SPECIAL PAPER OF THE CITY OF MARSHFIELD.

THE PEOPLE ARE READY.

IT BEGINS to look very much as though Huerta would exhaust the patience of the administration at Washington, and bring about, if he has not already done so, a situation that will call for drastic action.

The nations of Europe cannot unite and invade the capital city of Mexico as they did Peking. But they expect this nation to find a way to restore order there, and since Huerta will listen to no plan that contemplates a reorganization along peaceful lines, sterner measures may be taken.

President Wilson has not listened to the irresponsible press. The jingoism has affected him not at all. So long as there was hope of ending the chaotic conditions in Mexico by insistent persuasion, he has kept diligently at the task that appeared to have fallen to the United States.

If after exhausting all other resources, President Wilson and the administration determine upon more drastic action they will have behind them the support of the American people.

WANT PART OF FUND OF BOND?

North Bend Good Roads Meeting Includes Ten Mile in Big Project.

Following an extended discussion of the good roads projects and principally as to which roads should be improved with the proceeds of the proposed \$440,000 bond issue, the good roads meeting at North Bend yesterday passed resolutions asking that the bond issue be voted and that the money be expended on a trunk line road beginning at Myrtle Point and extending through Coquille, Marshfield, North Bend, by ferry to Glasgow and thence to Lakeside; also from Bandon south to the Curry County line.

A. L. Morrison, of Coquille, president of the Coos County Good Roads Association, and A. C. Raab, of North Bend, presided. There was much informal discussion, but the principal talks were delivered by L. J. Simpson, A. L. Morrison, H. C. Diers, Chas. St. Denis, E. E. Weekly, Judge Hammond, A. G. Raab, Mr. Coleman, Mr. Kelly, Ned C. Kelly and Dr. Bartle.

Ten Mile's Claims. With the exception of L. J. Simpson, A. L. Morrison, E. E. Weekly and Dr. Bartle, all insisted on part of the bond issue proceeds being appropriated for a road north and east from the Bay. Messrs. Simpson, Bartle and Morrison urged that the main trunk highway between the Bay and the Coquille Valley be built first and that the bond issue be not endangered by a district controversy as to which district should get the most of the funds.

Mr. Raab, in summing up the position of the people of this section, said:

"There are practically as many people north of Coos Bay in Coos County whose only outlet is by water at the service of the tide, as there are outside the city limits of Bandon to the state line south of Curry County. Therefore they feel that it is up to Marshfield, North Bend and the rest of the county to see that Ten Mile gets the same show that Bandon is asking for Southern Coos and all of Curry County."

"Ten Mile has heretofore been ignored, not counting the Allegheny section, the residents north and east of Coos Bay represent one-tenth of the population of Coos County; have 1581 cows, 488 horses, 1700 sheep and much young stock. At Ten Mile they caught 16,000 salmon this year and had to pay five cents apiece to deliver them to the market. "The freight rate to and from Ten Mile is now almost prohibitive, being forty cents per hundred each way. In consequence much fruit is left to rot in the orchards, not being worth the cost of marketing it, and ranch crops are not grown as they could and should be. The people of this region feel that they have only a just and reasonable request to make when they ask that Coos County furnish them means of communication with the balance of the country."

President Morrison, when seen at the depot this morning as he was leaving for his home in Coquille said that the Lakeside and Ten Mile delegation, being in the majority, insisted on being given a share of the proposed bond issue. "I am afraid," said Mr. Morrison, "that the matter will get tangled up so that nothing can be done. However, there will be another meeting on December 2 in Coquille, at which time we hope to get the matter straightened out so that the bonds will be voted."

BELL FAILS TO SOUND.

Submarine Attachment on Orford Reef Buoy Not Working.

Word was received by Henry L. Beck, lighthouse inspector of the 17th district, from the tender Heather this morning that the submarine bell on the Orford reef gas and whistling buoy is not working. It is supposed that the mechanism has been clogged by marine growth. It is the only submarine bell attachment on this coast and when established it was in the nature of an experiment. Mr. Beck says that no effort probably will be made to put it in working order again before next spring because of unfavorable weather conditions. On the Atlantic Coast submarine bells failed to give satisfaction.

HOLD CAUCUS AT EASTSIDE

Will Nominate City Tickets Next Monday Night—Mrs. McLaggan School Clerk.

A caucus will be held at Eastside next Monday night to nominate candidates for the coming city election. Considerable interest is being taken, the women being especially active. The women held an informal caucus Wednesday at the city hall there to talk over possible candidates, but have kept their action secret.

R. T. Whitty, present acting Mayor and Councilman, is about the only candidate for the nomination of Mayor. John Johnson and Edgar Stonecypher are likely candidates for Recorder.

The terms of Councilmen Steekle and Olson and Whitty expire this year.

Elect School Clerk.

Mrs. M. A. McLaggan, a prominent Eastside woman, was last evening elected clerk of the Eastside school district to fill the vacancy caused by the death of the late Chas. Jordan. She is an able woman and will make an excellent clerk.

The meeting also voted an eight mill tax levy for the coming year.

MAIL RETURNS OF ELECTION

Curry County Votes May be Thrown Out for Failure to Obey the Law.

(Special to The Times.)

PORT ORFORD, Or., Nov. 15.—A novel question has been raised here in connection with the recent election which may involve much expensive litigation before it is decided. The election officials in the Floras Creek and Cheteo precincts sent the election returns to the county clerk at Gold Beach by mail instead of having a member of the board take them in person as the state law requires. Some who are opposing the \$60,000 bond issue for building a concrete bridge at Cheteo are planning to contest the election on these grounds. In case the Floras Creek and Cheteo votes are thrown out the bridge bond issue will be defeated.

BEGINS SUIT OVER STREET

Henry Sengstacken to Enjoin Coquille from Using McDonald Property.

(Special to The Times.)

COQUILLE, Or., Nov. 15.—Henry Sengstacken of Marshfield, agent for Mrs. Alice McDonald of San Francisco, is here today for the purpose of enjoining the city of Coquille from proceeding with the C street improvement. He notified them some time ago that Mrs. McDonald owned a triangular strip along the street, 60 feet wide at one end and tapering down to a point, which the city wanted for the street and parking. He offered to sell it for \$1200 but the city claims that public use has made it a right of way and refused to pay and started to improve it.

BUSY DAY IN POLICE WORK

Marshal Carter Warns Boys They Must Be Good—Several Arrests Made.

L. E. Bliven of the Marshfield Turkish baths last night caught one of a gang of boys who have been causing havoc with his electric sign on North Broadway. They have been molesting him and others for some time. Marshal Carter is today rounding them up and will give them a warning. Among them are said to be Burt Tribbey, a Hansen boy and a Marsden boy and two or three others.

Many Arrested.

The police rounded up another big bunch of drunks last night and as usual lately, most of them were without funds. They gave their names as C. Castro, Joe Vresz, J. Hander, E. Mesco, J. W. Everman, G. Watts and F. Halliam.

Beating Horse.

Marshal Carter is today looking up a complaint about a man whose name was given as Flanagan, beating a horse near Fourth and Johnson.

Case Is Settled.

The charges against Dr. A. L. See, who was taken to the police station the other night, have been dropped and there will be no hearing in the case, friends of See having come to his aid.

WOODRUFF IS NOT GUILTY

Barber Charged With Assaulting Walters Boy Discharged by Court.

Floyd Woodruff, the barber who was accused by C. H. Walter of assaulting his son, Henry Walter, aged 14, was dismissed by Justice Pennock yesterday afternoon after a hearing in the case.

In some ways the hearing resembled a boy's court, a dozen or so lads of nine to fourteen years old

being present to tell what they knew about the case. The lads' versions differed considerably about it, and finally, after hearing the Walters boy claim that he could lick the elder Woodruff with a club decided to dismiss the case, charging the costs to the plaintiff.

Mr. Walters was not present.

A. S. HAMMOND returned today from a trip to Salem and Portland on business.

ABE INGERSOLL of Lakeside was a passenger on the North Star to Marshfield today.

WILLIAM BOLANDER of Coos River came down on the Rainbow to Marshfield today.

AUGUST HOELLING, a North Bend merchant, was in Marshfield yesterday on business.
