

Fox Visible Typewriters

DEMONSTRATION—Note carefully the exclusive advantages over all other standard makes of typewriters. The *Fox Visible Typewriter* also has all the other improvements of all other makes.

EXCLUSIVE ADVANTAGES OF THE FOX VISIBLE TYPEWRITER

Oscillating Ribbon. The Oscillator gives *four* times the wear of the ribbon of other typewriters, thus a big saving to the owners of the *Fox Visible Typewriter*.

Variable Spacer. Important in setting to date lines on printed letter heads. Also preserves the platen from imprint, caused by type continually striking in same place, which largely the cause of poor work of other makes of typewriters. Thus the *Platen* is called the "heart of the typewriter."

Platen Brakes. The Brake is used in filling in any printed forms, legal documents, insurance forms, statement headings, or lined forms of any nature. This is exclusive of the free roll adjustment.

Inter-spacing. A very important feature in correcting errors after the line has been completed. Note the correction as follows:

Your letter is at hand.
Your letter is at hand.

How often have you let a misspelled word go by rather than write a new letter?

Removable Cylinder. Or inter-changeable platens is a very important feature. Frequently an operator has occasion to remove a half finished letter or legal work which requires several carbon copies. With the *Fox* you may fasten the papers at the top with a clip and remove your work. To replace simply remove the cylinder, wrap the sheets around the platen and replace the cylinder. This prevents the possible disarrangement of the work.

Inter-changeable Carriages. This feature is exclusive in the *Fox Visible Typewriter*. Instead of owning two machines you need only to buy an *extra carriage*, which is built in lengths of 10 1-2, 12, 14 1-2 and 19 inches, but are very easily changed, requiring only a few moments of operator's time.

Writing Space. The *Fox Visible* has *nine* inches of writing space.

Platen Tension. Adjustable to the use of thick cards and labels or small bits of paper as small as a postage stamp.

HOME, SWEET HOME.

Oh, Home! It is a sacred place—or was, in olden days, before the people learned to chase to moving picture plays; to tango dances and such things; to skating on a floor; and now the youthful laughter rings within the Home no more. You will recall, old men and dames, the homes of long ago, and you'll recall the fire-side games the children used to know. The neighbors' kids would come along with your own kids to play, and merry as a bird song the evening passed away. An evening spent away from home in olden days was rare; the children hadn't learned to roam for pleasure everywhere. But now your house is but a shell where children sleep and eat; it serves that purpose very well—their home is on the street. Their home is where the lights are bright, where rag-time music flows; their noon's the middle of the night, their friends are—Lord, who knows. The windows of your home are dark, and silence broods o'er all; you call it Home—God save the mark! 'Tis but a sty or stall.

WHO SAYS CHICKENS DON'T PAY?

Not the man who has a Petaluma Incubator.

We have investigated all the leading makes of incubators and have decided that the PETALUMA INCUBATOR is the one best suited to Coos County and practically everyone who has made a similar investigation agrees with us.

If your chickens are not paying, come in and talk it over with us. We will show you the PETALUMA INCUBATOR and furnish interesting and valuable information concerning them and the poultry business. They come in different sizes and at most reasonable prices. Here are some of the features of them:

Why the Petaluma is the Leading Incubator

It is the invention of a scientifically practical man, who has devoted the best years of his life to the study of artificial incubation. It is made upon well-conceived plans—the principles involved have not been changed in thirty years. It has not been necessary—they were correct in the beginning.

Its regulating device is the best and most accurate instrument ever made for the purpose, and although imitated by all makers, with few exceptions, none can produce its equal—the salient features of which have been sacredly guarded by the inventor.

It is now being sold more extensively in localities where people have failed with other machines, proving that those of experience appreciate a first-class article.

It is furnished with the best egg trays and nursery baskets in the world—all galvanized steel frames and corrugated galvanized wire.

It is operated with a smaller consumption of oil than any other incubator in the world.

It hatches larger percentages than any other.

It has been awarded more prizes at the leading expositions of the world than any other.

It is the best for the beginner as well as those of large experience.

It is built by a thoroughly reliable company, which has, for over thirty years, made good to the people all that has been claimed for the PETALUMA.

IT IS THE INCUBATOR FOR YOU.

DO YOU

use your telephone to advantage?

WHY NOT?
