Measles and Over 400 Attend Opening of New Lodge Room and Join in Festivities

EAGLES HOLD

The opening of the new hall and lodge rooms of the Fraternal Order of Eagles was celebrated last night was one of the largest and most suc-cessful in the history of fraternal orders on Coos Bay.

The Eagles with their lady guests assembled about 9 o'clock in the lodge room on the third floor. Everyone, and particularly the ladies, other Mrs. Pettit of Old Town. Mr. Raab said that as long as the moving picture shows and other of the lodge room cost over \$300. * Handsome Hall.

Liberty, truth. justice and equality, the motto of the order, is posted in conspicuous places. The four words occupy separate frames and are hung from the four walls of the room. American flags, flowers and eagles formed part of the decorative scheme. A picture of Hy D. Davis, Grand Worthy President of the Order, 1905-1906, adorns the entrance to the lodge room.

In the lodge room were a number of card tables and other facilities for games of various descriptions. On the second floor of the building are the dancing hall and pool rooms. All of the equipment was put into service last night. Of course nearly all joined in dancing, but the few who were a little backward in that respect found recreation in card games, pool or other amusements

Dance Big Event. The dance formed the principal event of the evening. Old and young joined in both the modern and oldhelp the guests get acquainted and partners were readily found for those who were without one. Keyzer's Orchestra of eight pieces furnished

excellent music for the occasion. Following the dance the party as-sembled in the banquet room, where a very elaborate feast was served. Owing to the large number of people present it was necessary to spread a second and third table. Those who could not find places at the first table kept on dancing or gathered in the social rooms. Officers of the order had arranged to deliver addresses on 181. Each person is requested to the guests in the banquet room at one wear a white flower at the service time the speech making was called off.

Officers Named.

Among the officers of the order are C. C. Going, president; E. D. Noonan, vice president; J. B. Sneddon, secretary; August Frizeen, treas-

After hearing talks by a number of Marshfield men this morning, the Coos County Commissioners re-He was convicted and sentenced to jected a report made by the special road viewers on the Marshfield-to-the-Sea boulevard and ordered them to submit a new and more complete report at the first meet-ing in June. The meeting was one

of the most animated that the County Court has known in a long time, a big delegation from Marshinsisting on action on the field matter.

The report of the viewers tn brief was "that the proposed boulevard is unimportant, and the traf-fic does not justify its construction." It was signed by all three, County Engineer Gauld, Viewer Weekly and County Roadmaster P. M. Hali-Lewis. The report came as a distinct surprise to the Marshfield men, especially the signing of it by Hall-Lewis, as they expected that he would make at least a more com-

R. Tower, who returned this eek from Portland, says that a most unusual condition exists in automo-bile circles in the Rose City. There are plenty of the standard cars of all makes to be had except the Buick and the demand for this car has been such that it cannot be supplied. Mr. Tower had placed an order for a carload of Buicks, but this with an order for fifty-three carloads from the Pacific northwest, was cancelled.

By energetic personal effort Mr. Tower succeeded in securing the three Buicks which were received on the last Breakwater. It is now impossihle to secure any model B37 or 24 this season. It is still possible for a short time to get the "Buick Six" and the small touring car, but orders must

be placed soon even to get these. The Buick factory will turn out 32,000 cars this season and every one has been taken this early in the season.

There's a reason. Ask any Buick owner. Then see I. R. Tower. limits.

F. K. Gettins, Dr. Straw and a number of others made talks on the matter. Mr. Gettins pointed out that it was impossible for the committee to have gained any adequate idea of the route from the few hours spent on it. The Marshfield delegation who appeared before the County Commissioners and urged the matter were Dr. Straw, A. T. Haines, F. E. Hague, Dorsey Kreit-Haihes, F. E. Hague, Dorsey Kreit-ier, Br. Houseworth, I. M. Condron, F. K. Gettins, A. B. Gidley, C. I. Reigard, A. Y. Myers, W. U. Doug-las, W. J. Conrad, D. L. Bucking-ham, R. O. Graves and H. Vaughan, Dr. Bartle, of North Bend, was also present and urged i

Reject Ferndale Road

The plan of City Engineer Buck-ingham to have the county change part of the old road through Ferndale to connect up with streets that it is proposed to open was turned down by the County Court.

which he used. A GOOD IDEA.

The Oregon Supreme Court has decided that Grants Pass has the right under the act passed at the session of the legislature to build a railroad outside of its city That city has issued \$200, 000 bonds for building a railroad *** Wilderville, the people having voted favorably on the proposition at the last city election. This is the first link for a proposed rall-road to the coast at Crescent City. the people of Roseburg are Now getting busy, under the same plan, in promoting a railroad from that Douglas county metropolis to Coos Bay. The idea may take root else-where in Oregon.-Salem Statesman.

BITULITHIC PROVES 11'S WORTH.

Cheapness and Durability Make It Most Desirable to Pendleton.

For a pavement that has the two essential virtues, durability and encapness, bitulithic tops the list, and it is not an accident that practically ninety per cent of the property owners on West Court street and Jackson street who stood for improve-ment also stood for this kind of pavement. The quality of the pavement has been seen on these two city thor-oughfares and, as a result, property owners on other streets are swinging into line and they, too, are asking for bitulithic. There's a reason and that reason is the inherent virtues of the pavement, and the strength of the guarantee behind it
