D. D. D. In Hospitals; Standard Skin Cure

How many hospital patients, suffering the frightful itch, the raw scorching pain of skin disease, have been soothed to sleep by a soothing fluid washed in by the nurse's hands?
That fluid is the famous D. D. D. prescription for eczema.
THE SUPERVISING NURSE of one of our prominent Catholic institutions (name of nurse and institute on application), writes regarding a patient: "The disease had eaten her eyebrows away. Her nose and lips had become disfigured. Since the use of D. D. D. her eyebrows are growing, her nose and face have assumed their natural expression."
How many eczema sufferers are paying their doctors for regular treatment and are being treated with this same soothing, healing fluid?
DR. GEO. T. RICHARDSON frankly writes "D. D. D. is superior to anything I have ever found. Soft and soothing, yet a powerful agent."
To do the work, D. D. D. Prescription must be applied according to directions given in the pamphlet around every bottle. Follow these directions—and see!
And it certainly takes away the itch at once—the moment the liquid is applied. The skin is soothed—calmed—so thoroughly refreshed—delightfully cooled.
All druggists of standing have the famous specific as well as the efficient D. D. D. Skin Soap.
But we are so confident of the merits of this prescription that we will refund the purchase price of the first full size bottle if it fails to reach your case. You alone are to judge.
