Style, Fit, Quality, Price

What's the determining factor in your Clothes buying?
STYLE is important, it is or should be a true reflection of your character.
FIT is vital, if perfect it insures a proper personal appearance.
QUALITY should be considered from but one level—100 per cent if it's less Style and Fit will avail nothing.
PRICE rests largely with the size of your income yet no one in justice to their best interests should pay too much for their clothes.
 In our estimation **KUPPENHEIMER CLOTHES** are supreme in Style and Fit. Their quality throughout is uniformly superior and under our better clothes selling methods you are assured of greater value in these clothes at any of our prices than it is possible for you to secure elsewhere.

\$18, \$20, \$22.50, \$25, \$27.50, \$30
 Not more than you should pay but as little as such good clothes can be sold for.

Others \$8.50 to \$18.00
