kind in the operation of your car, or if you wish to learn some valuable information about taking care of the car, don't fail to call at the Goodroads Goodrum garage and meet Mr. Stoker. Don't overlook this opportunity.

SHIP POTATOES TO COOS BAY

Breakwater Brings in Shipment of About 600 Sacks from Portland Today.

The Breakwater arrived in early this morning from Portland with a good list and a large cargo of freight. In the freight cargo were about 600 sacks of potatoes consigned to various Marshfield groceries. The shipping in of potatoes at this season of the year seems strange, when Coos County raises so many, but a large number of local ranchers are holding their crops for higher prices and refuse to sell on the current market. George Goodrum received an auto on the Breakwater.
The Breakwater will sail at 10 o'clock Saturday for Portland.
The Breakwater had 516 tons of freight and 107 passengers. Among those arriving on her were: H. Elmer, H. Olson, T. Davis, J. L. Gestal, Geo. Stoker, C. C. Murphy, P. Hall, N. J. TAKES PRISONER.

Constable Irwin, of Ashland, today took the two prisoners who were arrested here by Marshal Carter for robbing the Simpson store at Ashland there today, going out via Myrtle Point. He had them both shackled. They sold some knives to a man named Miller at Rock Creek while en route here. Howard Brett was the only loser on them, having paid \$10 for twenty-six knives, which he later turned over to the officers. He will be called to Ashland as a witness and will try to get Simpson to pay his money back. Brett lost a leg and an arm in a logging road accident and later lost his money in a fire at Portland, making a long string of hard luck.

WE SELL a great many cans of Heinz Baked Beans because it is well understood that they are as good, if not better, than the beans prepared at home. Housewives have been quick to avail themselves of this perfect substitute. "Perfect" because Heinz Beans, with or without Tomato Sauce, are scientifically prepared in a cleanly manner AND REALLY OVEN BAKED. The big demand proves that they are delicious; the Heinz name proves that they are good. It is because we know this that we are willing to pay more for a can of beans than costs you the same.
