

ARRIVAL OF BARGE TIMELY

COQUELLE BRINGS 120 TONS OF POWDER TO GARDINER FOR TUNNEL WORK IN TIME TO PREVENT STOPPING OF WORK

(Special to The Times.)
 GARDINER, Or., Feb. 5.—The tug Roscoe arrived here with the barge Coquelle yesterday after being laid up at Newport for several weeks unable to get out.
 The Coquelle brought 120 tons of powder and her arrival was timely as the supply at the Porter Bros. camps was about exhausted and tunnel work on the railway would have been suspended in a day or two if the Coquelle had not arrived.
 The Roscoe returned at once to Newport to tow the barge Frederick to Portland where she will undergo repairs.

FARMERS TO BE DEALERS

MINNEAPOLIS, Feb. 5.—The Farmers' Grain Dealers' Association began a three-days' session here to plan an extension of their cooperative plan. This organization is formed of farmers, who deal directly with purchasers of their produce, thus doing away with the middlemen. Great mutual benefit is derived from these conventions where crops and later methods of handling their produce are discussed.

NEWSPAPER CREDIT

We presume some people think newspaper men are persistent dunces. Let a farmer place himself in a similar position and see if he would not do the same thing.
 Suppose that he raises 1500 bushels of wheat and his neighbor comes and buys a bushel. Suppose the price is only one dollar and the neighbor says, "I will pay you in a few days." As the farmer does not want to be small about the matter, he says all right.
 Another comes the same way and another and another, and so on, till the whole 1500 bushels of wheat are trusted out to 1500 different persons, and not one of the purchasers concerns himself about it—thinking it is a small amount to the farmer, and would not help him any.
 Don't you see what a hardship it would work upon the farmer if all the purchasers failed to realize that he had frittered away his large crop of wheat and that its value was due in 1500 dribblets and that he was seriously embarrassed in business because his debtors treated it as a little matter?
 If all would pay him promptly, which they all could do as well as not, it would be a very large amount to the farmer and enable him to carry on his business without difficulty. The above comparison fits all too truly the difficulties that the newspaper man has to contend with.—Ashland Recorder.

NINETY PER CENT DIVIDEND

TORONTO, Ont., Feb. 5.—The Seneca-Superior Mining Company declared an additional dividend of ten per cent, with a bonus of two and one-half per cent to the stockholders of record today. This brings the total dividend of this company for the year up to ninety per cent of the paid-up capital stock.

PACIFIC COAST RIFLE SHOOT

SAN FRANCISCO, Feb. 5.—A tournament of great interest to marksmen opened today on the Shell Mound Park Rifle Range. All marksmen of standing on the Coast are in the contest, and the winner will be awarded the championship of the Pacific Coast, a gold medal.

TO LOWER HIGH COST OF LIVING

PITTSBURG, Pa., Feb. 5.—A large manufacturing plant for grocery commodities was started in business today. The men interested are retail grocers of this city who plan to sell their output at about thirty per cent lower cost to the people. This company plans to eliminate the expense of wholesale grocer's credits, commercial salesman and the middleman. Throughout the United States these organizations are to be started, comprising about 20,000 retail grocers, and they will be affiliated with the United Growers Company of Toledo, Ohio.

OPPOSE TELEPHONE COMPANY'S ARROGANCE

BOSTON, Mass., Feb. 5.—The Public Service Commission has granted a hearing to the United Improvement Association today on the question of inducing the New England Telephone & Telegraph Company to maintain its four and six party service.

BACKACHE-RHEUMATISM VANISH AWAY.

Men and women having backache, rheumatism, stiff and swollen joints are honestly glad to know that Foley Kidney Pills are successful everywhere in driving out these ills. That is because Foley Kidneys Pills are a true medicine and quickly effective in all diseases that result from weak, inactive kidneys and urinary irregularities. Owl Prescription Pharmacy, Frank D. Cohan, Opposite Chandler Hotel, Phone 74.

TWO DISTINCTIVE GARMENTS FOR THE BOUDOIR

The negligee is quite as important to the wardrobe as the street frock or evening gown and as much attention is being given it this season. The richest of silks and chiffons are used in its making, and the modish trimmings include fur, marabout and the metal laces. Lace and marabout are especially smart. The brightest and most extravagant of silk patterns are appropriate and pleasing for these garments, providing they are becoming. Boudoir caps are fashioned in many quaint designs, the butterfly and peasant cap in lace or chiffon daintily trimmed with a rose wreath or a band of fur. No. 8008 is a quaint, smart matinee developed in pale yellow chiffon cloth, collared and banded in a figured silk in which there are minglings of several pastel shades.

The petticoat (7740) is of liberty satin in the same soft yellow.
 This matinee may be made in size 36 with 2 1/4 yards of 36 inch material. The petticoat requires 2 1/2 yards of 36 inch material for size 24.
 One of those richly colored broché silks is used for 8013 with trimmings of plain satin and frills of metal lace finishing neck and sleeves.
 A pretty fad for the boudoir is to have stockings and corthunes match the robe or matinee or contrast effectively with them. Often if the garment is fur trimmed a bit of the fur bands the slipper or trims the satin garter.
 This design (8013) may be made in size 36 with 5 1/4 yards of 36 inch material.
 No. 8008—size 32 to 44.
 No. 7740—size 22 to 36.
 No. 8013—size 32 to 44.
 Each pattern 15 cents.

To obtain either pattern illustrated fill out this coupon and enclose 15 cents in stamps or coin. Be sure to state number of pattern and size, measuring over the fullest part of the bust. Address Pattern Department, care of this paper.

THE HISS.

A LETTER from one I. W. W. to another is at the Governor's office in Salem.
 It is illuminating. In it, the writer gloats over sabotage. He delights because a youth at Eugene destroyed an employer's window glass. It was an act of sabotage. He glories in the fact that this misguided young man is destructive of the property of those who have.
 The I. W. W. at Marshfield drove iron spikes into logs so the sharp saws in the mills would be dulled or destroyed as the logs were being cut. The terrible propaganda of sabotage is being taught commended and practiced in Oregon.
 It is a gospel of hate. It is a creed of destruction. It strikes like the rattlesnake. It is a stealthy blow at the employer's plant in the dark. It puts dirt on decayed fruit in the employers' canning process. That is sabotage. It is I. W. W.ism. Tom Mann, English exponent of I. W. W.ism, has come to this country. He made a speech in New York. He said:

By banding together and educating yourselves shall you inherit the earth. We don't preach violence, but if it comes, we don't shun it. In our fight, violence cannot be helped. Strike as often as you must. After all, what we are engaged in, is war.
 Referring to the recent unsuccessful strike at Patterson, W. D. Haywood, leader of I. W. W.ism in this country, said in a speech to I. W. W. recruits:

They have gone back to their work in the mills with the cry of sabotage on their lips and their work will cost their employers many times what they pay in wages. Their cry is sabotage. We have learned to hate capitalists, and I want you to let the spirit of hate sink deep into your hearts, so that you will always hate capitalists. Use any weapon you can find until the capitalists will hate to be one.

It is a brutal game. It is a doctrine of fury, a propaganda of hatred, a spirit of strong arm.
 I. W. W.ism is an importation from Europe. Eighty per cent of the members are illiterates, from the south of Italy, from Hungary and Poland. Less than five per cent are native-born Americans. Of the foreigners, nearly the whole of the eighty per cent have been in this country less than ten years, the majority less than five. Less than twenty per cent have been naturalized, or have even declared their intention to become citizens.
 They are the most degraded and vicious elements in the countries from which they came. They set up the claim to all the wealth in this country. They are told by their leaders that no man has a right to accumulate.
 They are told that all the wealth accumulated has been by robbery and that they must resort to sabotage and other war on capital to get

their share of this accumulation.
 Such is I. W. W.ism. It has a capital. It hates property. It hates capitalists. It hates society. It hates law. It hates religion. It hates morality. It hates the church. It hates the constitution. It hates all in authority. It hates the flag of the country.
 Its cry is sabotage. It is the howl of the wolf, the snarl of the jackal, the hiss of the snake.
 It is a bloody maw dripping with the savagery of the jungle.—Portland Journal.

MEAT INJURIOUS TO THE KIDNEYS

Take a Tablespoonful of Salts if Back Hurts or Bladder Bothers—Meat Forms Uric Acid.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.
 The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.
 Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

It's So Easy

The smooth polished surface of the Electric Flat Iron glides over the clothes with hardly an effort. Tiresome tramping back and forth from stove to ironing board is forgotten. The rough, sooty irons that dirtied the clothes are discarded.

ELECTRIC FLAT IRONS ARE CLEAN AND CONVENIENT.

The Electric Iron will save time, labor and money for you. No need to light a fire for it—just attach to the nearest Electric Light Socket. Being heated from inside, it stays clean and highly polished.

Purchase from your dealer or telephone 178 for one to be sent on ten days' trial.
