HERE is a real pleasure in shopping in new and up-to-date stores. That's why Central Avenue is becoming more and more the shopping center of Coos Bay. Its stores afford the newest and best to be secured. Good goods, reasonable prices and prompt service are the watchwords of Central Avenue merchants. These, coupled with the convenience of location, are proving more and more every day the real merit of the advice to "merchandise, centralize and economize on Central Avenue."

IDEAS WRAPPED IN MOTH BALLS

If you have had any experience with inefficient service, then wrap up any such ideas in moth balls and put them away for good. Our estimate of your patronage is a high one and in order to merit a continuance of it, we strive to improve our service in every possible way. Old customs, old ideas, old methods and old manners we relegate to the store-house of effete things. An up-to-date service is what you deserve and what it is our desire to give you. Phone us all your wants, for even if you do not want anything in particular but only desire to make an inquiry — 'phone just the same. This is your store, for one and in your service and your convenience.

PUBLICITY PAYS

THE best municipal advertising is municipal activity of the right kind. A town that can keep other towns talking of its accomplishments needs no paid press agent, the publicity takes care of itself. Coos Bay's reputation as a coming city of the Pacific Coast does not rest solely on promise, but is backed by performance. This

community has progressed steadily the last few years and today is acknowledged to be one of the liveliest and most wideawake places of its size on the Pacific Coast. It is up to us to maintain this splendid reputation.

AMBITION

SOME Coos Bay men started 1914 with great ambitions, while others will be content with living from day to day.

SHUCKS!

"In the long run it always pays to act decent," observed the sage. "Oh, I don't know," replied the fool. "The prodigal son is some hero, but you never hear a word about his brother who stayed at home and did the chores and helped the old folks."

AIR LIFE-PRESERVER TRIED.

Girl Steps From Aeroplane 850 Feet In Descends Safely.

LOS ANGELES, Jan. 30.—One of two women passengers carried by Glenn Martin, an aviator, stepped from his machine when it was 850 feet in the air. She reached the ground safely and demonstrated to Martin's satisfaction, the practicability of an aerial life-preserver. Spectators saw the girl, Miss Tiny Broadwick, fall 75 feet like a shot. Then a parachute attachment on her shoulders unfolded and she descended gradually and with no apparent effort at balance. Martin said tonight he had been working on the idea for two years.
