Of heavy Scotch plaid silk is this
slip on, which, with the washable
guimpe, makes a different dress possi-
ble on all occasions. The loose velvet
belt is made slip-through fashion.

Freckles

Don't Hide Them With a Veil; Re-
move Them With The Othine
Prescription.

This prescription for the removal
of freckles was written by a promi-
nent physician and is usually so suc-
cessful in removing freckles and giv-
ing a clear beautiful complexion
that it is sold by druggists under
guarantee to refund the money if it
fails.

Don't hide your freckles under a
veil; get an ounce of othine and re-
move them. Even the first few applica-
tions should show a wonderful im-
provement, some of the lighter freck-
les vanish entirely.
Be sure to ask the druggist for the
double strength othine; it is this that
is sold on the money-back guaran-
tee.

WORKS GRAFT ON REGISTRARS

M. G. Sperry Arrested Today After Working Justice Pen- nock and Tom Hall.

M. G. Sperry was arrested by
Marshal Carter today on the charge
of drunkenness. He had about \$2
in his pocket.

In this connection a novel story is
told about Sperry. He went up be-
fore Justice Pennock and registered
for the election. Soon afterward he
returned and borrowed fifty cents
to be returned next morning. How-
ever, he came back, but only to
ask for \$1.50 more. He did not get
it.

The same day he went before Tom
Hall and registered and borrowed
fifty cents. How many more he
"touched" is not known.

The registrars get only ten cents
apiece for registering voters so
Messrs. Pennock and Tom Hall are
out forty cents apiece, or rather one
of them is out fifty cents, because
the double registration won't be ac-
cepted.

Sperry says he is a plumber.

JUSTICE COURT CASES

Action was brought by the Com-
mercial Importing company against
Charles Heisner, on Wednesday, for
\$40.90, and an order was issued by
Justice Pennock, on application of
Edward Joehn, garnishing all money
belonging to Heisner, which he had
on deposit at the Bank of Oregon at
North Bend. The papers were serv-
ed by Constable Cox and he received
only \$12.90, being all the funds that
were on hand at the bank credited to
Heisner's account.

A suit was instituted by the Marsh-
field Hardware Company against A.
G. Raab of North Bend on Wednes-
day for a small amount. Mr. Raab
was served with the papers and
agreed to settle the account without
any court action, explaining that it
was an oversight on his part.

WHY FARMERS SHOULD ADVER- TISE IN THE NEWSPAPERS.

In the current issue of Farm and
Fireside, the national farm paper
published at Springfield, Ohio, J.
M. Taylor writes a valuable and in-
teresting article telling farmers how
to get to the market with their
goods. Mr. Taylor goes on, as fol-
lows, to show how farmers can use
the newspapers:

"The cities are full of people
who want to buy their goods direct,
the country is full of farmers who
would gladly sell direct for the sake
of the additional profits to be gain-
ed by that mode of selling. All
that remains is for them to get to-
gether.

"There is no need of an exten-
sive advertising campaign. All that
is necessary is a small display ad-
vertisement in the newspapers of
the nearest city. And in writing the
ad the farmer should not be bashful
about having his name easily seen.
Let him advertise Smith's pota-
toes, or Smith's cabbages, or what-
ever Smith has to sell. Do it in a
manner that will leave the impres-
sion that Smith is proud of his cab-
bages, that he knows them to be up
to standard and that he personally
stands back of them. People will
more readily buy of a man when he
stamps his name on his goods in
a manner that shows that he is not
afraid to be known as their spon-
sor. Furthermore, it is good busi-
ness, for if people buy Smith's cab-
bages this year and find them good
they will clamor for Smith's cab-
bages next year and be satisfied
with no other."

FOREST NOTES.

The Canadian government is us-
ing Indian fire patrolmen to protect
the forests of northern Manitoba.

A Pennsylvania gun company is us-
ing the waste pieces of black and
Circassian walnut, left after veneer
cutting, for gun stocks.

Ghent, Belgium, furnishes practi-
cally all of the potted specimens of
the symmetrical Araucaria, or Nor-
folk Island pine, used as an ornamen-
tal foliage house-plant, in Europe and
America. The United States imports
at least 250,000 of these plants in 5
or 6-inch pots each year.

Arrangements have just been made
for the sale of 49 million feet of tim-
ber on the Tongass national forest
in Alaska. This forest is cut up by
bays and inlets, some of which give
an opportunity for taking the timber
from the mill to the decks of ocean-
going steamers. The Tongass forest
is now self supporting, its lumber pro-
duct being used largely in local indus-
tries, much going into boxes for can-
ned salmon.

California state inspectors at San
Francisco have found a new canker
disease on chestnut trees recently
imported from Japan according to Dr.
Haven Metcalf, the government's ex-
pert on such diseases, this appears to
be of the same type as the chestnut
blight which is ravaging the forests
of the eastern United States, and it
is possible that the new disease would
be equally as destructive if it became
established in this country.

Imaginary Heart Trouble.

Do you have pains in the region of
the heart? Does your heart thump?
Its terrible pounding alarms you?
What is wrong? Do you believe
these symptoms mean heart trouble?
Organic diseases of the heart very
seldom occasion much pain. Nearly
all of these pains are caused by
some derangement of the stomach.
Meritol Tonic Digestive is especially
recommended for indigestion and
dyspepsia, and for restoring the stom-
ach to its normal functions and—no
more "heart disease." Owl Pres-
cription Pharmacy, Frank D. Cohan,

PLAN TO HAVE TWO BIG DAYS

Chamber of Commerce Is Ar- ranging for Observation of July Fourth Here.

A two-day celebration in Marsh-
field to cost \$2,000 is the plan out-
lined by a meeting of the Marshfield
Chamber of Commerce Executive
Committee for the observance of the
Fourth of July. Before making any
definite arrangements about it, they
decided to send out a subscription
committee and see about securing the
funds. Geo. Rotner, Dr. Straw and
A. J. Mendel were appointed to raise
the money.

It is proposed to have the Marsh-
field saloons contribute liberally to
the fund for the celebration as it is
claimed that they will probably re-
ceive more direct returns from the
celebration than anyone else. It was
suggested that not less than \$50 be
asked from each of the fifteen salo-
ons in business in Marshfield.

Some also favor hiring a carnival
company to come in and put on a
show to fill out the program. The
celebration will be Friday and Satur-
day, July 3 and 4.

THE KEEPER OF THE LIGHTS

IT MIGHT seem as if the govern-
ment would have to depend for its
lighthouse keepers upon the men
who have seen so much of the world
that the taste of it is flat upon their
lips, or upon that class which has
found mankind wearisome and hate-
ful and wholly untruthful.

Yet so far Uncle Sam has not had
to draw upon these sources in order
to keep his lamps burning brightly.
Perhaps he holds them in reserve,
against the time when members of
the life-saving crews do not turn to
the service for a change of jobs, or
when professional fishermen or the
offspring of lighthouse keepers, do
not apply. Anyway there is no fami-
line. Men are found and apparent-
ly they do not have to be begged.
Which bears out the saying that there
is nothing in this world that has to
be done that men cannot be persuaded
to do it.

The two chief requirements of the
lighthouse keepers are faithfulness
and a certain amount of immunity to
dullness. The keepers routine is sim-
ple enough, but it is fearfully lack-
ing in variety. It is difficult for him
to change the order of his duties in a
way that will provide him with the
artisan's zest. The work, as it goes,
is light-meaning no pun-but it gets
nowhere beyond bearing the strict
orders of the service. Save in a few
fortunate instances, the lighthouses
are in lonely isolated places. There
is the weather to watch and the boats
that go by and that is about all in
the way of entertainment outside
the books and magazines and the
occasional coming of the tender. One
can imagine a keeper so lonely that
he is thankful when a steamer comes
along and smother him in smoke.

Slaves to salaries—the keepers
have been called. Yet without doubt
there are some who are happy slaves.

\$160,000,000 SPENT FOR GOOD ROADS IN 1913.

Farm and Fireside says:

"The good-roads movement has re-
sulted in the expenditure of a greater
amount of money on the roads in the
last year than ever before. In 1904
the total sum expended on public
roads in the United States was about
\$80,000,000. In 1912 it was more
than \$160,000,000. The greatest
progress in road-building has been
made in states in which a part or all
of the money is drawn from the state
treasuries. The great problem from
now on is to see that the money is
wisely expended, without waste and
without graft."

BERTHA M. CLAY.

Poor Bertha's gone to glory, she
died a month ago; no more she'll
write the story of heartache, love
and woe, the story sweet and tender
of maids and wedding rings; for
now in realms of splendor, she's try-
ing out her wings. I thought she
was a maiden with old-style cork-
screw curls, with beads and earrings
laden, like other ancient girls; but
now the truth is printed since Ber-
tha home was called; her nose was
crimson tinted, and she was slight-
ly bald! Upon her face and body
high life had left its scars, for Ber-
tha liked her toddy and Bertha
smoked cigars! On earth no human
gazer beheld her in a gown, she
used a safety razor to keep her
whiskers down. With other mild
carousers she liked a quiet game,
and Bertha's chums wore trousers
and Bertha did the same. This
novelist of promise pursued deceitful
plan; her given name was Thomas
—and Bertha was a man! With
this fact as a starter we will not
show surprise on learning that Nick
Carter is grandma in disguise!—
