BORN.

NELSON—To Mr. and Mrs. N. W. Nelson at their home in Bay Park, Tuesday, Jan. 27, a son.

Post-Op Social—The congregational social which was to have been held at the Presbyterian church on Friday evening, January 30th, has been postponed for one week.

Lecture Tonight—Dr. Hodge of the State University will deliver a lecture at the Marshfield M. E. church this evening under the auspices of the College Women's Club. It will be a free lecture.

Brother Leaves—Through an error it was stated yesterday that Joseph Schmieding was planning to leave for Portland soon. It should have stated Wolfram Schmieding, as the latter is the one who is to depart for the Rose City.

Offered Place—Rev. J. Richard Olson, formerly pastor of the Marshfield and North Bend Swedish Lutheran churches, but now pastor of the Immanuel Lutheran church in Portland, has been offered the superintendency of the Lutheran hospital at Moline, according to a Portland paper.

Badly Hurt—James Ludwig, a well-known Banker Hill man, is in a rather critical condition at Mercy Hospital. He was working in the lath mill of the C. A. Smith Company and a lath broke and struck him in the forehead, penetrating to the brain. He may recover, but his condition is most critical.

Will Organize Club—A meeting was held by the joint committee of the Coos Bay Clansmen, for the organization of a Caledonian Club, at the office of Allan Todd at Marshfield on Monday evening and plans arranged for a permanent organization. The committee will be pleased to have all persons wishing to be named as members communicate with Dan McDonald at North Bend.

Enjoy Social—The Christian Endeavor Society of the Christian Church, gave a most enjoyable evening party at the home of Rev. Samuel Gregg and wife on Saturday evening. A large number were present, including members and their friends. Music and games were the order of the occasion after which delicious refreshments were served. It is expected that these social events will be repeated twice each month.

Library Gift—To make right a statement regarding the gift of a set of Stoddard Lectures to the Library, it is necessary to add that the books were a gift to the Epis-

copal Church Guild by Mrs. Wm. Deubner. Through the efforts of Mesdames Noble and Hazard and the kindly interest of a number of people, it was made possible to turn them over to the Library and deep appreciation is due both to those who gave and those who labored, that the Library might be benefited.

To Inspect Work—Roadmaster Hall-Lewis and Judge John Hall will leave tomorrow morning at 8 o'clock in the launch Traveler for an inspection trip up the North Slough, Haynes Inlet and Willanch Slough to look over county road work. The roadmaster will arrive from Coquille on the evening train. The corduroy work being done between North Slough and Ten Mile, and the dredging operations in Kentuck Slough and other points will also be inspected.

ALLIANCE IS STORM DEFIER

Staunch Craft Undamaged After Wedging Her Way Clear Through Hurricane

Without a mark to show that she had fought her way through the fiercest hurricane that was ever experienced on the Pacific coast, the steamer Alliance, Captain Laford, crossed in over the bar from Portland this morning at 11 o'clock and after discharging freight and her passengers at North Bend, shifted to her Marshfield dock this afternoon at 3 o'clock. Captain Laford declared that the vessel behaved herself admirably during the hurricane and although she was heading directly into the teeth of it, the motor on her log never sagged once in the sea, but trailed out behind and always recorded mileage against the storm.

"She's a dandy," declared the captain. "There isn't a boat on the Pacific which has anything on her when it comes to taking huge seas easily."

The Alliance ran into the hurricane a short time after she cleared the Columbia for Coos Bay on Sunday at noon. For about five hours the seas smashed against her and sheets of water were blown clear over her from the tops of the waves, but never at any time was she in the slightest trouble and while she made slow headway against the storm, she was always gaining against it.

She brought a big cargo of general merchandise from the Rose City and will sail tomorrow at 11 a. m. for Eureka. The following passengers from Portland disembarked at Coos Bay:

W. A. Magee, Mrs. M. E. Snodgrass, L. Q. Wright, Bert Wilson, Bert Hill, S. E. Lard, Mrs. Agnes Wood, Jacob Herm, Roy Rhodes, Bertha Nichols, Benedict Nichols, Arthur Davidson.

and they will probably motor over into Arizona.

THOMAS A. WILLIAMS, whom a toastmaster has said "sells Simons' saws and drinks Wilson's Water," is a new arrival in Coos Bay on behalf of the firm of Henry Ditson & Sons, of San Francisco. He handles the logging supplies for the concern and Frank J. Erb, who has been here several weeks, handles saws and supplies.

MISS SADIE THOM, of North Bend, enjoys the distinction of holding the record for speed and accuracy in stenography at the Coos Bay Business College. Notwithstanding the fact that Miss Thom has only been a student at the college for the past four months, she writes 154 words on the typewriter in one minute and 45 seconds, this speed being attained with commercial correspondence. Miss Beighard takes second honors, writing 115 words a minute on sentence writing. Prof. Sisk is very well pleased with the progress of all his pupils this term.

AMONG THE SICK.

Mrs. S. Lando is confined to her home by illness. Mr. Lando is also still quite sick.

CHIROPRACTIC.

RHEUMATISM.

I have been asked how it was possible to cause a cure of Rheumatism by working on the backbone. This question is easily answered: Rheumatism, it is claimed, is caused by too much uric acid in the blood. Why is the uric acid in the blood? Because the nerves governing the stomach are not performing the work nature intended they should do, in some people causing an abnormal quantity of uric acid; in others, dyspepsia or various other diseases which can readily be traced to the defective digestive organs. Now the uric acid is there, why do the kidneys not filter it out of the blood? They are intended to do that work of ridding the blood of impurities; why do they not do so? Because from overwork or the nerve force being partially shut off, they are inactive and cannot do their duty and if nature were free to act in the affected parts, impurities would not lodge there. If the vertebrae of the spine were all in proper position that pressure on the nerves could not exist.

If you are sick, no matter what your ailment, acute or chronic, call and see me. I believe I can prove to you the philosophy of my statements. Consultation and examination free. Office hours, 10 to 4. DR. W. H. REYNOLDS, Suite 213-14-15 Coke Bldg. Phone 112-L. Marshfield.

Along the Waterfront.

The Adeline Smith will sail early tomorrow for San Francisco. Capt. Olson decided not to try to get out today owing to the likelihood of rough weather. He says that on the last trip up their running time from bar to bar was just 29 hours, but owing to the darkness and storm they had to lay outside all night. In order to keep from being driven far north, he had to turn the Adeline southward and steam ahead at a good speed to overcome the wind and sea.

NOTICE TO PUPILS

The second semester in the Marshfield schools will begin Monday, Feb. 2. Classes for beginners will be organized in both schools to which children six years of age or over are eligible. New classes will also be organized in the High School. For further information, consult Superintendent Tiedgen.
