HUERTA APOLOGIZES FOR TROUBLE

train

Naval Crew Landing for Gasoline, Taken Prisoners

For Few Minutes

[By Associated Press to Cons Bay Times.] WASHINGTON, D. C., April 11 .--Another crisis in the Mexican situation, this time over the arrest of Am-erican marines at Tampico, apparently has passed over with the prompt release of the men and an apology by Huerta, who promised punishment for any Federal officer found guilty of the offense. The state department summarized Charge d' Affaires O'-Shaughnessy's representations and Huerta's action in this statement:

"The American charge d'affaires represented to the American foreign office the extreme seriousness of the situation growing out of the detention of United States marines by the Mexican Federals at Tampico. A per-sonal explanation of its gravity was made by O'Shaughnessy to Huerta himself, who stated 'That in view of the fact that O'Shaughnessy had heard that a whale boat in which the American sailors were taken was flying the American flag, an investiga-tion will be made to establish the responsibility of Colonel Hinojosa and that if an investigation should develop a great responsibility on the part of Hinojosa, a penalty would be imposed.' Huerta also stated that his government deplores what occurred yesterday, having grown out of nothing more than a misunderstanding of a subordinate officer. His saper-lor officer at once proceeded to point, al and he imposed on Hinojosa dis-ciplinary pun'shment within the authority of General Zaragoza.

The arrest occurred when the unermed merines landed to obtain cascline. They were arrested and marched up the street. They were oline, They were released on demand of Rear Admiral Mayo, who also demanded that the Mexican commander salute the American Cag within twenty-four hours as an apology.

Cost of Building. A building at the Panama Pacific Exposition, including the exhibit, would not cost over \$15,000, and would be larger than many county

ent time. Should the plans of the county work out for the Coos County building, it will be designed by Coos County architects, built of Coos County wood, erected by Coos Coun-ty contractors, and a Coos County exhibit to be installed. The build-ing will be situated between two stat: buildings, and will contain novelties from all over the county. The lumber, it is calculated, will

pense to a minimum.

Name of Building. "It doesn't matter to me whether they call this building the Coos Bay or Coos County County building." said L. J. Simpson. "We cannot boost one part of the county with-out benefitting the other. No one will buy property bn Coos Bay until they have visited Coquille, Bandon, Myrtle Point, and for the same rea-son, no one will buy in the vailey without visiting Coos Bay. Person-ally, I have no feeling in the matter. I believe we should all get together and boost the whole county. My one reason for suggesting a Coos Bay building was that we will be crowded among many other county buildings at the fair and the idea of a bay being the slogan displayed

on a building would attract atten-tion, but if the representatives from the other communities think this is

not a wise move, I will not oppose them. I will support them. I want to see the whole county built and not one corner, and for this reason I would like to see the building styled in any manner that will of most benefit to the entire
