SPORT NEWS

The University of Oregon's new athletic field at Eugene, Or., will consist of two football fields, one of which will be used for soccer, three baseball diamonds, tennis court, and a quarter-mile running track with a 320-yard straightaway on one side.

Josephus Daniels, son of Secretary of the Navy Daniels, is a candidate for catcher on the Tome Institute baseball team, at Port Deposit, Mo.

New York promoters have started bidding for the proposed Battling Levinsky-Gunboat Smith bout. Dan Morgan is trying to induce Jim Buckley to let the Gunner tackle Levinsky. As yet nothing definite has been decided upon.

According to Ned Hanlon, the Baltimore Club has already paid out \$32,000 in advance money. None of this was promissory, but every cent given in cash. Hanlon said that, besides the \$32,000 paid out in advance money, the grandstand would cost \$62,000, and the grading \$10,000 more.

Old Tom Sharkey was peeved and petulant that the rumor should have spread abroad that he is a tightwad. The thought of same has caused him considerable fretting and discontent. "How could the public ever get the idea that I am tight?" asks the one-time world beater. "Why, I have given away thousands and thousands of dollars that people never heard of." And as someone has intimated, nor will the public ever know of. Sharkey would do well to publish a list of his charities and put us all hep.

Hughy Jennings evolved a new plan to prevent overexertion at the training camp of the Tigers at Gulfport. He ordered all mits kept in the trunks for three days after the players started training. He figured that this would be a good way to remove the temptation from the young pitchers (and old ones too.) The "swift ones" were noticeable for their absence as long as the catchers had to catch the shoots on the infielder's glove.

The great John L. Sullivan is "doing a monologue" again. John always gets a laugh when he tells a funny story. If the laugh does not come quickly enough he just looks the crowd over and waits for it. John L. Sullivan has some good stories, too.

Clark Griffiths has put his foot down strong and hard and perhaps he has hurt some of the Senators in decreasing that the players wives are barred from the training trip. Some of the "Suffs" will remember this ruling of Griffiths.

The French sports are saying some hard things about the globe-trotting ball players because they failed to play a game in Paris. A few dupes are now in order. The Frenchmen had better refrain from making the missiles snowballs, or a few of them will be picked off by the American sharpshooters.

SHIP EGGS TO UNITED STATES

WASHINGTON, D. C., March 12.

The growing dependence of the United States upon foreign countries for a part of its food supply lends interest to a special statement regarding imports and exports of eggs, prepared by the Bureau of Foreign and Domestic Commerce, Department of Commerce. Imports of eggs in the month of December last amounted to 1,514,296 dozens, or more than in the entire fiscal year which ended with June, 1913. In the fiscal year, 1903, the imports amounted to 368,000 dozens; in 1910, 818,000; in 1913, 1,367,000 dozens, and in the first three months under the new tariff law—October, November and December last—during which period eggs were admitted free of duty, the imports aggregated 1,701,153 dozens, most of them arriving in the month of December. Recent consular advices from China and European ports indicate continued large increases in the shipments of eggs to this country.

Eggs other than those in the natural condition are still subject to duty, though at reduced rates, and these show increasing imports in the brief period for which the monthly figures are at hand. Frozen or preserved eggs, the duty on which is now two cents per pound, compared with five cents a dozen under the former tariff, show for the last three months of 1913 a total importation of about 1,000,000 dozens, valued at approximately \$115,000. Egg yolks, now dutiable at ten per cent ad valorem, instead of 25 per cent, as under the old law, aggregated about 200,000 pounds, and dried eggs, 8,534 pounds for the three months ended with December. In each case the imports were considerably larger than those for the corresponding period of 1912.

The countries contributing the eggs imported into the United States are few in number. Our imported eggs are chiefly the product of China, Siberia, Russia and Southern Europe, those arriving from England and Germany having been for the most part shipped into these countries for re-sale to foreign markets. Of eggs imported in the natural state, England is the chief nominal source, next in order being China (including Hongkong) and Canada. Frozen eggs are chiefly from England, with smaller quantities from Hongkong. Egg yolks come almost exclusively from Germany, which imports large quantities of eggs from the producing centers of Europe and Asia and re-exports them in this form to the United States and other parts of the world.

Most of the imported eggs enter through the ports of New York, Philadelphia, Boston, San Francisco, Baltimore, Milwaukee, Seattle, Tacoma and Portland, Oregon. Hawaii also receives considerable quantities of frozen or preserved eggs from Hongkong, an important distributing point for Chinese products.

Exports of eggs during the year ended with December, 1913, amounted to 17 2-3 million dozens, compared with practically 19 million in 1912, 5 2-3 million in 1910 and 1 1-2 million in 1903, a decade ago. While exports of eggs are still much greater than imports, the closing months of the year showed a distinctly downward tendency in exports and an upward trend in imports of that commodity.

WAR IN NEW YORK.

Which Trust? Doctors at High Prices or Druggists' Services Free?

NEW YORK, March 12.—A bitter war between the County Medical Society and 400 drug stores in this city began when Morris Lederman, head of the Standard Pharmacy Co., was arrested charged with "advertising the services of a physician." An agent of the society told the magistrate that she had requested a medical examination, and had been referred to a doctor in the rear of the drug store; and was instructed by him to pay the company's cashier as she left. Four hundred druggists have hired doctors to prescribe for customers. This is the first onslaught by the doctors.

EXEMPTIONS GRANTED TO EIGHTH-GRADE PUPILS

SALEM, Or., March 12.—Pupils who have attained the age of fourteen years, and who have taken the regular eight years of the elementary school, and spent at least 450 days in attendance at any public school in the state during the sixth, seventh and eighth grades with an average department of 85 per cent, may hereafter be excused from examination in any subject in which they have made an average of 90 per cent, according to a rule announced by State Superintendent Churchill. In addition to exemptions from examinations in geography and physiology which may be granted in the seventh and sixth grades upon fulfillment of similar conditions, he has also announced that pupils who have reached the age of eighteen years, may, at the discretion of the School Board, be admitted to any high school without having passed the eighth grade examinations, and receive after earning three semester credits, a diploma.

SPECIAL "HEALTH WARNING" FOR MARCH

March is a trying month for the very young and for elderly people. Croup, bronchial colds, la grippe and pneumonia are to be feared and avoided. Foley's Honey and Tar is a great family medicine that will quickly stop a cough, check the progress of a cold and relieve inflamed and congested air passages. It is safe, pure and always reliable. Owl Prescription Pharmacy, Frank D. Cohan, Opposite Chandler Hotel, Phone 74, Central Avenue Drug Store, local agency.

TAKE SALTS TO FLUSH KIDNEYS

Eat Less Meat If You Feel Back-
ache or Bladder Troubles You—
Salts is Fine For Kidneys.

Meat forms uric acid which ex-
cites and overworks the kidneys in
their efforts to filter it from the
system. Regular eaters of meat
must flush the kidneys occasionally.
You must relieve them like you re-
lieve your bowels; removing all the
acids, waste and poison, else you
feel a dull misery in the kidney re-
gion, sharp pains in the back, or
sick headache, dizziness, your stom-
ach sour, tongue is coated and when
the weather is bad you have rheu-
matic twinges. The urine is cloudy,
full of sediment; the channels often
get irritated, obliging you to get
up two or three times during the
night.

To neutralize these irritating acids
and flush off the body's urinous
waste, get about four ounces of Jad
Salts from any pharmacy; take a
tablespoonful in a glass of water
before breakfast for a few days and
bladder disorders disappear. This
famous salts is made from the acid
of grapes and lemon juice, combined
with lithia, and has been used for
generations to clean and stimulate
sluggish kidneys and stop bladder
irritation. Jad Salts is inexpensive,
harmless and makes a delightful
effervescent lithia-water drink which
millions of men and women take
now and then, thus avoiding serious
kidney and bladder diseases.
