

JUST A LITTLE WHILE

By Anton F. Klinkner

A little time is all life has to offer
In which to do our little deeds.
A little time is all we have to work for
The little bread our body needs.

A little while is all we have for pleasure
To gather roses e're the petals fall—
A little time in which to get ready
To answer to our Father's call.

A little while is all we can be busy
In doing what we ought to do—
A little while is all we have to worry—
Just a little while and then we're through.

A little while is all we have to love in
To love the good world God has made—
A little world is all we have for sunshine,
Just a little while is all we have for shade.

A little while is all we have to wander
Up and down this vale of tears,
Just a little while and then the curtain
Goes down upon our hopes and fears.

A little while is all we have to labor,
A little while is all we have to wait
A little while is all we have to journey—
Just a little while and then we're at the gate!

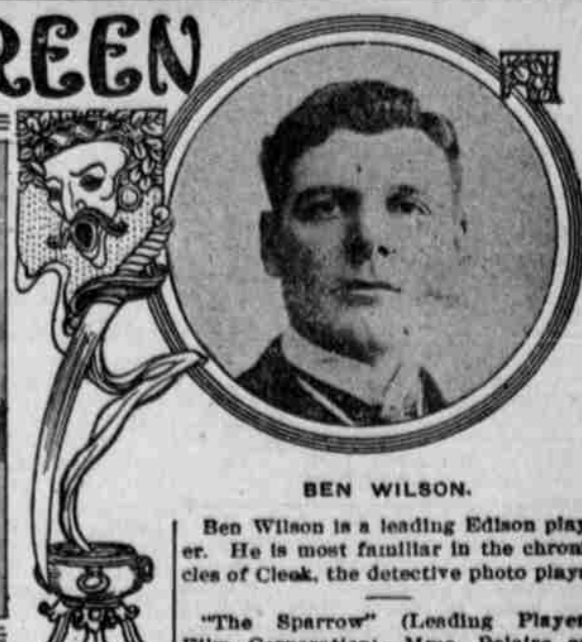

A little while is all we have for passion,
A little while is all we have for pain.
A little while to pray and plant,
Just a little while to gather in the grain.

A little while is all we have for loving,
A little while to live and meet the test,
Just a little while and then it's over—
"Home, Sweet Home," Eternal rest!

LIFE on the SCREEN

"THE MYSTERIOUS SHOT."

BEN WILSON.

Ben Wilson is a leading Edison player. He is most familiar in the chronicles of Cleek, the detective photo play.

"The Sparrow" (Leading Players Film Corporation)—Mme. Polaire assumes the leading role in this three reel Eclair production. She has the reputation of being the ugliest actress, if not indeed the ugliest woman, in France.

"Life of 'Big Tim' Sullivan" (Gotham)—It is doubtful if any politician was more loved than "Big Tim" Sullivan was among his following. His many charities to the poor and needy are still spoken of in his district. That he was a politician was, after all, merely incidental in the opinion of his friends, the poor.

"Seven Days" (Klaw & Erlanger)—This is one of the first farce comedies to be produced by Klaw & Erlanger, and if the rest are as good their success is assured. All the action takes place in one house, but the scenes are very elaborate. The burglar is no doubt the funniest character.

A NEW mystery film, which grips the interest from start to finish, is "The Mysterious Shot." This is a Reliance production.

The Vitagraph company is preparing to make a six reel feature production of Cleveland Moffat's detective story, "Through the Wall."

The Gold Seal single reeler, "In the Blood," will mark the first appearance of Eugene Ormonde on the screen after two decades of footlight experience with Mrs. Fiske, Margaret Anglin, Blanche Bates and other stars.

"Charlotte Corday" (Kennedy) is a sensational drama of the French revolution in four reels. The personal relationship that existed between Charlotte Corday and Marat, the fiend of the strife, is clearly expounded.

Pathe releases on April 20 through the General Film company's special feature department a four reel production which bears the name of "The Treasure of Abdar Rahman." There is no love story in the film. The out of door scenes were taken in Morocco and show the quaint architecture of an old Moorish town and the burning sands of the desert.

"The Spy" (Universal Special Features)—One by one all the world's greatest novels and plays are being produced for the screen, and this four part special feature, based on J. Fenimore Cooper's famous work of the same name, which has just been completed by the Universal, will be an addition to this list which will be welcomed by many.

FINISH CLASS GOWNS

Oakland High School Graduates Will Have Sane Costumes

OAKLAND, Cal., April 30.—The Oakland school board will buy gowns for all the girls who are graduated from the Fremont High School this year. The gowns will be the property of the school board and will be used for next year's graduating class, and the class following, till it becomes necessary to buy new gowns.

To economize further, the girls will make the gowns. The school board will merely buy the cloth, buttons, hooks and eyes and thread and whatever ornaments go on the gowns. The girls will furnish the needles, thimbles and fingers to sew.

Harry W. Bridgman, purchasing agent of the Oakland School Board, will act as head dressmaker. He will purchase the materials and measure off the cloth, according to the size of the girl graduates. It has not been decided what style of gowns to use, except that they will have long sleeves, so that the use of long white gloves will not be necessary.

The Oakland school board authorized Bridgman to buy the material for dresses on the motion of Mrs. Anna Florence Brown, school director, who has been waging a fight for years to eliminate costly graduating gowns, and to have "a sane, simple, modest and economical garment" adopted for the graduates.

TO KNOCK OUT JOHN D'S BOARD

Senator Kenyon Would Cancel Rockefeller's General Education Foundation.

(By Associated Press to Coos Bay Times.)
WASHINGTON, D. C., May 1.—Senator Kenyon introduced a bill to repeal the act incorporating the General Education Board, to which John D. Rockefeller contributed \$42,000,000 in 1903 for carrying on farm demonstration and other educational work. Among the contributions to the Board was over \$2,000,000 worth of stock of the Colorado Fuel & Iron Company, now involved in the strike war.

FOREST NOTES

The forest officers in Washington and Oregon, are writing popular descriptions of the trees on the Crater and Mt. Rainier national parks, for the use of visitors to the parks.

Gannett Peak, Wyoming, nearly 14,000 feet in elevation, and the highest mountain in the state, is on the divide between the Bonneville and Bridger national forests.

In northern Arizona, Utah, Nevada, southern Idaho, and western Wyoming, the fires on national forests set by campers have decreased in four years from nearly a third to approximately one-fifth. Lightning fires have increased from less than one-fourth to nearly one-half. The relatively larger proportion from lightning, however, is due partly to decrease in other causes.
