## Coquille Commercial Club Proposes to Develop It-Dif-erent Views of Value.

The Coquille Sentinel says that at the last meeting of the Commercial Club the discussion was chiefly directed to ways and means for securrected to ways and means for secur-ing purchasers for our logged-off lands who would make farms and gardens where the ground is now cumbered with stumps and rubbish. R. S. Knowlton said that Al Pow-ers, of the Smith-Powers Logging company, had told him that they would sell their logged-off lands at from \$5 to \$10 an acre and sur-

would sell their logged-off lands at from \$5 to \$10 an acre and sug-gested that take the matter up with the State Immigration Commission and see if men could be got to come in here and buy these lands and clear them, it being understood that easy terms of payment would be given them. given them.

J. W. Leneve said that when in the real estate business he was frequently asked as to the chances of getting 5000 or 10,000 acres of land by men who were trying to find homes for a colony. The next ques-tion then always was, what land can you get, how much of it and on what terms,

This led Mr. Knowlton to remark that the sale of the logged-off lands ought to be kept out of the hands of the real estate men who always expected 100 per cent rakeoff; but that in this case we ought to cut that out and give the benefit to the fellow who is digging the stumps. He suggosled that the railroads which were interested in getting the country set-tled might handle the proposition, and thought it ought to be easy to colonize those lands if the price was not more than \$10 an acre. But the colonists would have to be from Europe, preferably from the Scandi-navian countries, to make the plan a success. The Americans had been having too easy a time of it and were not inured to hard work in a way to expect them to tackle such a

proposition successfully. Agents ought to be sent to Europe to secure colonists, and these people really made the best citizens. Professor Howard said his under-

standing was that the Southern Pacifie would put forth every effort to colonize these lands.

R. H. Mast said it made him smile to talk of selling off these lands for \$5 to \$10 an acre as if it were a great concession. The lumber companies would then be getting as much as they paid for them when covered with a fine growth of tim-

Rev. R. G. Summerlin delivered a fine temperance lecture Thursday evening, to a house full of interested listeners, It was the best talk we ever heard him make, full of force, and logic and on a good subject, "Statewide Prohibition."

ALLEGANY PTEMS

E. C. Barhu took several loads of supplies up to Gould's camp last week

Mr. Stull has nearly completed his plans and road work will soon hegin. Mrs. Wilson will be employed as cook in the road camp.

Bert Gray brought a horse up from North Bend last week which was sold to Mr. Price.

A number of people of this community enjoyed a fine time at the home of N. E. Daggett who gave a social dance Saturday evening. The affair was a complete success in every way and the guests enjoyed a time they won't soon forget. The music was furnished by the String Band two vio. lins and plano with the usual swing and go. And the suppor-what shall we say? we cannot do the subject justice, but it surely did credit to the culinary skill of the hostess. There was first and most essential good coffee, cake of every kind and description, ples, sandwiches, roast chicken, and last but not least, ice cream in abundance. Some of the guests went home rather early but most of them staid till they could see to drive The neighbors all unite in thanks for the entertainment and live in hopes of another.

## AN EARLY MORNING HIKE.

At the M. W. A. social a week ago Harry Tozler and Dane Hudson made a bet as to the gain in members made by the camp and Harry lost. The loser was to walk to Myrtle Point ght miles away-that same night but Harry was game, and started at one o'clock. When the party broke he called up Dane from the Myrtle Point telephone office two or three hours later as an evidence of Good falth .--- Coquille Sentinel.

#### 'ort Orford Paper Does Not Agree With Version of Rustler Crew.

CAPTAIN IS BLAMED.

The Port Orford Tribune says: The report published in the Coos Bay Times, and which has since been going the rounds of the press, concer uing the reason why the Rustler failed to land all her cargo at Port Orford last week is misleading. While it is true that the process of unoading by small boats, which had een necessary since the wharf went lown, is slow, nevertheless, the Capt. of the Rustler, and not the weather local conditions, is to blame for taking part of his much needed car-

to back to Coos Bay. The boat came into port Sunday noon, and local men wanted to commence unloading immediately, but the Captain put the work off until Monday morning, About noon on the latter day the south wind caused the Rustler to pull out, but it is not true that any long-shoremen were landed with difficulty as the bay was not so rough but that the home boys wanted to keep on unloading the boat, and the Rustler had little more than shown her beels in a get away before the wind lulled and in a few hours the bay was as smooth as the proverbial mill pond.

#### if Your Back Hurts or Bladder is troubling you.

says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all WASHINGTON AVENUE standards beadaches liver trouble. STADDEN STREET nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kindeys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding sertous kidney complications.
