## COUNTY MEET ABOUT EXHIBIT

(Continued from Page One.)

Pacific Exposition in the year 1915. Many of these people will settle here, and the question of location will be largely influenced by the showing made by the respective localities at the fair. Are we going to see this opportunity, which will never come again, pass by? I think not. The question is to decide definitely this evening, whether this building is worth the energy and effort which we will have to devote towards it."

Mr. Simpson's talk was very warmly received and offset the wrongful impression that had been gathered, that the people of the Valley would not be represented at the fair.

Following Mr. Simpson's talk, A. H. Powers was called on to give his views regarding the matter. Mr. Powers stated that he would like to see a building at the fair and with such men as Mr. Simpson and C. A. Smith behind a proposition it could not fail. Mr. Powers suggested in a humorous strain that the building be called the "Smith & Simpson" building.

Charles I. Reigard inquired of Mr. Simpson as to the entire approximate cost of the building, and was answered by Mr. Simpson's statement that the entire cost of building and exhibit would not exceed \$15,000.

Mr. Dem nt, a member of the County Court, was asked to make a few remarks in which he stated that the entire county was for a movement toward a building at the Panama Exposition and agreed with Mr. Simpson that it did not matter what the name of the building be as long as we boost the county.

Mr. Dement said that the County Court was allowed to set aside \$1000 a year for advertising, but could not appropriate any more than this amount in a single year. This would mean the appropriation of about \$2000 from the county, according to the speaker, for the years 1914 and 1915.

"But how many years can we go back?" asked Fensstacken. "Leave it to Henry," said Chairman McLain. "He'll find a way around the difficulties."

P. M. Hall-Lewis made a short talk on the products of the county imported and exported estimating that \$444,000 worth of outside products were sent into the county in the year 1910 and 1911, figuring that all products could be raised within the county that had been imported. Mr. Lewis said that the county needed good farmers and advertising was one of the means of bringing them here. He strongly advocated the exhibit at the exposition in 1915 in a Coos County building.

"I don't know that I have any

special right to speak at this time" said W. A. Reid, "but I think this is a golden opportunity that presents itself at this time, to advertise Coos County and Coos Bay. This opportunity will never come again. We are entering upon an era of great things on the Pacific Coast and with the opening of the Panama Canal, Coos Bay will be in store for great things if the proper methods are used."  
Mr. Reid advocated that the great bugaboo of cost of the building should not be considered and suggested that everyone in the county should contribute \$1.00 toward the Coos County building at least, and

In this way no trouble would be evidenced raising the money. Attorney Powell, of North Bend, made a very valuable suggestion regarding the sale of the building at the expiration of the exposition. It was not very well received, but it is a known fact that the wrecking companies in San Francisco paid large sums for the buildings left by the merchants on Fillmore street after the fire of 1906 when they migrated to Market street. The buildings will be sold to the wrecking companies and if the building and exhibit cost \$15,000 it could be sold for at least \$10,000 at the expiration of the fair.
