

The Car That Sells by the Train Load

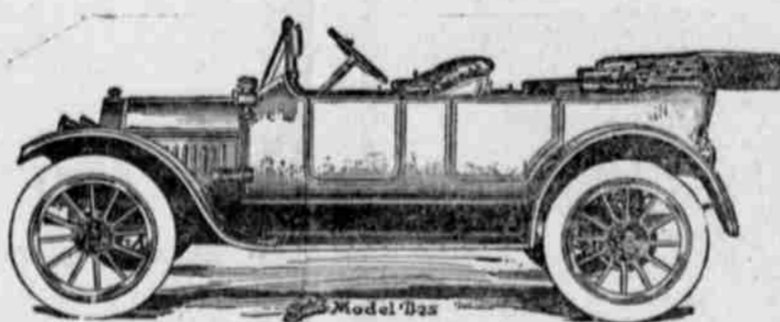

The Buick overhead valve motor is guaranteed to develop more power and to give more mileage per gallon of gasoline than any other motor of its size, either American or foreign.

Every Part Fitted to a Hair's Breadth

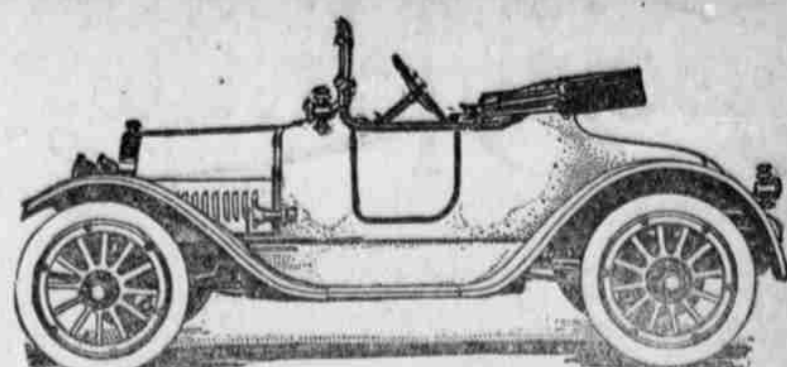

Buick owners take pride in the Buick name plate
It stands for the best in motor cars

Every model in the 1914 line is a wonderfully attractive offer. For \$1080 you can get a nifty, self-started, electric lighted roadster that has the power to go anywhere any car ever went or ever will.

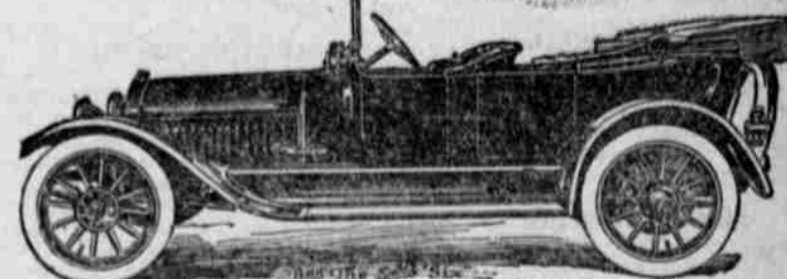

For \$1210 you can get a light touring car that has power, appearance and durability, and is self-started and electric lighted; a car that will take the bumps so you don't mind them a bit.

For \$1400 you can get a long-hooded roadster that has the appearance that will make any man take a second look, and a pick-up and get-away that will show your tall light to anything on the road; electric started and lighted.

For \$1510 you can get a touring car, big and roomy, but light and economical. You'll take more pleasure driving this peppery car than any other four-cylinder car you ever handled.

For \$2160 you can get the Buick Six. It is a rich man's car at a business man's price. It will lead where others can't follow. It will do anything ever expected of any machinery—and more. It is one of the best looking and easiest riding cars you can buy at any price.

Every model is left side drive and center control. Any Buick is the best buy on the 1914 market. Delco self-starters are built into the car

AS TO YOU

Did you give him a lift? He's a brother of man.	Do you know what it means to be losing the fight,
And bearing about all the burden he can.	When a lift just in time might set everything right?
Did you give him a smile? He was downcast cast and blue,	Do you know what it means—just the clasp of a hand,
And the smile would have helped him to battle it through.	When a man's borne about all a man ought to stand?
Did you give him your hand? He was slipping down hill,	Did you ask what it was—why the quivering lip,
And the world, so I fancied, was using him ill.	And the glistening tears down the pale cheek that slip?
Did you give him a word? Did you show him the road	Were you brother of his when the time came to be?
Or did you just let him go on with his load?	Did you offer to help him, or didn't you see?
Did you help him along? He's a sinner like you,	Don't you know it's a part of a brother of man
But the grasp of your hand might have carried him through,	To find what the grief is and help when you can?
Did you bid him good cheer? Just a word and a smile	Did you stop when he asked you to give him a lift,
Were what he most needed that last weary mile.	Or were you so busy you left him to shift?
Do you know what he bore in that burden of cares	Oh, I know what you say may be true
That is every man's load and that sympathy shares?	But the test of your manhood is: What did you do?
Did you try to find out what he needed from you,	Did you reach out a hand? Did you find him the road,
Or did you just leave him to battle it through?	Or did you just let him go by with his load?

COOS COUNTY RANCHERS PLAN FOR DAIRY TESTS

Over 1000 cows have been pledged by the Coos Bay dairymen who will pay \$1.25 per cow per year for the expense of keeping a complete yearly record of the production on each cow. J. L. Smith, the county farm expert, says that he expects to increase this number to at least 1100 cows, which will be enough for two associations, one in the vicinity of Coos Bay and the other in the Coos River territory.

These two associations are to be formally organized Saturday, March 14. The officials who are to be in charge of these associations for one year will arrive from the Oregon Agricultural College the latter part of next week and will take up their duties at once.

Mr. Smith expects to organize two or three more testing associations in Coos County and will return to the Coquille Valley within a few days for the purpose of completing the testing associations which he has already started in that vicinity.

The advantages of cow testing association, he says are:

- 1st. The only proper method of the grading up of dairy herds because it not only shows a record of the production of each cow, but also the cost of production, which is important to know in determining the profitable cow from the unprofitable.
- 2nd. By finding out in this man-

ner exactly what his cows are doing, it enables the dairymen to know the value of the calves produced from his cows and of other calves and cows in the association, which, if offered for sale, will have the association record back of them. This will be a great help to the buyer as well as the seller.

3rd. By this system of culling out the scrubs, the demand for better-bred cattle will be increased in this country, which will mean greater production and better prices.

4th. These dairy association should tend to create more of an interest among the dairymen and will aid them in co-operating for the improvement of the dairy business especially along the lines of breeding and feeding. Will also be the best means of advertising each man's herd and the community as well, and will help to make Coos County famous, especially as a real live and progressive dairy district.

These cow testing associations are to be conducted under the same system as that employed in all leading dairy countries, and there is no reason why it should not give just as good results in Coos County.

The expenses to each dairymen of having the work done by the official on each farm is a very small amount in comparison to the value of the various benefits to be derived.

If there are any who wish to

join who have not already signed up, it will be necessary for them to leave their applications at the Chamber of Commerce for Mr. Smith before Saturday, March 14.

Below is a list of men who have already signed contracts for the expenses of having a complete yearly record kept of each cow in their respective herds.

Coos River—Frank B. Rood, Vernon K. Rood, Frank E. Rogers, Anson O. Rogers, H. E. Bessey, E. L. Bessey, W. G. Bessey, W. H. Smith, J. A. Smith, Alvin Smith, C. L. Smith, R. A. Landrith, Jas. Landrith, J. E. Noah, Jno. Hendrickson, W. B. Piper, Chas. Mahaffey, Fred Brunell, J. Krommings, Hagquist and Grant, Mat Juststrom, J. Clinkenbeard, Wm. Richards, T. A. Freese, Jas. L. Stevens, A. E. Seaman.

Willanch Slough—C. C. Johnson, Victor Stauff, Wm. Lindstrom and Harry W. Walker.

Larson Slough—Julius Larson, Isthmus Slough—Neil Watson, Catching Inlet—Chas. Selander, Fred Selander, O. N. Wilson, W. B. Farris, L. F. Price & Co., H. W. Sanford, Alex. Matson & Sons, J. S. Masters, H. L. Russell, Jno. Mattson, T. M. Collier, A. H. Collier, Wm. Lackstrom, J. M. Cully, F. G. Messerle, Geo. Ross and A. Grunneil.

SCHOOL NOTES

GLEE CLUB TO COME IN APRIL

Willamette University Songsters Arrange for Coos County Trip

The following from the Willamette University Collegian, the college paper, will be of interest on Coos Bay:

Arrangements have been completed for the spring trip of the Glee Club through the maritime towns of the Coos Bay region. Glenn McCadam, manager of the club, returned early this week from his advance trip through that country, having secured engagements in five different towns and enlisted the support of the High Schools in each place.

It is probable that about twenty men will take this trip and, although the club is showing splendid early season form, daily rehearsals will probably be held until the spring vacation.

The Glee Club will embark on the good ship "Breakwater" the afternoon of March 31 for their trip over the calm Pacific to the Marshfield shores.

The schedule for the engagements is as follows:

Marshfield, April 3; North Bend, April 4; Coquille, April 6; Myrtle Point, April 7; Bandon, April 8.

Sunday, April 5, will be spent in Marshfield. Returning, the club will leave Marshfield on Saturday, April 11. To the men this trip will excel all previous voyages in excitement and novelty while to the neighboring shores encountered en route this trip will prove by far the most pleasurable and profitable of all time.

Mac says he had a most delightful trip, among the hearty people of the coast. While there he called upon F. L. Graunns, W. U. '06, who is teaching in Marshfield High School.

The program which is to be presented has not been completely planned. "The Mascot" will be used on the trip, while the sketch for the home concert is yet to be produced.

SOUTH MARSHFIELD SCHOOL

Second Grade

Names of pupils receiving 100 in daily work in spelling: Edith Anderson, Myrtle Johnson, George Scott, Violet Currey, Robert Knox, Edridge Archer, Augustus Hoffman, Josephine Savage, Thomas McHale, Viola Wilson, Elizabeth Mc-

Ginnis, Ira Sweet, Ruth Collins, Eugene Sampson.

Those receiving 100 in the oral contest were: Augustus Hoffman, Paul Johnson, Myrtle Johnson, Robert Knox, Florence Kardall, Josephine Savage, George Scott, Floyd Scott, Harry Walter, John McManamon, Ira Sweet, Lois Bassford. Those who received 100 in the written test were: Augustus Hoffman, Paul Johnson, Florence Kardall, George Scott.

Those who averaged 100 in spelling for the past month: Florence Kardall, George Scott.

The highest grades in arithmetic were, for the past month: Edridge Archer, 97; Robert Knox, 94; Florence Kardall, 92; Thomas McHale, 92.

Pupils receiving 100 in arithmetic the past week were: John Clausen, Violet Currey, Florence Kardall, Josephine Savage, George Scott, Edridge Archer.

Visitors in our room the past week were Mrs. Hildenbrand and Mrs. McClure.

There was a Mothers' Meeting in the first grade room on Friday of last week. There were twenty-six present. The girls of the eighth grade served tea. The meetings will be held once a month through the school year.

Marietta Cox was transferred to the Eastside school as her parents moved there this week.

Those perfect in spelling this week were: Leslie Hulen, Lura James and Hjalte Nerdrum.

Sixth A and B.

These divisions had their monthly program Friday afternoon. The following people took part: Bernice Mirasoul, John Walling, Elwin Johnson, Edith Johnson, Howard McLaughlin and Irene Ouomette.

Irene Ouomette deserves special mention for her splendid composition work.

COOS BAY GIRLS RACE

Misses May Preuss and Signa Holm in Boat Contests at Berkeley.

Miss May Preuss will be of interest, as Signa Holm, who were members of the University of California crews, are graduates of the Marshfield High School.

"The lightweight race for the oarwomen of the University of California, which was ordered re-rowed last Saturday, took place over a laid of a mile course. It was won by the sophomore crew composed of May Preuss and Vera Georson, with Lena Guidery as coxswain.

The results were: Sophomore crew won, May Preuss, bow; Vera Georson, stroke; Lena Guidery, coxswain; senior crew second; Signa Holm, bow; Marguerita Carleton, stroke; Edith Duval, coxswain. Time, 3:40.

The older a man grows the less wisdom he discovers in himself and others.

SATURDAY, MARCH 7.

Social dance given by Improved Order of Redmen at Eagle's Hall. Gents \$1, ladies free.

KEANE STARTS FILM COMPANY

Former Coos Bay Actor Plans to Become Moving Picture Magnate

James Keane, who is well-known on Coos Bay through several appearances here with theatrical troupes and through his relatives who reside here, is now becoming a moving picture magnate. The following from a San Francisco paper tells of his latest move:

The attractiveness of Marin County is not only winning the home buyer and tourist with its woodland and mountain features, but the moving picture man has invaded this inviting country by establishing himself at Fairfax in upper Ross Valley. The plant, costing in the neighborhood of \$30,000, is completed and doing business daily.

Until recently northern California with its wonderful scenery, has played no part in the production of feature films. However, this studio, under the direction of James Keane, will devote its energies to the producing of feature films only, ranging from three to eight reels, according to the importance of the scenario. The studio is one of the most modern and complete in the West. Keane will handle all of his own printing and developing.

The concern, backed by Marin capital, is known as the United Keanograph Film Manufacturing Company, named for James Keane, a former actor who has spent the last three years directing the Selig and the New York moving picture companies. Several acres of land adjoining the studio are owned by the company and it is on these acres that they plan to build homes for the talent employed. According to Keane, they will soon possess a moving picture village.

After months of preparation the company is ready to produce a spectacular play which will make one of the largest feature films ever produced in the United States. The mountain scenery will form the background for many films and Mount Tamalpais will soon be a familiar sight at the movies.

NEW KINDERGARTEN TERM

Mrs. J. R. Heaton will begin a new kindergarten term March 9 in the basement of the Episcopal Church. All games and exercises to be given out of doors. Tuition for the 3 mo., \$10. Lessons from 9 to 11:30 each week day.

STADDEN

ALL KINDS OF PHOTOGRAPHIC WORK, Bromide Enlarging and Kodak Finishing.

Declared the best of their own citizens and as well as to Mexico it.
