

# BROTHERS MEET AFTER 27 YEARS PLAN FOR GAME AT COQUILLE

### E. Kibele Visits Louis Kibele Here—Come of Family of Heavyweights

After twenty-seven years' separation, Louis Kibele, pattern-maker at the Nelson Iron Works, and his brother, E. Kibele, general manager of the Southern Well Works Company at Chattanooga, Tenn., are today enjoying reunion here. Mr. Kibele arrived here today on the stage and will visit his brother until Saturday.

"I had to come to the Coast and thought that I would drop in here to find out whether he or I is the dwarf of the family," jokingly remarked E. Kibele at The Chandler today. "There are nine children in our family and we were the smallest. Louis is taller than me, but we weighed about the same and today when we stepped on the scales, there was less than an ounce between us—both tipping it at 215. The others in the family weigh over 224 and one tips the scales at 312."

Louis Kibele came to Oregon in 1887 and for several years was at Salem and Eugene, coming to Marshfield about seven years ago.

E. Kibele is going to look over the California oil fields.

### North Bend High School Team to Have Special Train Friday Night

Much interest prevails at North Bend and Coquille over the deciding basketball battle to be played between the two teams at Coquille next Friday evening.

The North Bend team has chartered a special train for the accommodation of rooters and friends of the North Bend team which will leave Marshfield at 6:30 p. m. on Friday evening, arriving at Coquille about 7:30 p. m. and returning immediately after the game, arriving in Marshfield at 11:15 p. m. at the latest. Persons desiring to see this deciding game can secure tickets entitling them to transportation to Coquille and admission to the game, together with a return ticket to Marshfield, for \$1.50.

It is expected that 200 or more friends of the North Bend team will go to Coquille to boost for the home team. The Coquille team is enthusiastic about having a large gathering from North Bend and it is not altogether unlikely that they will meet their rivals and friends at Coquille and escort them to the hall where the deciding game will be played.

Some discussion has been going on as to the umpire and referee for Friday's game, the Coquille aggregation holding that Lafferty, a stranger to both teams, was partial to one side. So strenuous were the objections that arrangements were made today for Watkins of Bandon to act as referee and Dr. Morrow of Marshfield to act as umpire.

The lineup of the teams for the game will be as follows:

North Bend	Position	Coquille
Jacobsen	.....	Oerding
Watters	.....	Kern
Forwards		
Bowen	.....	Leslie
Center		
Hage	.....	Miller
Simpson	.....	Watson
Guards		

### Marshfield At Myrtle Point.

The basketball team of the Marshfield High will also play at Myrtle Point on Friday night, when they will attempt to down the boys of the Myrtle Point basketball team. Marshfield defeated this team on the Marshfield floor and are confident they can repeat the performance at Myrtle Point. The Myrtle Pointers have been practicing faithfully and will be in the pink of condition when the whistle blows for Friday night's game.

Friday night will be an off night for Bandon, which defeated Myrtle Point last Friday night at Bandon 16 to 14, unless the Riverton team is taken on for a contest at Bandon.

### BOOSTS COOS BAY.

#### R. M. Jennings Tells Eugene People What Is Doing.

R. M. Jennings, manager of the Oregon Power Company, is expected home today from a trip to Eugene. While there he did a little boosting, as is indicated in the following from The Guard:

"R. M. Jennings, manager of the Oregon Power company's public utilities at Coos Bay and former manager here, is in the city, having arrived from Portland on his way home from that city. He is spending the day here and will leave early tomorrow for the Bay, going by way of Roseburg and the stage.

"Mr. Jennings said this afternoon that the Coos Bay cities are active and that the railroad work in that section is being pushed as rapidly as possible, considering the winter weather. The Oregon Power company will soon begin the construction of ten or twelve miles of high tension transmission lines extending to Myrtle Point and Coquille. A portion of this line has already been constructed. The company intends to extend its gas mains this year and general improvements will be carried on during the summer season.

Mr. Jennings still has a warm place in his heart for Eugene but says Coos Bay is the coming metropolis of western Oregon."

### THE SHERIDAN CASE.

A Roseburg paper says: "On account of the fact that many of the more important state's witnesses have been summoned to Portland to give testimony before the Federal grand jury, in the investigation of the affairs of T. R. Sheridan, it may be possible that Sheridan will not be tried here during the February term of court which convenes on Monday. Several of those persons involved in the case left for Portland last night, while others leave this evening."

### CHAMPIONSHIP SWIM BEGINS.

(Special to The Times.) HONOLULU, H. I., Feb. 18.—The mid-Pacific water carnival opens here today. The competitions will last three days and swimming races will be held between an American team and the Hawaiian team, which includes Duke Nahanamoku. The Australians have invited the famous swimmers of the islands to visit them and try conclusions with their best amateurs.

The best many a girl gets out of it who marries for a home is a chance to cook for boarders.

### TENNIS CHAMPION TO U. S.

MELBOURNE, Aus., Feb. 18.—Norman Brookes, who has definitely decided to captain the Australian Davis Cup team, sails from here today on the R. M. S. Orway. The American tennis enthusiast may begin to prepare himself for the rare feat of the Davis cup competition, which will be served during the coming season. The Australian team will comprise Brookes, Dunlop, Douse and Wilding and will be one of the classiest which has ever battled for the Davis cup.

### STATION FOR SLESLAW.

#### Life Saving Department Acts Favorably On Request.

WASHINGTON, D. C., Feb. 18.—The superintendent of the Lifesaving Service has made a favorable report on Congressman Hawley's bill for the establishment of a lifesaving station at the mouth of the Siuslaw River, and it is believed this report will result in favorable action by Congress. The people now maintain a volunteer station.

## PREPARE TO RESUME WORK

### Porter Brothers' Superintendent Goes to Gardiner.

The Eugene Guard says: That grading work on the Willamette Pacific railway will soon be resumed between the Siuslaw and Coos Bay was the statement of J. E. Nelson, superintendent of construction work for Porter Brothers, contractors, who left in a private conveyance for Mapleton Monday.

Superintendent Nelson will leave the vehicle at Mapleton and proceed to Gardiner, his headquarters, by boat to Florence and by stage down the coast to the Douglas County town.

The grading between Eugene and Acme is entirely completed and work on several of the tunnels south of the latter place has been carried on all winter. Grading along the coast will start as soon as the ground is dry enough in the spring to work successfully. It is expected that over 2000 laborers will be employed between the Siuslaw and Coos Bay during the coming summer and fall.

## SALMON EGGS IN HATCHERIES

### Oregon Institution Have Large Amount of Fry on Hand Now

SALEM, Or., Feb. 18.—According to the monthly report of R. E. Clanton, superintendent of the fish hatcheries of the state, there are 14,104,790 young salmon on hand at the Bonneville Central Hatchery, and 1,250,000 Eastern brook trout eggs which are in different periods of incubation. The Eastern brook, black spotted and rainbow trout are all in the finest condition, and have shown a very favorable growth during the month, says the report.

Further, the report says that in order to make retaining ponds which will be near to natural conditions a new channel into which Tanner creek has been diverted has been opened. The work of installing the ponds has been held up temporarily because of weather conditions.

All the eggs are now hatched at the Clatskanie River Hatchery, says the report, and there are 2700 3-year-old Rainbow trout, 11,700 Rainbow yearlings, 141,787 Salmon fry at the McKenzie River Hatchery. 75,000 Eastern brook trout eggs were shipped to this hatchery, and they have been hatched.

In the Tillamook Hatchery there are 495,980 Chinook fry, and it also has 779,025 Silverside Salmon eggs, and 353,420 Silverside fry on hand. In the Siuslaw River Hatchery there are being fed 1,029,315 Chinook fry, and 4,823,425 Silverside fry in the hatching troughs. At the Umpqua Hatchery there are being fed 1,495,420 young Chinook fry, and at the South Coos River Hatchery and Coquille Hatchery there are also a large number of fry and eggs on hand, and conditions generally good.

### CHICKENS TO REDUCE COST OF LIVING

CHICAGO, Feb. 18.—One way to reduce the cost of living, according to the Y. M. C. A. of this city, is the utilization of the back yards of the city for poultry raising, for it means many dollars every year. In the lecture course on chicken raising, the topic for tonight is "Best Breeds for City Lots and Back Yards," by the manager of Midlothian farms, Ill., J. G. Poorman. The object of this course is to show how a few moments in the morning, a few at noon and a few more in the early evening, will keep a small flock of chickens so industrious that table expenses will drop 20 per cent.

### BAD STORMS

will damage your roof if you do not have it worked over when needed. Do not wait until it is out of service before attending to it. Have your roof coated with ELASTIC ROOFING CEMENT. Lasts for ten years. All work guaranteed. Phone 89. Box 118.

## REPRODUCE OLD COURT HOUSE

### Suggestion From Empire for Coos Building at Panama Exposition Next Year

Editor Times: I would make a few remarks as to the part we should take in the Panama Fair. Do not let us do as we did at the Lewis and Clark Fair—spend all the money on the building. Why not build a reproduction of our old court house in this town. It is an easy building to build, and has many historical associations, not only of interest to ourselves but to all persons interested in the West.

### WAREHOUSE AT GLENADA.

#### Railroad Contractors Prepare for the Summer's Work.

FLORENCE, Or., Feb. 18.—The Siuslaw Pilot says: Authentic information was received in Florence Monday that the Porter Brothers-Grant Smith company has leased water frontage and a piece of tide land belonging to Wendling Johnson at Glenada and would erect a wharf and warehouse on the property.

The railroad contractors are anxious to begin their work as soon as possible and this move is to facilitate the landing of construction material and camp supplies for the work between the Siuslaw river and the Umpqua river.

The Elmore people have a contract to transfer railroad construction supplies and have put the Tillamook on the Portland-Siuslaw run to take care of this increase. And if necessary to meet the demand will supplement the Tillamook with another boat.

It is expected that construction of the wharf will soon begin, so as to enable the work south to be started as soon as the weather conditions admit. The roadbed is now practically completed to Acme and ready for the laying of rails, but between the Siuslaw and the Umpqua rivers are two tunnels to complete and this year will see the contractors busy rushing this section.

### HEAVY FINES WHEN 8 DRUNKS ATTEND DANCE

PORT ORFORD, Or., Feb. 18.—At a dance which followed a lodge meeting at Langlois recently eight young men, under the influence of liquor, began a rough-house celebration, throwing people down and creating disorder generally, one man having his front teeth knocked out as he tried to leave the hall. They were all arrested and Justice of the Peace Cox fined seven of them \$100 each, and the eighth man \$125.

WANTED—Competent, experienced millwright. Tide Water Mill Co., Florence, Or.

## TO LOSE CLAIM AFTER YEARS

### H. L. Aker, of Riddle, Have Lived 25 Years in Place in Vain

RIDDLE, Or., Feb. 18.—H. L. Aker came in from his ranch on the South Umpqua, and went to do business before the U. S. Land Office. The general land office ordered his homestead filing upon the grounds that he had made filing within the time after the filing of the survey, Mr. Aker has lived on the claims and improved it for 29 years.

The reason that he did not within the time required was he was unable to get out to do so, fact was known to the Land Office officials at Roseburg at the time, and taking into consideration Mr. Aker's hardships in coming from his claim, they allowed him to go ahead and file. Now the Land Office authorities rule to cancel the claim and state that the local office is allowed to file the claim, Mr. Aker has made an appeal to the secretary of the Interior, and has that he will be allowed to file the claim. Otherwise, in order to get the land, he will have to file another law, which applies to lands in forest reserves.

Ben and Hank Nichols have affidavits to the fact that he resided there to their personal knowledge 22 and 25 years respectively. Forest Supervisor S. C. Barlow also said to be making affidavit to the department in behalf of the residents of this county and hopes that Mr. Aker, who has advanced in years, and who has things that he possesses, the claim, will be allowed to file the patent from the government.

### HIGH SCHOOL 75 YEARS

(Special to The Times.) PHILADELPHIA, Feb. 18.—Central High School was seventy-five years ago and will hold a celebration. Leaders in virtually every life will be represented at the event planned. A mass meeting will be held here today and the meeting on the 24th. The living alumnus of the high school, Jarvis Mason, a member of the second class, who graduated in 1839. The history of the Central High School stands prominent in the story of public education in the United States. It is the second high school in the country, and was founded in date only by the English High School.
