

Nurse Proclaims Skin Cure

Myrtle Hahn Says D. D. D. Prescription is Worth Rockefeller's Millions to Her.

"Ten years I suffered with eczema—three years of that time I could not appear in public. My entire body was covered with the disease. I could not eat. I could not sleep. I could not live. I have at last found the great Prescription D. D. D. My body is clean, smooth. If there were one bottle only of D. D. D. in the world and I had it, Mr. Rockefeller's millions could not buy the golden fluid."

How about you? If you have any skin blemish or a little rash, do not let it develop into something more serious. Remember D. D. D. Prescription has been recognized for fifteen years as the standard skin remedy. It always helps, and if used according to directions, it should cure in a short while. All druggists sell this standard remedy, but if you come to us, we will offer you the first full size bottle with the guarantee that unless it stops the itch at once we will refund the purchase price. Ask also about the equally efficient skin soap.

FLORENCE BAR IS IMPROVED

Lowest Water Reported in Past Month is 14 Feet

FLORENCE, Or., Feb. 17.—Of the half-dozen or more vessels to make this port in the past thirty days, the lowest water reported on the bar was fourteen feet, by Captain Johnson, of the Tillamook, and he came in two hours before high tide. The Patsy reported 20 feet on one of her record trips, which is the greatest depth so far. Straightening of the channel by the jetty work is the cause of this improved condition.

The gasoline schooner Tillamook, which unloaded here Friday, returned to Portland Sunday. The Rustler came in from Coos Bay with a mixed cargo for Glenada, Acme and Florence. The tug Roscoe towed the Coquille in this morning, completing the trip which started at Yaquina with the load of the wrecked Frederick.

THEFT AT COALEDO.

Henry Ballard Arrested for Taking Shoes at Camp 2.

The Coquille Sentinel says: Henry Ballard was put in jail here for stealing a pair of shoes at the Smith-Powers' camp No. 2, at Coaledo. He had been loafing about there several times this winter, without making any effort to get work. Naturally he was on his uppers and he says one of the men had promised him a pair of shoes so he wouldn't have to go barefoot any longer. When he got up to the bunkhouse yesterday morning he took the best pair of shoes he could find and made tracks for the tall timber. The shoes belonged to E. F. Ingboom and were nearly new. The bull cook, Zimmerman, saw him and took after him and caught him and brought him down here to jail.

MANY SUITS FILED

Several Suits Filed in Circuit Court at Coquille This Week

The Coquille Sentinel says: There have been a batch of cases filed in Circuit Court during the past week.

Maniva & Crissel sued W. E. Catterlin for money due for goods to the amount of \$222 last Thursday.

Wm. T. Stoll sued the City of Bandon for attorney's fees claimed to be due him.

John Karl, of Marshfield, asked the court to help him collect a board bill of \$74 from Wm. Bjurbeck and another of \$29 from Geo. Hooendaal, otherwise known as George Rain.

Henry Holm, a North Bend butcher, is being sued by Seldon Warner, who lives up the river from Myrtle Point, for \$4000 and interest from August 5, 1908, on account of money due.

Myrtle Ada Jones began suit for divorce from her husband, Rolla R. Jones.

Jos. F. Hope began suit against one, Vanberger, for principal and interest on a \$200 note. Both parties live at Lakeside.

The General Electric Company, of New York, sued G. Gilbertson and James H. Moore on a note for \$396.95 and interest. The note was given at Glendale, but the defendants are now living on the Bay.

The Southern Oregon Company was given a decree on the 11th against W. H. Davis and several dozen other defendants, quieting title to lots and lands platted at Marshfield by E. B. Clement, and forever barring them from making any claim to the property.

The divorce asked by Robert Prewett from Mary Prewett, his wife, was granted Wednesday by Judge Harris.

WILL USE CABLE.

E. J. Loney is contemplating putting in a wire cable near Fort Point to ship railroad ties from during the time that a new wharf is under construction. The building of a permanent dock, such as will probably be built, will require considerable time, and if it cannot be completed so that shipping can be done over it during the early part of May, Mr. Loney will install the cable system. He has investigated the working of cables at several other coast ports, and is very much encouraged over the way they handle freight. A cable was used successfully at Port Orford in early days, and one would be quite a convenience now that the wharf is out of commission.—Port Orford Tribune.

TO MARK HERO'S GRAVE.

The following from the Coquille Sentinel will be of interest here, as Morgan Shook formerly lived with his father, Sam Shook, on Coos River:

"J. A. Mayse of East Fork is soliciting a fund to erect a monument to mark the grave of Morgan Shook, who lost his life in trying to rescue two other boys from drowning at Gravel Ford last week."

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is a Sign You Have Been Eating Too Much Meat Which Forms Uric Acid.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid, which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have back ache, sick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

Hotel Benson

DUCK SEASON OFF IN CALIFORNIA

LOS ANGELES, Feb. 17.—The duck shooting season throughout southern California this winter has, on the whole, failed to attain the average. While "limits" have been killed generally on the better clubs, it has been the work of all morning, instead of an hour or an hour and a half as formerly. Most of the gun clubmen favor the Federal law, which speaks well for their sportsmanship since offenders have been dealt with so leniently. The interest in shooting has increased considerably, and the number of guns has made more difficult the filling of a "bag." Sprig are becoming as rare as canvasbacks, and the green-winged teal were uncommonly scarce. Spoonbills were the prevailing duck after the first shoot. The mild weather kept the pond-feeding alive rather longer than usual, and the birds were in fine condition. At the opening of the season it could be shown easily that a sixteen bore was the standard gun of the hunters, with a considerable number using twenty bores. Then came the sunrise law and the extra handicap imposed upon "limit" bagging. The hunters went back to the twelve-bore, and found it hard to change back to the heavier, slower guns and hit with them.

Several clubs have disbanded, among them the Alamitos and the Green Wing. There are more hunters every year and it is only the clubs, which are doing all that can be done to further the interests of the sport throughout California, which prevent the ruin of shooting by the unattached gunners. These private preserves seem to be a bitter pill for the average American sportsman to swallow, but it is the only specific. But for these clubs there would be no ducks in that part of the country.

LIBRARY NOTES

Among the books received from the state are a number of biographies among which is the life of the actress, Mary Anderson Navarre, called "A Few Memories." It is common-place that most girls have an ambition at some time to be either a nurse or an actress. The latter has rather the stronger following. In the first chapter, the writer explains her purpose in writing this account of her stage life. "I have written these pages more for young girls (who may have the same ambitions I had) than for anyone else, to show them that the glitter of the stage is not all gold, and thus to do a little towards making them realize how serious an undertaking it is to adopt a life full of hardships, humiliations and even dangers."

Side by side with Mary Anderson's life, which looks bigger than it is, because of the large print, is a tiny volume on General Nogi. It would only take you an hour to read it but when you finished, you would carry with you for several days the picture of a man sad in the midst of a great victory because of the cost of that victory in human life.

Dealing also with a race that writes from left to right, whose screws screw opposite to ours, whose ideal is the submerging of the individual for the good of the family and state, is a book that has been mentioned before—it is not a biography, but explains the little book mentioned above—is Hearn's "Japan and Interpretation."

Maybe you don't care for actresses or Japanese Generals, but are a plain business person. You say, yes, it's easy to find interesting lives of every one but business people. Professors, Generals, Kings, doctors, actors, are always appearing in two-volume accounts. But who ever hears of a man who really made money being good material for a readable biography in anything outside of a newspaper or magazine. It is regrettable that few business men have ever been the subject of a biography, yet this renders the lives of such that we have the more valuable. Among them is that of William Baldwin, a successful, wealthy railroad man, who had the gray matter to make more money than most men, the courage to refuse to make it dishonorably and the humanity to mix with his work a brotherliness that made him beloved of ticket sellers, freight agents, general managers and peanut boys.

PORT ORFORD'S NEW CRAFT.

Postmaster Johnston is the proud owner of the first gasoline boat to ply the waters of Port Orford Lake, and while the boat is but 18 feet in length and the engine is one that the worthy Postmaster takes home in his pocket, so to speak, nevertheless, it is a neat little craft and has the distinction of being the first power boat to disturb the quiet waters of the lake—a place where hundreds will some day float. Mr. Johnston is a disciple of the rod and line, and expects to spend many hours at his favorite sport, made more pleasant by the new boat and little two-horse power detachable engine.—Port Orford Tribune.
