At the next meeting, Mayor Allen will take his office and J. Wright Wilson will take the place of Councilman Evertsen and Alva Doll will be appointed and sworn in to succeed Mr. Allen as Councilman.

**KINNEY IN BAD SHAPE.**

Taken to Sanitarium of Dr. Newmark in California.

Major L. D. Kinney, who left on the Redondo, will go to the sanitarium conducted by Dr. Newmark, an old friend, near San Francisco. Major Kinney named Newmark street in Bangor, from which the new Empire-North Bend road starts, in honor of Dr. Newmark. Chas. Cavanaugh and W. Wetherill went with him to guard him during the trip. For some time he has been falling mentally and is suffering from a number of hallucinations. Owing to his age and actions, it is feared that he may be suffering from paresis.

For some time he has been aware of his condition and a few years ago stated that he had long been so troubled. He said that he was a great promoter, but somehow, when he got projects to a certain point, he could never bring them to completion. Three or four times, he said, he had been on the point of accomplishing big things, but had fallen down when he was about to consummate them. He said he would give \$100,000 to any specialist who could overcome the defect. At that time, he was in a position to control more than that amount.

Whether his present trouble will have any effect on the receivership is problematical.

**NOTICE.**

In 1892, 6 cents per 100 lbs. was established as the rate for carrying milk on Coos Bay.

Since 1892 the cost of fuel in this section has increased about 100 per cent; the price of labor from 50 to 100 per cent, and the price of milk from 100 to 150 per cent. The freight rate alone has not increased. Hence the boatmen are carrying milk for little more than accommodation, and since boating no more conducive to the health than many other vocations, we not only consider it fair and right to ask a living profit for our work, but think it unreasonable at the present rate. In other sections of the country the established rate is 10 cents and upwards per 100 pounds.

For the above stated reasons we feel obliged to raise the milk rate to 8 cents, and cream to 25 cents per 100 pounds on and after the first day of January, 1914.

**FEAR DREDGE MAN DROWNED**

**Adolph Arentzen Disappears and May Have Fallen Into Bay**

Adolph Arentzen, a fireman on the dredge Seattle, has been missing since 10 o'clock last night and it is feared that he fell in the Bay and was drowned while en route to work. Manager R. E. Miller of the dredge Seattle is having a careful search made today and the Bay will probably be dragged in the vicinity of the walk out to the dredge.

Arentzen was last seen at the Lloyd Hotel, where he rooms, about 10 o'clock. He then got up and started for the dredge, as he was to start work at 11 o'clock. He never reported for work.

There is a plank walk out from the shore to the dredge and there has never been any trouble with it, although it is barely possible that Arentzen might have slipped off and fallen into the Bay.

Arentzen came here from Seattle. He was about forty years old and all his relatives are in Scotland.

**EGGS WORTH OVER BILLION**

**Illinois Expert Claims Poultry of United States Great Wealth Producer**

**NEW YORK, Dec. 29.**—A \$10,000,000 hen that lays every day during the "regular" season a \$10 egg was perhaps the most interesting feature of the twenty-fifth annual poultry show conducted by the New York Poultry and Pigeon Association, Ltd., which opened in Madison Square Garden. "Cheap" fowls, both hens and roosters, worth a mere \$25 or \$120 and on up to a paltry \$150 a pound, were shown in profusion. Fowls to a total value of approximately \$50,000,000 were on exhibition when the show opened here.

Charts prepared by W. F. R. Price, of Illinois, an egg expert, were handed about showing that the lowly (?) American hen for the year just closing will have laid eggs to the value of one billion dollars.
