

Political Announcements

FROM COOS BAY TO CONGRESS.

Over in the Coos Bay country most everybody calls him Fred—his formal title is Frederick—and one and all agree that Hollister is the happy successor to Hawley as congressman from the first district. Also, so infectious is the home sentiment of

FREDERICK HOLLISTER
Democratic Candidate for Congress.

those who have known him best, the same feeling is common in the corner councils of state democracy. Politics aside, the nomination of Fred Hollister, by the party at the primary would effectually serve the state by presenting a candidate upon whose election fair-minded and progressive men everywhere could unite.

While Hollister is of the coast country, his democracy is broad enough to dwarf the local selfishness of many who have aforesight sought the halls of Congress to further pet locality measures. A trained business man and attorney, with faith in his state and energy to further its advancement, he possesses the ability to transform his ideals into concrete and beneficial results—and would be distinctively a congressman from all Oregon.

Fred Hollister's home is at North Bend, so named from the conformation of Coos Bay at that point. At the present time he is serving as a member of the council—to which he was elected by the highest majority of any member now in office. He has been a dweller and a doer in the city with the curved name for eleven years, and the home folks want him to keep on residing—which is, in itself, no slight tribute to popularity. He is a bank director and bank president in two financial institutions. Heretofore he has declined all opportunity to receive official advancement in his home county or state. In Coos county he bears the reputation of having been prominently identified with and for every progressive movement transpiring during his residence there. Throughout the state he is widely known as an exceptionally talented attorney. So much for Hollister at home.

Nomination of the Coos county man by the state democracy at the primaries would almost infallibly predict the defeat of Hawley, who seeks the republican renomination and election and whose record contains little to recommend him to the electorate of Oregon. Hollister has been hailed by a certain coast paper as the "man to beat Hawley." In the clear light of a growing statewide sentiment this seems to be as politically probable as it may well be—surely it is devoutly to be wished.

Jackson county democrats are talking Hollister with every expression of approval and will uphold these sentiments at the polls—thereby serving the district, the state and the nation. "From Coos Bay to Congress" is written in the political horoscope of Hollister—and the fall of the political house of Hawley is already attested by the rapid and alarming decay of the present congressman's prestige at home and elsewhere. It is kismet—the unalterable and unavoidable. Oregon will again signify that party politics have ceased to charm when the way to our common benefit is plain.

—From the Gold Hill News, April 18, 1914.

To the Democratic Party of the First Congressional District of Oregon:

The Democratic County Central Committee of Coos County wish to herewith state that Mr. Frederick Hollister has received the endorsement of our committee for the office of Representative in Congress from this district.

We are glad to say personally that Mr. Hollister is a clean, aggressive Democrat; that he has lived with us in Coos County for some eleven years, and that during that time he has built up a reputation among his associates and acquaintances for honesty, sobriety and ability. We cordially recommend Mr. Hollister to you for your support at the coming Primary Election, believing and knowing that if-nominated that he will be in the fight all the time.

Yours for success, Hugh McLain, Chairman Democratic Central Committee, Coos County; W. J. Rust, Secretary Democratic Central Committee, Coos County.—(Paid Adv.)

F. E. CONWAY MOVES PERMANENT HOME TO COOS BAY

F. E. Conway arrived yesterday, bag and baggage, having sold his Ashland home, shipped 8000 pounds of personal and office effects and come to make his permanent home on Coos Bay with the intention of becoming permanently identified with Coos Bay.

Owing to lack of quarters in Marshfield Mrs. Conway went to visit in

and do their proportion of boosting for anything that is for the good of the people and will help make a greater Coos Bay.

Mr. Conway has come to the Bay in spite of the fact that he has large holdings of undeveloped property in Ashland and at a time when that city is on the eve of great things, as the people there are about to vote

pany, with business interests at Ashland, Marshfield, Yreka, California, and half a dozen other cities in this section. Mr. Conway says there is no question in his mind that Ashland is on the verge of her greatest growth as a result of the development of her splendid mineral springs and the creation of a great health and pleasure resort—the initial step

FINE APARTMENT HOUSE TO BE BUILT AT SIXTH AND CENTRAL BY F. E. CONWAY.

Seattle with her parents and to study voice until the new Conway apartments here are completed. In which they will make their own home. The Conway apartments will be erected as soon as the site is in condition and the material can be collected. In discussing his plans, Mr. Conway said:

"The Conway company is here to make one of you and expect to do their little bit toward the support of local institutions and in the upbuilding of Coos Bay. They wish to be friends with everybody and will do their utmost to give everybody a square deal, and will greatly appreciate being given a square deal in return.

"As far, or a little further, than sound business principles will permit, they wish to use local men in their operations and desire to buy through local merchants.

"They stand ready to get behind

\$175,000 bonds to develop their wonderful mineral springs and as all the conditions are ideal there it will make one of the greatest health resorts in the world.

Great influence was brought to bear on the Conway company to remain in Ashland, their many friends thinking they were making a mistake in leaving there now when their efforts will soon be needed there.

The company will build and sell bungalows on time as they have in the past all over the coast, and will do a general building contracting business. They will not interfere with other business, especially such as material or architectural lines.

The Ashland Record prints the following:

One of the most enthusiastic supporters of Ashland's mineral springs resort proposition is F. E. Conway of the F. E. Conway Construction Com-

pany, in which will be the voting of \$175,000 bonds for which the citizens of Ashland are now enthusiastic.

Mr. Conway moved his headquarters to Marshfield last season and did a large amount of building there. He now has under way at that place a splendid modern apartment house and left Ashland this week for that city to push the work along. Deciding to sell his fine bungalow home here before leaving and being in a hurry to get away, he did a little special advertising and within a few days had over a dozen applicants for the property. He declares that this is undoubted indication of a revival in real estate at Ashland as no amount of advertising during the dull period of the past two years has seemed to interest the public in real estate.

Mr. Conway sold his property Monday evening to Mrs. Anna E. Hensley at the price which he asked for it.

Dip From the Argentine Tango

ALTHOUGH not suitable for ballroom dancing, this step from the Argentine is very effective. It is usually preceded by three open walking steps, a point or swing and then the dip. When on a crowded floor the same step can be used by moderating the dip a little. The movements must be slow and timed to the music in this dance. Don't stand away from your partner and make sure that you are both doing the same thing at the same time.

ELECTRIC IRON CAUSE OF BLAZE.

The stock of the Bandon Dry Goods company's store was damaged by a blaze starting about ten o'clock Saturday night in the dress-making parlors occupying the rear end of the store. It is supposed that the fire originated from an electric iron that had been accidentally left connected up and at the time of the discovery was well on the way towards a disastrous conflagration. The chemical was brought into action and the flames extinguished.—Bandon World.
