STRIKERS ARE RESUMING WORK

Members of Typographical Union Arrested for Holding Meeting in Africa

CAPE TOWN, Jan. 17.—Dispatches from all parts of the Union report that the strikers are returning to work and that a victory has been won by the government in its struggle with the Federation of Trades. The strike rule of Premier General Louis Botha was still in evidence at Johannesburg, where sixty-two members of the typographical union were arrested while meeting. The charge against them was a contravention of the provisions of martial law. They had just passed a resolution to resume work.

TO BUILD MILL AT FLORENCE

Report That Starret & Hovey Will Erect Large Lumber Plant on Lower Siuslaw

EUGENE, Or., Jan. 17.—The people of the lower Siuslaw River confidently expect that Starret & Hovey, of Detroit, Mich., who own large tracts of timber land in the coast mountains of Lane county, will erect a large sawmill of big capacity on the lower river in the near future. Geo. H. Colter, founder of the little city of Glenada, who was in Eugene, said that indications point to an early beginning of the work on the plant.

Mr. Colter, who was on his way to Portland on business, said that the recent high water had brought 6,000,000 feet of logs down the river for the sawmills and that there are still 8,000,000 feet to come down. He predicts a prosperous year for the mills of the lower Siuslaw and believes that all of them will be running to their full capacity soon.

Mr. Colter said that the water on the bar at the mouth of the Siuslaw is gradually deepening and when the Patsy crossed in the last time soundings showed a depth of 17 feet at half tide. This is deep enough to admit vessels carrying 1,500,000 feet of lumber.

With the issuing of \$100,000 additional Port of Siuslaw bonds and duplicating the amount already on hand, there will be enough money, Mr. Colter said, to keep the jetty and harbor work going on for five years. At the end of that time it is expected that the channel will be deep enough to admit any of the coasting vessels that ply between the southern and northern ports of the Pacific.

Mr. Colter said that the general report now is that the new Eugene-Coos Bay railroad will be built through Glenada. He says the talk is that the work has been stopped on the line leading southerly from Acme and that the engineers have come to the conclusion that the railway company will save a million dollars or more by abandoning that route and building through Glenada.

ENFORCE LAW ON FEBRUARY 1

All Auto Operators Must Have Licenses for 1914 by End of Present Month

Word has been received by Constable Cox from the secretary of state that a full list of all auto owners and chauffeurs securing licenses for the year 1914 in Coos county will be forwarded to him at the end of the month, after which all those operating machines without a license will be ordered prosecuted.

Since the first of the year many automobiles in this section have been operating without a license. Some of those without the new numbers stated that they had sent for them and that they had not arrived yet. This left the local authorities in a quandary as to how to act, and word was sent to the secretary of state.

Consequently the auto owners have secured a breathing spell until the end of the month, after which the law will be enforced in the case of all violations. The county clerk will also be furnished with a copy of those having licenses at the end of the month and the state law will be enforced at all points.

The annual report of the secretary of state received here shows that the receipts for licenses issued for all vehicles in the state for the year 1913 amounted to \$56,889.48. The expenses were \$13,296.92, leaving a balance to be turned over to the road fund of \$43,492.56.

The receipts show that the number of licenses for motor vehicles in Coos county amounted to \$1,177.50, making this county the tenth largest owner of autos in the state.

BANDON MAN TO WED IN PORTLAND

Harry Eugene Morten Keeps Coming Nuptials Secret From Partner

A wedding that comes as a distinct surprise to the social set at Bandon is the union of Miss Hazel Ray Wilkinson of Portland and Harry Eugene Morten of Bandon, which will take place at the residence of Mr. and Mrs. Edward James Wilkinson at Portland on January 21. Miss Wilkinson is one of the prominent members of the younger set at Portland, and is a lady of many accomplishments. Mr. Morten is a newcomer at Bandon, where he is engaged in the jewelry business with R. A. Wahlen. Mr. Morten is entitled to a large bouquet for the secrecy he has maintained about the wedding. Until last evening Mr. Wahlen did not know of the affair, until Mr. Morten started packing up his baggage to catch the Breakwater, when Mr. Wahlen asked "Where do you think you are going?" "O, I am just going on a little trip to Portland to take unto myself a better half," replied Mr. Morten, much to the surprise of Mr. Wahlen.

BANK CHANGE IN NORTH BEND

At the annual meeting of the Bank of Oregon at North Bend this week, it was announced that Capt. A. M. Simpson and C. S. Winsor had acquired the interests in the institution which Seymour H. Bell and Henry Hewitt purchased from L. J. Simpson four or five years ago. The bank is now owned by local people and will more than ever be a Coos Bay booster. President Winsor was unanimously re-elected and Harry H. Huntley, who has been an efficient employe of the company the past few years, was advanced to cashier. L. J. Simpson was re-elected vice president and the following were elected directors:

A. M. Simpson, L. J. Simpson, E. M. Simpson, Herbert Armstrong, L. F. Falkenstein, Peter Loggie, and C. S. Winsor. The directors and C. R. Smith, Mrs. C. R. Smith, Henry Hewitt, John Hewitt, Judge John S. Coke and A. H. Powers constituted the list of stockholders.
