HUERTA EXPECTED TO APPEAL TO WORLD POWERS AGAINST U. S.

Asks Washington Government to Reconsider Raising Embargo on Arms

CLAIMS THAT ORDER SUSTAINS ANARCHY

Claim That Mexican Government Cannot Prevent Crime on This Account

(By Associated Press to Coos Bay Times.)
WASHINGTON, D. C., Feb. 27.—After a long lapse in the diplomatic exchanges between Washington and Mexico City, an attempt has been made to reopen the correspondence by the submission of an appeal by the Huerta government for a reconsideration by the United States of the embargo on the export of arms to Mexico. A feature of the communication which is said to have been issued at Mexico City last night is the allegation that a state of anarchy now exists in so much of Mexico as is occupied by the rebels that a despatch permitting exportation of arms would be placed them in a favorable situation for committing outrages while preventing the Huerta government from repressing them.

The real purpose of Huerta is believed to be to add another note to the exchanges, perfecting his case, and will be, for the consideration of the world powers.

It is not expected that the United States will return any formal answer.

(By Associated Press to Coos Bay Times.)
WASHINGTON, D. C., Feb. 27.—The American government regards the hanging of Clemente Vergara, an American citizen, as a subject for reparation by the Huerta government, because known after today's cabinet meeting.

Bryan announced that a demand for the punishment of those responsible for the killing of Vergara had been sent by the United States to Huerta.

GRANT COACH HIS DIVORCE

Bandon Man Finally Secures Decree—Coquille Wins Property Case

(Special to The Times.)
COQUILLE, Or., Feb. 27.—Arthur Coach, a well-known Bandon man, was last evening granted a divorce. The suit went by default, Mr. Coach and his wife having arranged a property settlement outside of court.

This is the culmination of a series of suits, Coach having first sued for a divorce and later she sued and both cases were rather sensational. In granting the divorce last evening, Judge Coke severely censured Coach for his manner of living.

Coquille Wins Case.
In the case of Mrs. Alice McDonald vs. the City of Coquille, involving the ownership of a tract of land which has been used for a public highway, Judge Coke held for the City of Coquille. He held that the public had gained the right to continue the use of it. Henry Sengstacken of Marshfield represented Mrs. McDonald.

Mercantile Case Up.
The case of Mrs. Mary Merchant vs. Sheriff Gage was also submitted to the court. She is suing to annul the sale of the W. T. Merchant home on North Broadway in Marshfield by Sheriff Gage for taxes on the former W. T. Merchant store. Sheriff Gage instead of getting the back taxes out of the stock proceeded to sell Merchant's property, on which Mrs. Merchant had a large mortgage. The taxes amounted to about \$1800.

Bandon Port Case.
The Port of Bandon test case was tried, but it will be some time before a decision is handed down as both sides were granted time in which to file written briefs. The case will probably go to the Supreme Court, regardless of which side wins.

He said that Edgar McDaniel of North Bend had introduced Mr. Seydel to them. He said that Mr. Seydel wanted to confer with the city officials and others about the matter.

Industrial Workers of the World attempted to assume charge of the strike last December and there was much disorder. Later the Western Federation of Miners organized the men, who quit because their hours were increased without more pay.

AUTO CRASH IN NORTH BEND

Machines of George Rotnor and Gorst & King Damaged—One Slightly Hurt

George Rotnor's auto was pretty badly smashed in a collision on the Marshfield-North Bend road near the Kinney dock last evening, a Gorst & King car slightly damaged and one person slightly hurt.

Mr. Rotnor, Fred Marx of Portland and Miss Ziegler escaped injury, but Mrs. M. J. Eirod, the other occupant of Mr. Rotnor's car, was slightly bruised and her eye hurt.

They were returning from North Bend about 8 o'clock and the drizzling rain made the windshield rather obscure. Mr. Rotnor saw two cars approaching and turned out to pass. The road is rather narrow there and he noticed as the first car passed that he was very close to the rail and he swung back into the road. Just then the Gorst & King car came along and the two crashed together, ripping the running board off the Gorst & King car and smashing a wheel on Mr. Rotnor's machine. The momentum carried them by each other and the broken wheel threw Mr. Rotnor's machine off the grade.

It was purely an accident and no blame is attached to anyone, and that it was not more serious is a source of gratification to all concerned.

ONLY \$50,000 TO COOS BAY

Congressman Hawley Straightens Out Appropriation—New Dredge

Sec. Henry Sengstacken is in receipt of word from Congressman Hawley that the present Rivers and Harbors bill contains an allowance of only \$50,000 for Coos Bay. This is to be used for maintaining the bar dredge Michie and other work. Some thought that Coos Bay was to get an extra \$50,000 but Mr. Hawley says that the appropriation for the bar dredge has to be made each year instead of being automatic.

The Vancouver Chamber of Commerce has written the Marshfield Chamber of Commerce urging them to get after Congressman Hawley and see that Major Morrow's recommendation for the construction of another dredge for the Oregon and Washington harbors is carried out. They point out that the Oregon is the only one now available and that another one is needed.

(By Associated Press to Coos Bay Times.)
WASHINGTON, D. C., Feb. 27.—Consul Letcher telegraphed Secretary of State Bryan that General Villa would permit two Americans, two Englishmen and two members of the family of William S. Benton to view the body of the dead rancher. Letcher also reported that Villa would permit two physicians to accompany American and British representatives and members of the Benton family and he would furnish transportation and accommodations for all of them. Bryan said just before entering Cabinet meeting that Letcher's dispatches confirmed previous information that Benton's body was in Chihuahua City. He said arrangements would be made soon for a visit of the commission to Chihuahua to view the body and intimated that disposition of it would be settled after medical examination.

(By Associated Press to Coos Bay Times.)
EL PASO, Tex., Feb. 27.—George C. Carothers admitted he had postponed his departure for Chihuahua, and while he was silent as to his reasons it is assumed that the arrival here of British Consul Perceval to participate in the Benton investigation and the receipt by Carothers of a bulky dispatch from Mexico accounts for the delay.

(By Associated Press to Coos Bay Times.)
EL PASO, Tex., Feb. 27.—The presence here of Consul Perceval is believed to mark the beginning of important developments. It is believed when the commission departs for Chihuahua to examine Benton's body Perceval will accompany it.

Anxiety over the disappearance of Gustav Bauch continues. Belief in the report that he was shot as a spy last Friday is general on this side of the Rio Grande.

(By Associated Press to Coos Bay Times.)
CHIHUAHUA, Feb. 27.—As an explanation of his continued delay in attacking the Federal army at Chihuahua, the opinion is freely expressed by the close advisors of Villa that he is quite content with his present supreme authority and that he will not push southward until necessity demands. In the meantime the Federal forces are growing and may soon push north to take the offensive. The rebels have lost ground by the delay.
