MARSHFIELD CATHOLICS ARRANGE TO BUILD \$25,000 EDIFICE

Adopt Plans for Reinforced Concrete Structure on South Sixth.

EXPECT TO START WORK EARLY IN MAY Committee Today Arranged to Go Ahead—B. B. Ostlund Wins Contest.

At a meeting today, B. B. Ostlund's plans for the new Catholic church in Marshfield were adopted by a special committee of St. Monica's congregation.

The plans for the church were selected from several sketches prepared by the competing architects. It was a decided victory for Mr. Ostlund.

The plans call for one of the most complete and handsome edifices to be found in the smaller towns of Oregon.

Detailed Description. The new church is to be of the perpendicular Gothic style of architecture and of reinforced concrete construction with timber roof and spires.

The ground dimensions of the edifice will be about 60x120 feet. The main spire will be 120 high, that is from the ground to the top of the cross.

The main entrance will be on Sixth street and will open into a hall about 10x28. On either side of the main entrance is a tower entrance, each about 14x14.

From each of these entrances is a direct entrance to the nave which is about 50x80. The altar railing extends across the front of the nave and three steps lead to the Sanctuary floor.

A special convenience is a fire proof vault built in the working sacristy for keeping the church records. Under the Sanctuary is a basement about 20x46 for heating plant, etc.

In addition to the main floor there is a choir balcony with a seating capacity of about eighty, including the choir which will be located there.

Under the Sanctuary is a basement about 20x46 for heating plant, etc. A vacuum vapor steam heating system will be installed.

PLAN TO MOVE LIFE SAVERS

Capt. Cantwell Expected to Report Urging Charleston Location.

Capt. John C. Cantwell of the U. S. Revenue Service arrived here on the Nann Smith yesterday on an inspection tour of the life saving stations in this vicinity and especially to make a final report on the proposed removal of the Coos Bay Life Saving Station to Charleston.

Mr. Cantwell intimated that his report would be in favor of the removal of the station at the earliest possible time and in fact would urge it. He went over the situation with Capt. Britt yesterday and saw the advantages that would accrue from the Charleston location making the service of the life savers better and enabling them to respond more promptly.

Capt. Cantwell was somewhat familiar with this section having formerly been on the Revenue cutter Corwin.

Last evening he conferred with C. R. Peck, Henry Sengstacken, J. Albert Matson and others concerning the matter. He left this morning to inspect

ROB HOME ON SOUTH FIFTH

Burglars Loot Patrick Hennessey's House During the Family's Absence.

HOUSE ENTERED. Last evening someone entered the home of Gordon Smith, engineer of the fire department but so far as could be ascertained did not take anything. They disturbed things pretty generally. Rolla Barry was in the house at the time but did not see the intruder.

Sometime between Wednesday and Saturday unknown parties broke into the Patrick Hennessey home on South Fifth street, south of Hall, and looted it of considerable stuff including clothing, a gold watch and other articles totalling upwards of \$150 in value.

Mr. and Mrs. Hennessey spend part of the time at Henryville where Mr. Hennessey is superintendent of the Smith-Powers-Hennessey mine and left home last Wednesday after locking the house. The robbery was discovered on their return here Saturday to spend Sunday.

Entrance was effected by prying open one of the rear windows. The burglars evidently took their time as they broke into trunks, ransacked drawers and made a most thorough search of the house.

Among the articles taken was a suit of clothes, practically new, belonging to Mr. Hennessey, two or three pairs of trousers, a suit of clothes belonging to one of Mr. Hennessey's sons, a gold watch of Mr. Hennessey's, and a watch hanging on the wall and that was hanging on the wall and had been slightly damaged and the stem had been taken out but the missing stem did not prevent the burglar taking the balance of the watch.

LONDON, March 23.—A much easier feeling was created in the British Isles by the reassuring statement given out by Premier Asquith to the effect that the troop movements in Ulster had been ordered only as a precautionary movement for the protection of Government property.

Now Blame General. In some quarters there was inclination to believe General Paget, commander-in-chief in Ireland, had placed a much graver interpretation on the government's inquiries as to the feelings of the army officers in the Irish garrisons than was intended.

BERMEJILLO, Mex., Constitutional Filed Base, Mex. 23.—Marked by sharp brushes with the enemy, General Villa's spectacular march against Torreon, which began last Friday, was nearing the end to suburban towns remained between the army of 12,000 and the actual siege of Torreon.

Officers from the front returned today and reported that the defenses were elaborate and laid out according to the latest approved methods, so that troops may move from trench to trench without exposing themselves. Fresh earth marked the lurking places of the Federal's big guns. The rebel troops continued to pour into this city from the north. Villa is confident that only a few hours and little fighting will pass before the army will be investing Torreon proper.

The skirmishes in which the rebels have already engaged in have been like play. They have delighted in the fantastic cavalry charges against the Federal outposts and have swept all before them.

SEEK GREEK ON FRAUD CHARGE

A warrant was issued today by Justice Pennock for the arrest of Basil Bey, Alias Tiffin Bey, on complaint of Alayan Ison, who alleges that he was defrauded of 120.00 by the culprit who came here two months ago.

He came to Marshfield two months ago, and went to Ison telling a tale of hardluck and asking that he be advanced some money until such time as he could find legitimate employment. Ison listened to his fellow countryman and loaned him considerable money, also providing a place of rest for Bey.

He rounded up a gang of illiterate greeks and took them out to logging camps at Myrtle Point, arranging to secure the salaries of the gang. He acted honestly for a time and after obtaining the confidence of the gang, had one sign a pay check over to him for \$52.00 telling that when he had cashed the check at the Myrtle Point Bank he would return to the camp. The gang at the camp waited for the \$52.00 but in vain. The next news heard was of his name in the Redondo passenger list for San Francisco.

The Greeks appealed to Ison who conducts a coffee house on North Front street, and Ison coupled the charge with his own and swore to the warrant for the arrest of the "Educator" Bey.
