Value is a mighty elastic term. We use it in one sense only—to express the quality, the real A-1 quality of our merchandise.

That's why

Don't Take Beef—Hal Crawford, of the Fixup, was one of the first to try the Australian beef, getting an order the first of the week. He says it was fine looking beef, but when it came to eating it, it wasn't nearly as good as the U. S. product.

Goes South—J. Albert Matson will leave tomorrow on a ten days' trip to San Francisco. He is just recovering from an attack of measles. His son, Julius, had them first and then Mrs. Matson contracted them and Mr. Matson was losing her considerably when he broke out with them. Now she has the laugh on him.

To Enter Alaska—Sweet Brothers, who have sold a number of their black sand gold mining machines in this section, are now planning to have thirty-five of them built and shipped to Alaska to be operated there. So far the operators of the machines have not made much of a cleanup in the Coos and Curry black sands, but it is thought that Alaska will be a good field for them.

Water High—Had it not been for Superintendent Miller having had the tracks of the local railway along the Coquille raised last summer, the railroad would have been put out of commission yesterday by the freshet there. Despite the elevating of the tracks a couple of feet, the water got up over the rails and the train was barely able to get through. Many logs came out the night before last, mostly from the Middle Fork section, and but few were lost. The damage was small and the floating out of the logs more than offset the ill effects.

To Leave For South—Tom Hayden, of Emorie, who has been employed on the dredge Seattle for the past three months, will leave for San Francisco on the Redondo, from

Auto Accident—A team collided with an auto driven by Claude Tucker at North Bend, Friday evening, damaging the front tire and fender of the car. The team was coming up Sherman avenue and Tucker was driving in the opposite direction when the team suddenly swung towards his machine. He had no time to turn to one side and the wagon struck the auto. No damage was done to the wagon. An auto truck engaged in hauling coal from North Bend was delayed for several hours yesterday when the back wheel of the truck was caught in a crevice in the wharf. The coal was unloaded onto another wagon and the truck was raised by means of a jack.

RECEPTION FOR CHURCH VISITOR

Making a very brief stay after a tedious trip from California via Rosburg and the stage line, Rev. Guy C. Lamson, head of the Baptist publication Society, of Philadelphia, arrived in the city last night and after a reception in the Baptist Church shortly after his arrival, left on the boat today for Portland and Seattle, as he is compelled to be in the latter city by Tuesday morning.

Rev. Mr. Bassford presided at the reception tendered to the distinguished visitor last night and a social session at the church was followed by the serving of dainty refreshments.

Members of the Ladies' Aid Society of the Church, who assisted in serving refreshments at the social held last night for the visitors were Mrs. C. H. Marsh, Mrs. John Nagle, Mrs. Alva Doll and Miss Frances Frause. There was a good attendance and a very enjoyable evening was spent.

JOHN D. GOSS leaves today for Portland and Salem, where he will try a couple of cases in the Supreme Court. One is the case of Parker vs. the C. A. Smith Company and the City of Marshfield for damages for the death of his brother who was killed as a result of his auto striking a pile of wood on South Broadway.

L. A. LILJEVIST, District Attorney, left this afternoon for Coquille after spending a day here. There is no new criminal business and nothing new in the Myrtle Point bank robbery case.
