

SIMPSON TO HASTEN WORK

North Bend Mayor Wants Hard Paving and Through Street to Marshfield

At a meeting of the North Bend Council a letter from Mayor Simpson, who is now in San Francisco, was read. He urged that the Council take steps to secure hard paving for some of the principal thoroughfares in North Bend. He also urged the completion of the Montana street bridge and the completion of Sherman avenue to the south line of the city limits of North Bend. He also asked that a committee be appointed to confer with the Marshfield City Council to try and have the latter hasten the opening of Eleventh street to connect up with Sherman avenue, making a fine through thoroughfare linking the two towns.

Street Improvements.

City Attorney Derbyshire was instructed to prepare ordinances adopting the grades on a number of the streets. Among them were Meade avenue between Virginia and Maine, on McPherson from Virginia to Maine and on Union from Washington to Maine. All were approved by property owners and the Council.

The finance committee reported against any increase in the salaries of city officials at this time.

J. W. Grout was elected street commissioner at a salary of \$2.50 per day.

The petition of D. W. Small and others asking that grades be established on Exchange, Newmark and Commercial streets from Union to the east line of Plat B was granted and the engineer ordered to prepare same.

COQUILLE TO PLAY TONIGHT

Basketball Game at North Bend Will Nearly Decide Championship

| STANDING OF TEAMS. | |
|-----------------------------|------|
| Coquille | 1000 |
| North Bend | 1000 |
| Marshfield | 500 |
| Myrtle Point | 250 |
| Bandon | 000 |
| Riverton (not on schedule.) | |

Coquille and North Bend will play an interesting as well as exciting game at the Tabernacle in North Bend tonight, as this game will practically decide the Coos county championship. A return game is to be accorded Coquille on their own floor should they be defeated tonight. Winning will make them champions.

Both teams have been training hard for tonight's game. The Coquille team arrived on the noon train today, presenting the appearance of sure victors. According to those who have figured the games played by both teams, Coquille is due to win tonight. The North Bend team has been practicing earnestly for the past week and may spring a surprise on the boys from the county seat.

Marshfield is to play two games before the windup—two at home and two away. They will go to Myrtle Point on February 20 and endeavor to trim the Myrtle Point team.

On February 27th Bandon will play Marshfield here. Although the series is practically decided some interesting games are promised.

The lineup for tonight's game at North Bend is as follows:

| North Bend | Position | Coquille |
|------------|----------|----------------|
| Bartlett | Center | George Oerding |
| Rackleff | Forwards | Cliff Kern |
| Miller | Center | Leslie Earl |
| Roberts | Center | Ray Miller |
| Dement | Guards | I. Watson |

Games in Marshfield.

The strong Riverton team will play the Marshfield High School team in the Marshfield tabernacle this evening. As a curtain raiser for the main event, the Marshfield second team will play the Marshfield Independents.

Title Guarantee and Abstract Co.

PLAN REPAIRS TO FREDERICK

Porter Brothers Have Damaged Barge Overhauled—Florence Mill to Work

PORTLAND, Or., Feb. 13.—Repairs to the barge Frederick, belonging to the Tide Water Mill Company of this city, and badly damaged by running ashore near the entrance to Yaquina Bay, will be made by Anderson & Crowe, to whom the contract was let. The work of putting the sea-going barge in good condition is being started at the Oregon drydock. The contract is expected to be completed in twelve or fifteen days.

The Frederick is to be equipped with a new keelson, and a big portion of the bottom of the hull aft will be renewed. She is to be recalced and considerable other work will be done to her. Temporary repairs were made down the coast to permit of her being brought to Portland. Within three or four days the tug Roscoe, owned by the same company, will come up from Nehalem for a general overhauling. It is announced she will tow the Frederick back to Nehalem, where the company owns a large sawmill plant.

After having been shut down for some little time, the sawmill will resume operations March 15, supplying lumber cargoes for a fleet of vessels which the company will place in service between Nehalem and San Francisco. The daily capacity of the mill is 175,000 feet. The fleet which will transport the product down the coast are the steamers Oakland, Hugh Hogan and Sausanito and the barges Frederick and Lawrence. Their aggregate capacity is about 3,000,000 feet of lumber.

H. P. Dutton, general manager of the Tide Water Mill Company, says material improvements have been made to the plant at Nehalem since it was shut down. He estimates that the capacity of the mill has been increased by fully 23 1/3 per cent. It was while carrying lumber from there that the Frederick went ashore, and the schooner Oakland put into the Columbia River in distress in December, after having been badly disabled. She is lying at St. Helens.

After the barge has been lowered the steamer Sus H. Elmora will enter the Oregon drydock for a general overhauling. She will be off the Portland-Tillamook run but a few days.

RAILROAD NOTES

President B. A. Worthington, of the Chicago & Alton railroad, denies that he will resign.

The Chicago & Northwestern is in the market for 14,000 tons of rails for early delivery.

An order for 1000 modern under-frame box cars, to cost approximately \$1,000,000, has been placed with Haskell & Barber Company, of Michigan City, Ind., by the Toledo, St. Louis and Western Railroad.

The directors of the Washington & Franklin Railway Company and of the New York Short Line, both Reading subsidiaries, re-elected their present officers recently.

The New Haven has had all its dining car forces, numbering 123 men, subjected to a physical examination to determine whether they were free from disease and physical defects. Only one man, a waiter, failed in the test.

The United Milling Company, of Buffalo, N. Y., has petitioned the Interstate Commerce Commission to compel the New York Central and the St. Louis Railroad to refund \$30,000 which it alleges they collected from it over and above legal transportation rates.

Harry A. Wheeler, president of the Chamber of Commerce of the United States, foresees the time when the directors of railroads in the United States will be composed equally of shippers, financiers and practical railroad men.

Many carloads of sawdust in Pennsylvania railroad shops are burned in furnaces to save coal. In some of the large shops the sawdust and shavings exceed a carload a day, so that it makes no small item in the coal bill of the shop. Waste paper is one of the largest items of the savings. It is gathered in the offices by porters and added to this are tons of old records that have been saved in the files the time limit.

COST TO SOUTH OF DISEASE OF NEGROES.

TUSKEGEE, Ala., Feb. 12.—There are probably 450,000 negroes in the south seriously sick all the time, according to a statement by Monroe N. Work, editor of the Negro Year Book at the recent annual negro conference at Tuskegee.

The annual cost of the sickness of these 450,000 negroes is about \$75,000,000.

Over 100,000 negro workers in the South are sick all the time; their annual loss in earnings amounts to more than \$40,000,000.

The farming interests of the state lose annually from sickness and deaths among negroes \$200,000,000. Total economic loss to South from sickness and deaths among negroes is \$300,000,000.

The application of the science of preventive medicine to its negro population would probably save \$150,000,000 of this amount.

As a result of the conference a national organization for the conservation of negro health is in process of organization.

INGRATITUDE IS HIS THEME

Rev. Joseph Knotts Delivers Able Sermon at Local Revival Meetings

The revival services at the Marshfield M. E. Church last evening were full of deep meaning and caused many to stop and think, as Rev. Knotts spoke with much emphasis upon the subject of "Ingratitude," using for his lesson the story of the ten lepers, and the ingratitude of the nine, when only one turned back, illustrating also the subject by a very touching story of life taken from the story of the college youth who was ashamed of his own father who had come to see him graduate. Good special music and a large chorus were also much enjoyed by those present.

The subject tonight will be one of interest and the young people should make an effort to hear Rev. Knotts.

NORTH BEND NEWS

J. E. Olsen, of Empire, was in this city on business yesterday.

At the annual meeting of the First National Bank Henry G. Kern was elected president, Robert Banks vice president, John H. Greves cashier and H. G. Bergman assistant cashier.

Mrs. Clara Chadwick, of Bend, Wash., has written to Postmaster Russell to try and locate her husband, Bert Chadwick, who was on Coos Bay when she last heard of him, and whom, she thinks, is demented. J. D. Hemeway and wife have moved here from Seattle and are residing in the Frame apartments.

S. C. Rogers of the South Coos River boat line has settled the case for damages which Jay Potter started against him, Potter claiming that he was forced to jump from the boat while it was in motion and thereby injuring himself.

According to a report received here, Mrs. I. M. Wells, a former North Bend milliner who gained some notoriety in a breach of promise case against Chas. King, was recently married in San Francisco.

Miss Thea Kruse will be seen February 18 at the home of bride's parents, Mr. and Mrs. I. Kruse, and only immediate relatives will be invited.

Fred Moore, of Eastside, who returned from Blue Lake, California, reports that his father is now proved, while he was there, was married.

Geo. Windsor has returned Woodland, Calif., where he was ed by the death of a sister.

Harry Pence, a cigar maker, his wife, will leave tomorrow Portland to make their home.
