

INCOME TAX LAW SEVERE

Time for Making Report Nearly Expired—Penalty for Violations.

PORTLAND, Or., Feb. 9.—Only a few days are left in which to file your income tax statement. Applications for blanks can be made to any bank or County Treasurer or to Milton A. Miller, Collector Internal Revenue, Portland, Oregon. A penalty of \$20 to \$1000 will be imposed for failure to file returns on or before March 1.

A fine not exceeding \$2000 or imprisonment not exceeding one year or both at the discretion of the court, can be imposed for making false or fraudulent return.

Every person having a net income of \$3000 or over for calendar year (\$2500 for year 1913) must make a return; a single person is allowed an exemption of \$3000 and a married person \$4000. (For year 1913, March 1 to December 31, the exemption allowed is \$2500 or \$3333.33.)

All payments due on your income may be remitted at once, or you can have until June 30 in which to pay. Payment must be made by certified check, money order or draft. Personal checks can not be accepted.

Partnerships as such are not required to make income returns, but the members comprising the firm providing their incomes reach \$3000 (\$2500 for 1913) or over are to make returns.

If in doubt regarding any part of the law or regulations write for information to M. A. Miller, Collector, Portland, Oregon.

For the year 1913, the law operates only from March 1 to December 31, so the incomes, deductions and exemptions are figured accordingly.

SCORES SCRUB CATTLE

Wilbur K. Newell Tells of Great Loss to Oregon Dairymen.

SALEM, Or., Feb. 9.—Wilbur K. Newell, a Holstein dairyman from Gaston and president of the State Board of Horticulture, is assiduously in four languages the scrub bull and boarder cow.

"With only 100,000 dairy cows in that portion of Oregon lying west of the Cascade Mountains, it is no wonder that Oregon is using butter from New Zealand. There should be 400,000 cows in that territory," said Mr. Newell.

Dividend Should Be Millions.

"There should be a monthly revenue of \$2,400,000 to the farmers of Western Oregon in dairy productions alone, instead of \$700,000 a month as the revenue is today.

And then Farmer Newell goes ahead to show the men from the farms how to do it, and he supplements his argument by demonstrating that only \$1 in soil fertility is taken from the land for every \$100 worth of dairy products produced, while \$600 worth of soil fertility is shipped with every \$1000 of hay and \$250 worth of fertility with \$1000 of wheat.

TO TIE UP DURING FOGS.

Sea Going Vessels May Not Cross Way to Oakland.

SAN FRANCISCO, Feb. 9.—As a result of the collision last month between the Southern Pacific ferryboat Berkeley and the coastwise liner Omatilla in San Francisco Bay, J. O. Davis, collector of the port, recommended to the treasury department that all sea going vessels be prohibited from crossing the ferry way between Oakland, Alameda and San Francisco during fogs.

SALTS FINE FOR ACHING KIDNEYS

We Eat Too Much Meat Which Clogs Kidneys Then Back Hurts and Bladder Bothers You.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so that it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; and makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

8115-8117

8159

SOFT VELVETY FABRICS AND CLINGING SILKS STILL LEAD

The soft, supple qualities of the new materials have influenced our styles to a marked degree the past season and doubtless will continue to tempt designers into quaint graceful drapings and folds the coming season. Skirts are full at the top and narrow around the ankles; shoulders are drooping and hips are wide. This sums up the new silhouette. Whereas the suit or gown of one color with hat and accessories matching is still smart and elegant, many of the newest gowns and suits show a decided leaning toward contrasts. A plain silk or cloth is combined with a figured material or a plaid with excellent results.

In number 8115-8117 is shown a three-tiered skirt and a novel bodice. The bodice is draped on the shoulder in hourglass effect, has a full length sleeve and an effective vest. One of those odd little details that do so much for a frock

is the wired frill around the throat and at the wrist. This of course follows the idea of the lamp-shade tunic. Dull green duvety edged with fox fashions the blouse and double tunic; the revers and foundation skirt are of embossed velvet, green with a dull coppery figure.

This costume may be made in size 36 with 2 1/2 yards of 36-inch material for the blouse (8115) and 3 3/4 yards of 36-inch material for the skirt (8117).

Here again in 8159 we note the contrasting blouse and skirt. A figured crepe de Chine is combined with a plain silk poplin. The surplus vest is of chiffon and the girde is of faille ribbon.

For size 36 this design requires 6 1/2 yards of 36-inch material.

Number 8150—sizes 32 to 42.
Number 8115—sizes 32 to 42.
Number 8117—sizes 22 to 34.
Each pattern 15 cents.

To obtain either pattern illustrated fill out this coupon and enclose 15 cents in stamps or coin. Be sure to state number of pattern and size, measuring over the fullest part of the bust. Address Pattern Department, care of this paper.

GOING TO LAW

OUR old friend, Walt Mason works lots of common sense and good advice into his prose poems, one of the latest of which is commended to every one who thinks of going to law. Here it is: "The business man may cheat me and sell me shoddy trash, the green goods man may beat me and hand me phony cash; the tough may overtake me and swat me on the jaw, and evil men may break me, but I won't go to law. I'd lose my bunch of plunder and lose it like a sport; before I'd make the blunder of going into court; I'll sidestep all the lawyers until my dying day, the tireless, costly lawyers who talk men's lives away. I'd rather burn my roubles and have a merry blaze, than load myself with troubles to last me all my days; for law means grief unending, and waiking of the floor, and every boss you're spending calls for a dozen more. The law has only magic for those who practice law; the victims find it tragic as on their roils they draw. It drives its dupes to madness, to poorhouse or to jail; it leaves, but we and sadness along its slimy trail. A million men are broken who once contentment saw, before these words were spoken: 'We'll now invoke the law!' Oh, shun it, gentle reader! Gaze not upon its face! Sidestep the gifted pleader who'd 'like to take your case.'"

FEW FOREST FIRES.

Federal Forest Service Did Effective Work in Checking Small Blazes. PORTLAND, Or., Feb. 9.—Taking into consideration every detail, actual or potential, of loss occasioned in the state of Oregon by fire within its national forests in 1913, the bill totals only \$3067, according to a report that has just been made public at the Portland district offices of the United States Forest Service. The figure is an amazingly small one, indicating as it does the smallest forest fire loss the state has ever known.

Over in Washington, which is in this district, the loss was a little greater, the total expense being \$4772, as timber measuring 5,400,000 board feet was destroyed. Great loss there was due to inaccessibility of the fires, which were located in most instances in remote sections of the forest, and the fact that more miles of railroads made the number of fires caused by railroad engines larger.

WARM AT ROSEBURG.

According to the monthly weather summary by Observer Wm. Bell, the month of January was one of the warmest experienced here since this office was established 37 years ago. The mean temperature was 45.5, being equalled but once, that being in 1878. The total precipitation for the month was 7.18 inches, as against an average of 5.70 for the January month for 37 years. The past month had a greater rainfall than any January since 1909, when the total was 10.38 inches.—Roseburg Review.

FEARED LYNCHING — HANGED

ATLANTA, Ga., Feb. 9.—Three negroes, George and William Hart and Robert Paschal, were hanged here Friday for the murder of Mrs. Seth Irby, of Jefferson County, several weeks ago. Feeling near the scene of the crime was so strong the authorities feared lynching. The trial was held only last month.
