COOS BAY STEAM LAUNDRY OWNERS TELL OF PLANS

JONES BROTHERS WISH TO MAKE MARSHFIELD INSTITUTION BEST THAT CAN BE CONDUCTED—PLANS FOR NEW MACHINERY AND NEW HOME.

That Coos Bay shall have the best up-to-date laundry and the best laundry in Southern Oregon, is the determination of Jones Brothers, proprietors of the Coos Bay Steam Laundry. It is an ideal that they are working toward and while it means hard work and much expense, the struggle to obtain and maintain it is an incentive to them in which Coos Bayites enjoy the benefits in better laundry work.

As another step in this direction, they have just installed an American Collar and Cuff Ironer, the best machine of the type that has ever been manufactured. It is a large, heavy piece of machinery and it runs it pays because it does the work, does it more quickly and does it better than the methods in use in nearly all of the laundries with the exception of the few of the largest and best in the large cities. It gives the

It is hard work and often means strenuous and long hours for them, but it is their work and their ideal—the best laundry in Southern Oregon—relieves it of what otherwise would mean lots of grief.

With hundreds of patrons and hundreds of pieces of work daily, there is every chance for little troubles, but these are quickly righted. "If anything should accidentally go wrong with anyone's work, we correct and adjust it right away. If anyone has any complaint or suggestions to offer, we want to know them, because in the end it will help us to give better service," said Manager Jones.

"The best is none too good for Coos Bay and we are going to furnish it in the laundry line if it is our ability to do it, and we think it is," he continued. "Coos Bay is growing and our endeavor is to keep just a little ahead of that growth in the laundry business, so that the increased business will not mean any deterioration in the class of work turned out on account of being over-crowded."

"We expect soon to be able to start our new home for the laundry at the corner of South Sixth and Bennett avenue. We have three lots there and are planning a concrete building especially designed for laundry purposes and will then have an ideal plant, thoroughly equipped with the most modern machinery."

COLDS TO BE TAKEN SERIOUSLY

Intelligent people realize that common colds should be treated promptly. If there is sneezing and chilliness with hoarseness, tickling throat and coughing, begin promptly the use of Foley's Honey and Tar Compound. It is effective, pleasant to take, checks a cold and stops the cough, which causes loss of sleep and lowers the vital resistance. Owl Prescription Pharmacy, Frank D.
