He was arrested by Marshal Carter, at first denying his guilt and afterwards admitting that he stole the overcoat. with Marshfield about the matter within the next few days. A few present at the meeting favored Bandon being ruled out of the League, for the reason that it was too big a jump, and on account of the action of Bandon last year over the division of the proceeds. The matter of allowing Bandon in the league was left up to t'e committee. It is believed that the committee favors Bandon and will consider them favorably at the meeting.

Arrangements will be made by the tees for a meeting of the league during the coming week, at which time definite arrangements will be made regarding the two important ques-tions on which most of the baseball talk will binge, that of imported players and the Bandon team.

The North Bend aggregation went on record as neutral in the matter of imported players, and it is believed that they will a see teams to hire as many outs'do strains. as they wish.

As to the matter of a strictly 'home guard' team, it seems to be the impression thet it would be better to have them so, but Coquille will not stand out on that proposition, and if the representatives when they meet decide to allow one or two imported players Coquille will endeavor to have as good as the best.
