WHY NOT TEACH FIRE PROTEC-TION?

W HY NOT teach school child-ren how to prevent losses by

Talk about saving property from loss by fire should make every owner of a building sit up and take notice. Every citizen of the United States is taxed an average of \$2.50 per annum on account of the national fire loss, Which to be reduced in total has to smaller. be reduced in particulars-by fewer fires. Ten acres of flame cannot be controlled, but a spark of fire can, and the conflagration was at first one that could be smothered with a handkerchief.

In European countries the average fire loss is but 25 cents per capita— just one-tenth of ours, and yet we think we are a little smarter than the folks over there. It's time we began

Here are some things our people should read about—and then do: A be recites to the press that the Col.

ery fire is a crime. The only way to day at the penticulary the Colonel reduce fire insucance rates is to re-saw a rat about 60 yards away. duce the five waste. Organize a Drawing his trusty six-shooter, "he "League of the Braom," for a "clean-fired once and the rat was dead," day. Let the women do it.

Every fire the state has is a loss out the Northwest, Governor West which cannot be replaced. Some one may be taken seriously. The rist has to pay. New York is going to of the Nation is saying; "What a pass a law making it compulsory to funcy little man!"

WANT FASTER SERVICE.

Coquille Commercial Club To Take the pass a law making it compulsory to funcy little man!" teach fire prevention in the public schools. Let us get this law enacted • In Oregon. Endeavor to get all theaters and moving picture shows to set aside a certain percentage of box office receipts on fire prevention day . for a pension fund for firemen. Get merc'ants to offer prizes for best essays by school children on fire prevention, or the best set of rules which will aid in preventing fires. a beautiful addition it would make to any city if we had the value of what has gone up in smoke in the past 25 years, says the Oregon Man-

WHY THRIFTY PEOPLE ARE HAPPY.

"Extravagance becomes contagious and affects the community, the state and the nation, tending to produce dissatisfaction and discontent, while on the other hand economy and thrift promote happiness and content--Governor Charles R. Miller of Delaware.

HRIFTY people are happy people because their thrift brings them happiness and content. In these opening days of the year

it is fitting for every citizen to think of thrift in its broad aspect and renation it largely founded upon the thrift of its of Thrift produces simple tabits.

clean hodies and contented minds. it out of the sames of the thrifty come all huge investments, all funds for great public works and industrial enterprises. Without thrift there would be no transportation

systems, no investments in community or industrial securities, an areat and powerful financial institutions. Dividends on savings are the Immediate material reward of thrift.

But there can be no interest without principat, and the way to build up a reserve fund is not to wall until you can put a let of money in the bank, but to save and deposit the small amounts as you go along.
The savings bank is the greatest

THE PATH TO SUCCESS

VE VEARS and in Waterloo, tows, the man who is now president of one of the largest chemical companies in the state came in possession of an extraordinarily good recipe for a sweeping compound. He had \$150 capital and persuaded a friend of his who had an equal amount, to invest his savings in the business with him. They organized a company, rented a room 8 feet by 10 feet for \$10 a month. They bought some raw material and entered into a compact that they would not spend more than 50 cents a day for their meals. This bill of fare was not extravagant, but wholesome; in the

extravagant, but wholesome; in the morning it was teast and coffee, at noon it was a 15 cent largeh and at night a 25 cent suread.

They were carness and industrious, their compound sold well as I their first safe was in most cases followed by a report erder. They stendly grow and extended their stendly grow and extended their

NEWS OF NEARBY TOWNS

ATTRACTIONS OF COOS COUNTY.

Editor H. W. Young Tells Why He News of City-by-the-See As Told By Selected Coquille.

Editor H. W. Young, formerly of based the Coquille Sentinel from guest of local friends. owing as his reasons for selecting the new location:

Though the fabled fountain of Smith company at Marshfield, buth may never be found, the man A. D. Mills is still soliciting funds According to the prospectus of the Youth may never be found, the man if he will, find renewed interest in of nature's most favored spots, the widest and warmest and most probears the mystical name of Oregon.

I find here a climate which las no superior on the coast. It is not only as well adepted to general farming and dairying as farther north but is far enough south for corn to feel at home, and produces all the fruits the temperate zone in profusion. Loganberries grow here ewenty feet In the first season from planting, a they do in the Willamette valley, and tile apples produced are delicious.

By way of intimidating the people All this, and only an hour's ride of that section of Oregon embraced to the beaches, with summers that are ideal and winters milder even then in the valley, make a combinamore and more people are bound to respond when the country becomes ensily accessible and the iron rails connect us with the outside world.

Up Freight Service.

The Coquille Sentinel says: matter of the delay in the delivery of freight coming by was brought up. That steamer gets in at Marshfield on Toursday, and vet it is getting to be the rule that most of the freight for Coquille falls to reach here before Monday. secretary of the club was instructed to correspond with the agent of the line at Marshfle'd and see If something could not be done to speed up tre shipment of the Breakwater's consignments at that place. also stated that the Bandon Commercial club proposed to out on a boat between that port and Portland which would deliver freight at the Coquille whirf at \$3 per ton instead of \$4, which is being paid now via Marsh-fie'd. To secure this reduced cost it would be necessary to guarantee a certain amount of business at Co-quille—some 2000 tons per month and t'e club here proposes to see what can be done along that line."
