Industrial Review of the State

NEW FACTORIES, IMPROVEMENTS AND ENTERPRISES THAT
 INCREASE THE PAYROLLS AND PROMOTE THE DEVELOP-
 MENT OF OREGON

SALEM, May 4.—During the past week two decisions have been rendered affecting industries. A federal court at Portland upheld the Oregon Blue Sky law, and the Supreme Court upheld the second suit brought by a working girl against the Minimum Wage law. Both will now be taken to the Supreme Court of the United States.

It is proposed to utilize the wire grass that grows on Youngs Bay near Astoria for the manufacture of paper. This week the manufacturers of Lane county will hold an exhibit of their products to encourage home industries.

The Dalles has bought 140 acres on the water front to give free sites for factories.

The Supreme Court has upheld the \$200,000 bond issue of Grants Pass for the purpose of building a section of railroad to the coast.

To relieve unemployed, a bill has been introduced to tax all estates of \$50,000 and over ten per cent for a fund to be expended by a department of public works.

A special vessel has been chartered to carry forty-eight great Oregon logs to the Panama Exposition for columns for the Oregon building.

The Toledo co-operative creamery is now in operation.

The Oregon Railroad Commission is examining the books and accounts of about fifty public utility corporations to ascertain their physical value and earnings.

Malheur county Pomona grange went on record as opposed to taxing mortgages, as tending to raise interest and keep capital out of Oregon.

Astoria has appointed an industrial commissioner to promote factories in the person of O. W. Taylor.

Molalla raised a bonus of \$2000 for a pottery plant that is being erected and will soon be in operation.

A factory for the manufacture of lead pipe has been established at Portland, capable of making 5000 miles a year.

Gresham fruit growers are moving to establish a cannery.

It was stated at the Portland Rotary Club that anyone with a fair reputation and a good pair of lungs could put over almost any kind of a freak measure in Oregon.

Astoria has asked bids for the first unit of public docks to unite rail and water transportation.

North Powder has passed an ordinance to construct a gravity water system.

The proposed \$1500 tax exemption would raise the tax on industries fully twenty-five per cent in the opinion of experts.

Cottage Grove is erecting a cannery to cost \$6000.

The Clearwater Lumber company of Portland is clearing the site for the erection of a big mill.

The farmers around Burns have let a contract for the erection of a co-operative meat packing plant.

The J. K. Armsby Fruit company is establishing a packing house at Roseburg.

The De Luse Mining & Dredging company has bought a large orchard at Gold Hill and will work the ground for placer gold.

Three candidates for Governor and several other aspirants are baiting voters with intemperate measures at their own expense.

The Presbyterian church of Eugene will be rebuilt of white pressed brick—Oregon made.

A pool of mohair sold at Cottage Grove for 27 1-2 cents this year that last year brought 34 cents. Last year the mohair mills at Portland had not suspended.

The Dornbecher Furniture Manufacturing company will build another two-story concrete addition to its plant at Portland.

Most Children's Diseases Start with a Cold.
 Restlessness, feverishness, an inflamed throat and spasmodic cough—maybe whooping cough is starting in. Give Foley's Honey and Tar promptly. It helps the children so very much, and Mrs. Shippo, Raymondville, Mo., says: "I got fine results from it and it is a great medicine for whooping cough." Owl Prescription Pharmacy, Frank D.
