KEY WEST-HAVANA FERRY.

KEY WEST, Fla., Jan. 8.—The
Flagler System is completing plans
to run ferries between Key West
and Havana, Cuba, daily. Immense
ferry boats to be used in the service
are already under construction in
Philadelphia shipyards. The company
is at present engaged in dredging
out the basin surrounding the pro-
posed site of their terminal docks
and the dock now in use, and today
there is a depth of water alongside
the dock of 27 feet. The work of
dredging has answered a double pur-
pose, inasmuch as the mud sucked
up by the dredges has been used to
fill in the lower portions of what is
known as Trumbe Island, a large
body of land which was "made" by
the Flagler System. The land was
named for Howard Trumbe, the well-
known contractor, who had charge of
this particular portion of the work.
The dock now in use, which is
2000 feet long, will be removed soon.
It has been surrounded by massive
walls of reinforced concrete, inside
of which is being pumped rock and
marl to make a permanent and in-
destructible pier. The new dock will
be much wider than the one now in
use, but will be shortened to a length
of 1200 feet.

PARCEL POSTAGE RATES.

WASHINGTON, D. C., Jan. 7.—
Under a new table on postage rates
on fourth-class mail, which went in-
to effect today, parcels weighing four
ounces or less can be mailed at the
rate of 1 cent for each ounce or frac-
tion thereof, regardless of distance.
Parcels weighing more than four oun-
ces will be mailable at the pound rates
a fraction of a pound being considered
a full pound. The usefulness of
parcel post maps and guides furn-
ished by postmasters and the public
is not affected by the new rates.

A DIFFERENCE IN WORKING HOURS

A man's working day is eight
hours. His body organs must work
perfectly 24 hours to keep him fit
for eight hours' work. Weak, sore,
inactive kidneys cannot do it. They
must be sound and healthily active
all the time. Foley Kidney Pills will
make them so. You cannot take
them into your system without good
results following. Owl Prescription
