

FINAL CLEAN-UP

Ladies' Suits, Coats, Dresses and Raincoats

Irresistible reductions. These final reductions extend to all lines of fall and winter garments, a record-breaking use of the blue pencil creates the lowest price of this entire event. It is imperative that all Suits, Coats, Raincoats and Dresses be sold at once, as we must have additional space for advance spring goods. In order to make room in the shortest time possible, we have made these astonishing reductions. The greatest opportunity women have had, not only to profit for present wants, but also for the early spring as well. Please bear in mind always that any price advertised by Hub Dry Goods Company is a straight, legitimate reduction.

RADIUM MAY BE CORNERED

Radium Producers May Shut Down Works in Opposition To U. S. Policy.

NEW YORK, Jan. 29.—O. Barlow Willmarth, president of the Colorado Carnotite company, which controls most of the radium mines of the world, has sailed on the Mauretania for Europe, to confer with Mme. Curie and others on the advisability of American radium producers shutting down their works, in opposition to the threatened government policy of withdrawing all radium lands from entry. He said every pound of ore his company has mined in Colorado during the past three years, has been shipped abroad, for there are the best paying markets. "If the United States government wants to go into the radium business, let it go in right. Let it not go in by a method that will mean stagnation all around," said Mr. Willmarth.

ADVERTISED LETTERS

List of unclaimed letters remaining in the Marshfield, Oregon, Post-office for the week ending Jan. 27, 1914. Persons calling for the same will please say advertised and pay one cent for each letter called for.

ASTORIA GETS LARGEST PLANT

Marconi Company to Establish Huge Wireless Station as Aid to Coast Shipping

As an aid to the Marconi wireless plants at Marshfield and other points along the coast, the company is arranging to erect and operate the largest station on the Pacific coast at Astoria. With the establishment of the plant Operator Williamson will be able to keep in closer touch with Columbia River shipping that concerns Coos Bay.

Immense towers are to be erected and a plant installed that will exceed in power any station of the kind on the coast. Owing to the geographical location this is said to be the best for establishing such a station. For that reason the local station will be equipped to communicate with all points in Alaska as well as with vessels crossing the Pacific. While not yet definitely announced, it is understood the new station will be located at some point near Warrenton or on the tide lands near the south end of the county draw bridge.

F. M. Sammis, of New York, the company's chief engineer, and J. R. Irwin, of Seattle, superintendent of the North Pacific district, are in Astoria negotiating for a site. A tract 500 by 1000 feet in dimensions is to be purchased on the lowlands.

CORRECTS ERROR

Editor Times: In an article in paper of the 27th inst. I am quoted as saying in effect that upon latest advices from San Francisco that Major Klucny's condition is worse. This is a misstatement. I have never at any time received direct information from San Francisco regarding the Major's condition and all information given me by those who have heard, was to the effect that he was improving. Please make this correction.

VIRGIL E. WATTERS.

HERRING ARE BEING CAUGHT

Schools of Excellent Fish Enter Harbor and Fish Markets Are Busy

Schools of herring are making their initial appearance in the harbor and the local fishermen were busy today rounding up these small but excellent fish. The local markets are laying in a stock and for the first time in several months there is something besides salmon for consumption by the consumers.

The herring are making their appearance early in the year and the prediction is being made that the schools will be thick along the coast for the next few weeks. A smooth bar is enabling the fishermen to get out and the crab market is better stocked than it has been for a week or more.

TWO SIGN PETITION.

Baker County Signatures Asking West to Run Again Are Scarce. BAKER, Or., Jan. 29.—A petition started by James York, a well-to-do farmer living on the edge of Baker, addressed to Governor West and asking him to become a candidate for Governor on the Democratic ticket, tonight had two signers, Mr. York and one other. The petition circulator was told by many that they would gladly have signed such a petition a few weeks ago, but that in the light of recent incidents they could not do so.

Mr. York said he was starting the movement because such petitions were being circulated in Umatilla County, and, he said, "Baker County certainly owes more to Governor West than any other county in the state."

AT THE HOTELS

How Can You Know Piano Values?

How are you to satisfy yourself as to the real value of the piano you are about to buy? Can you judge piano values by outside appearances, determine the permanence and quality of tone by one hearing? Do you know piano construction in plate and scale design? Can you pass upon the quality of action, varnish work, veneers, and can you trust your own judgment as to durability and dependability?

The one sane and safe way to buy a good piano is to patronize a house of highest commercial standing, state your needs, and benefit by the judgment, the experience and the integrity of that house. You will pay no more, and your after-satisfaction will prove the wisdom of your choice.

Selling GOOD PIANOS and giving the best values possible for the price has been our particular care for years. That you can buy more piano value for each dollar expended here is our firm belief, and we know that your after satisfaction, because of quality, service and appreciation will be greater than you could expect.

Some splendid values in pianos, at very reasonable prices and on very easy payments.
