LAQUA FORCED TO LEAVE MEN

Thirteen Have Narrow Escape When Gale Stops Floating of Pomo by Tug

Advices from San Francisco are to the effect that the wrecking tug *Laqua* nearly lost thirteen of her crew in Drake's Bay while trying to float the water-logged steam schooner *Pomo*, which broke loose and capsized while the *Adeline* Smith was towing her into San Francisco recently.

The *Laqua*, which is well known here, had run in close to the *Pomo* in an attempt to pull her off. Ten men were on the *Pomo* and three men in a small boat when a gale stirred up such a bad sea that the tug was forced to put to sea to save herself and the remainder of the crew.

Captain Mitchell steered for the lightship and summoned assistance for the abandoned men. The tug *Sea Rover* responded and rescued the men, taking them to San Francisco.

Whether the hull of the *Pomo* stood the heavy seas driven before the gale, which blew 68 miles an hour, is unknown.
